How to use our price list

At the start of each product range you'll find a grey **Materials** box outlining the available finishes, and the price bands they fit into.

Most product ranges are split into two or more price groups marked **G1, G2**, etc. You'll find a short breakdown of each price group in a grey box at the start of each list section.

Details and swatches for every finish and fabric can be found at the back of the price list.

Please note: not every colour from some fabric ranges is available on Narbutas products.

Experience the difference Join our global dealer network

We stock and sell our three brands of office furniture and accessories exclusively to the trade so we never compete with our dealers. Your business is our business, so we strive to support you with sales leads and extensive resources.

formetiq®

Our innovative range of contemporary furniture is designed to efficiently enable modern working environment and practice.

Everything we create aligns with our three core beliefs: it must look beautiful (form), work well for you (function) and be made in the most resource-effective manner (intelligent design). We aim to redefine work as a place that feels right so choosing furniture for the workplace should be a pleasure not a chore. Time spent in a well-designed workspace will be a pleasure too and an improved working environment invariably brings increased productivity.

narbutas

Narbutas design and manufacture modern, durable and functional furniture from their 36,600m² factory headquarters in Lithuania.

As Narbutas' largest accredited partner-distributor, we bring unique product expertise and unrivalled service to every workspace design project. With Arrow not only can you order any item from the entire Narbutas range (no minimum order) but we also hold large amounts of Narbutas stock.

Some of Arrow's sales and support staff come from dealer backgrounds, so we can empathise with your challenges in a way other manufacturers can't.

M METALICON®

Our range of ergonomic office furniture accessories.

Intelligently designed by our team of experts, the Metalicon® range was launched back in 2013 in response to a growing need for robust but refined accessories to support the office furniture market. We now supply our patented Metalicon® products to customers worldwide.

The Metalicon range includes pole and gas-lift monitor arms, CPU holders, sit/stand desk mats, vertical cable managers and power modules.

Reassuring quality

As well as being fantastic value for money all Narbutas, Formetiq® and Metalicon® products conform to relevant European or British manufacturing standards.

Guaranteed results

We offer a minimum 5 year guarantee on all our non-electrical products, including sit/stand desks, and minimum 1 year guarantee on all our electrical products. Metalicon Boost, Powerlink, Solo and Access modules now come with an extended 5 year guarantee! Narbutas offer a 10 year manufacturer warranty on the majority of their products. Exclusions apply.*

Looking after our planet

All our timber products are Rainforest Alliance, FSC or similarly accredited.

Since 2018 we have been focused on eliminating plastic from our product packaging. The majority of our Metalicon® packaging is already made using recycled paper-based materials which can also be recycled again and our aim is to have all our own branded packaging completely plastic free by 2023. Look out for our Ocean Friendly logo on Metalicon® product packaging.

INSTALLATION

Did you know Arrow have our own full time directly employed installation teams? Highly trained and skilled, we offer a comprehensive service including installation of other manufacturers' products alongside our own. For an effective solution to eliminate third parties and extra suppliers, why not ask us for an install quote on your next order?

SPACE PLANNING

You can increase the efficiency of your office by making the most of the space available. Thanks to the wide variety of desk shapes and sizes in our furniture ranges, you can plan your layout the way you want it. For help and advice with the design of your office space, please speak to our Sales Team, we will be glad to assist you in any way we can.

FAST TRACK DELIVERY

Many items are carried in stock in a variety of popular colours. All stock items are available on a fast delivery service, we love hitting a deadline. Factory and project orders are typically three to four weeks, so do discuss your delivery requirements in good time for your project.

* 5 years on drawers, sliding and tambour doors, worksurfaces, foam parts, upholstery materials (fabric, textile).

Nova

Bench desking system

See Nova desktop screens

There's beauty in simplicity, and Nova combines clean and minimal aesthetics with great functionality.

The Nova shared leg system keeps costs to a minimum. Metal-to-metal construction and reduces assembly time with just one tool required.

Choose from 3 leg frame options: goalpost (U), angled (A) and loop (O) as well as 3 types of desktop: straight back, scoop back or with an integrated cable flap.

Straight leg desks are available with a sliding desktop option offering up to 140mm of movement and allowing easy access to cable management beneath the desk.

The Nova range also offers a manual height adjustable desk frame option with a height range of 620-850 mm.

Nova desks are available in 9 different desktop finishes and 4 metal leg/frame finishes.

Nova Wood

Bench desking system

The Nova Wooden leg desk range features solid wooden legs that are lacquered and stained in a natural ash finish with metal inserts for assembly and hidden height levelling feet.

The desks are easy to install with metal-to-metal fixings and require only one tool for assembly. The high pressure laminate desktop option features a tapered underside edge portraying a sharp, delicate edge which is softened by curved corners and inset wooden legs in a natural ash finish.

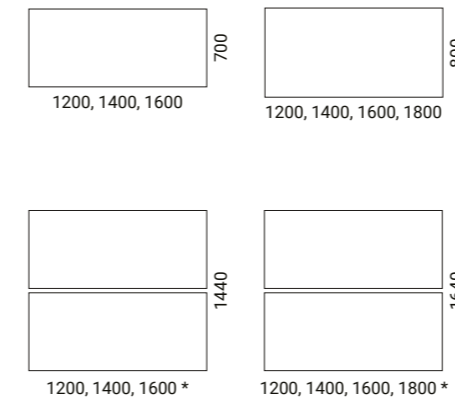

HPL Fenix

The HPL Fenix finish option is a surface treated with next-generation resins, hardened and fixed through a nanotechnology process giving the surface unique qualities including a super matt finish with low-light reflectivity, an ultra-resistant soft touch surface which is resistant to scratches and abrasion. Any micro scratches can be removed with heating.

Range

MFC top with straight ABS edge

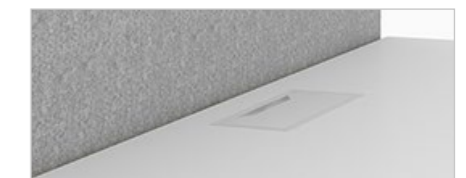

HPL / HPL Fenix top with chamfered edge and rounded corners

Straight back desktop

Scoop back desktop

Desktop with cable flap

Technical details

Desktop

- 25mm MFC with 2mm ABS edging
- 26mm MDF covered in HPL with chamfered painted edges
- The chamfered edge is on the underside of the table and is 77mm deep tapering from 26mm to 11mm at the table edge
- Corners of chamfered desktop are rounded: R100mm
- 10mm gap between the legs and the desktop
- 40mm gap between the desktops in back-to-back benches

Metal beam

- 40 x 20 mm metal tube with welded metal plates for leg fixing
- Powder coated metal

Legs

- Lacquered and stained natural ash solid wood
- Glued wood construction with metal inserts for fixing
- Plastic height levelling feet (+10mm)
- Central solid wood leg fixed into powder coated metal tube: 120x40 mm

Materials

Band A MFC

- Whitened Oak (D1)
- Amber Oak (D2)
- White (M1)
- White with Amber Oak edge (M1D2)
- Pearl Grey (N3)
- Dark Grey (N1)

Band B MFC

- Sand Ash (D3)
- Dark Walnut (D4)
- Grey Wood (D5)
- Cubanit Grey (N2)
- Black (J4)

HPL / Fenix

- White top, black edge (H70B01)
- White top, white edge (H70B02)
- Black top, black edge (H16B01)
- Grey top, grey edge (H17B03)

Solid wood legs

- Stained Ash (W2)
- Ash stained Black (W3)

Frame Metal

- Dark Grey (T1) - MFC desks only
- Black (A)
- Grey (M) - MFC desks only
- White (E)

*To increase the number of workplaces, use supplementary units.
Please note: Chamfered edge extension units can only be added to 4 desk benches

Round

Bench desking & storage system

See Round PET screens

The new Round desking system promises a win-win situation in organising workplaces in large open plan offices.

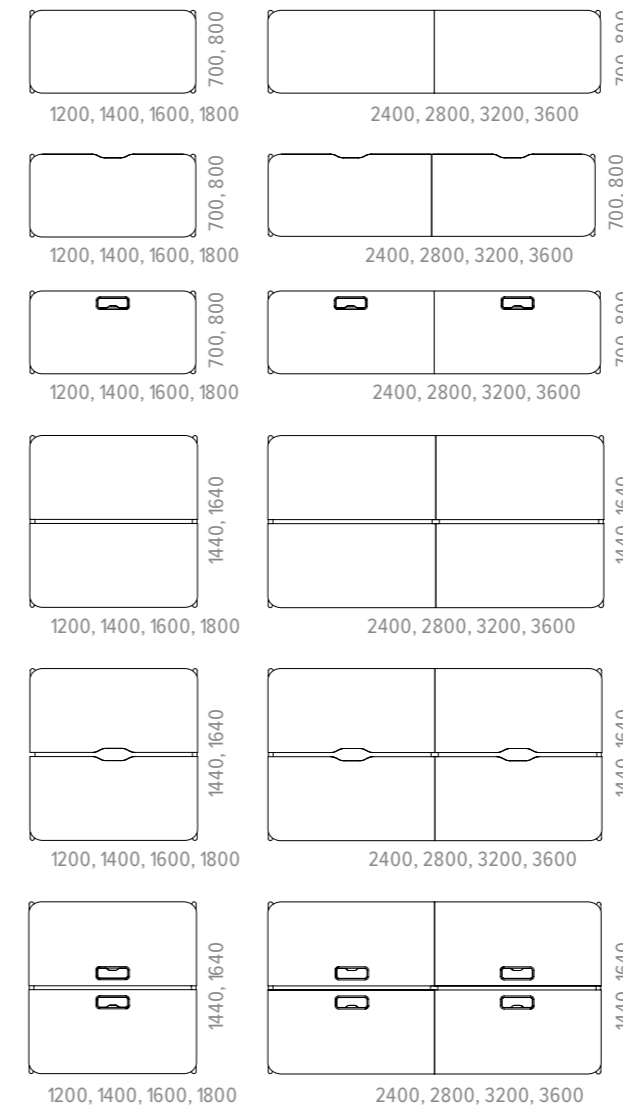

Round desk system allows you to effectively use the office space and to easily create comfortable workplaces which can be either open or which can offer greater privacy to fit your team's needs. This system offers everything you need to create efficiently designed workplaces which boost employee productivity and help them succeed in pursuing their goals.

Supplementary units are available in rectangular only. For rounded single row benches you must start with a 2-desk bench. For rounded back-to-back benches with more than 2 desks you must start with a 4-desk bench.

Optima

MFC cantilever & panel leg desks

See Optima screens

OPTIMA C

A superb range of twin post cantilever leg desking.

This attractive range includes almost 30 different desk shapes and sizes to fit every situation. Quality 25mm MFC tops and modesty panels in a choice of 8 finishes.

Choose from white, grey or black legs and optional white or grey cable management leg inserts. The smart triple compartment vertical cable trunks simply push into the desk leg. We recommend use with modesty fix cable trays.

OPTIMA PLUS

A versatile range of well priced, traditionally styled panel leg office furniture.

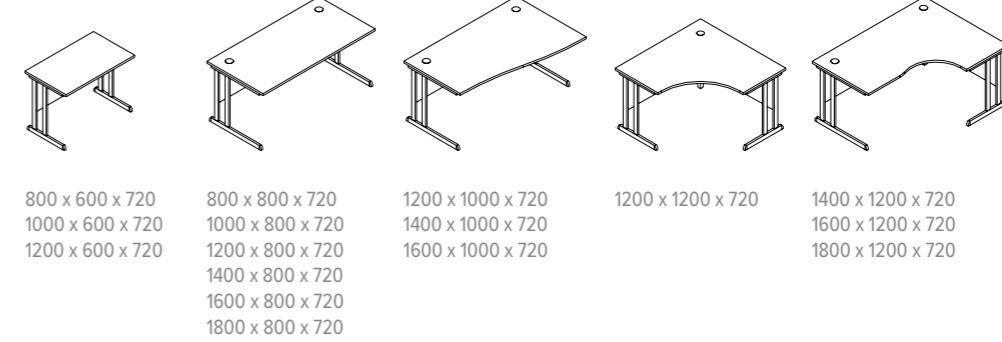

25mm work tops with 2mm edging, solid 25mm leg and modesty panels with 8 MFC finishes to choose from.

Don't miss the complete range of matching Optima pedestals and storage (page 170) and meeting tables (page 130).

Air

MFC desks

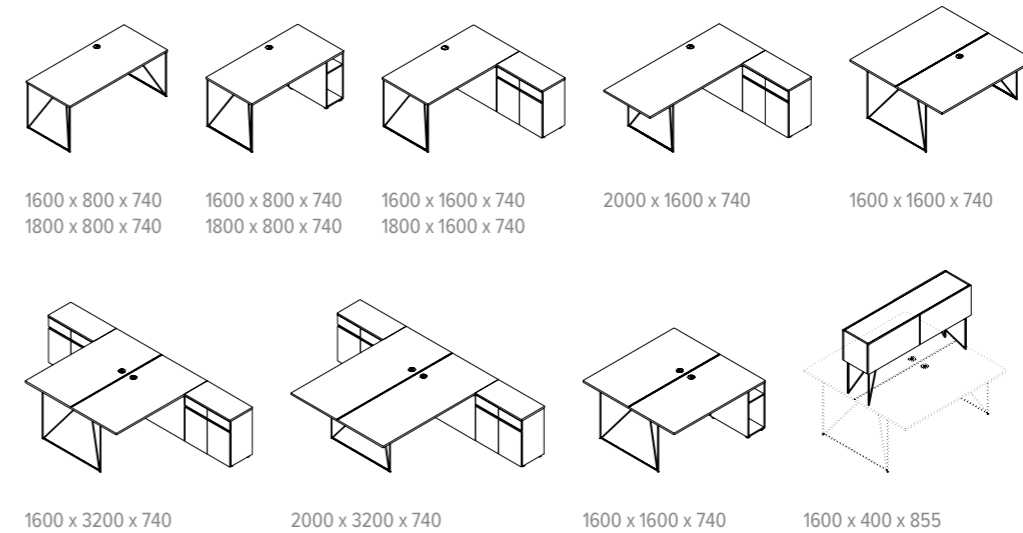

An attractive feature of Air desks is the thin profile metal legs which convey a sense of lightness whilst maintaining stability and durability,

The minimalist form combines different textures and colours and is characterised by progressive structural design that creates a unique style.

Range

Technical details

Desktop

- 25mm MFC with 2mm ABS edging

Desk Legs

- Powder coated welded metal construction from 12mm tube
- Plastic height levelling feet (+10 mm)

Metal beam (under desktop)

- Metal tube - 40x20 mm and 20x20 mm
- Powder coated metal, colour matches the legs

Desk Cable Port

- Ø80 mm semi-transparent matte plastic in grey outline

Cabinet carcass and shelves

- 18mm MFC with 1mm ABS edging
- Cabinet fixed on 2-desk bench has 0.5mm ABS edging

Cabinet doors

- 18mm MFC with 1mm ABS edging
- Handleless doors with aluminium profile in between for easy opening
- Cabinet fixed on 2-desk bench has no handles

Fixed cabinet fittings

- Cams with connecting bolts
- Fast assembling hinges (no tools required to connect hinges and plates)
- Cabinet fixed on 2-desk bench has gas spring and soft closing

Fixed cabinet plastic legs

- Black plastic height levelling feet, H23mm (+10 mm)

Metal supports on cabinet fixed on 2 desk bench

- Powder coated welded 12mm metal tube

Materials

Band A MFC

- Whitened Oak (D1)
- Amber Oak (D2)
- White (M1)
- Dark Grey (N1)
- Pearl Grey (N3)

Dark Grey (N1) is not available on desktops

Alto

Two & three stage standing desks & bench desks

Advanced anti-collision with adjustable sensitivity on Alto 2

Our Alto standing desk range makes ergonomic height adjustable working an affordable prospect.

Alto 1 offers an economical standing solution to your workspace with a quiet motor providing smooth height adjustment and a simple, easy-to-use control panel.

Alto 2 provides all you need in a height adjustable workstation, packed full of features including powerful twin motors for fast height adjustment and an advanced anti-collision system with adjustable sensitivity.

Easily save your most comfortable working positions with 3 height memory presets, the handy reminder function will notify you when it's time to switch position! Multiple desktop finishes are available to match the Alto desks to your existing desking.

The Alto 2 back-to-back bench desk includes all the premium features of the Alto 2 single desk with the addition of optional universal screen brackets and an optional adjustable central cable tray.

Technical details

Alto 1 Desk

Two stage frame

- 2 reversed rectangular columns
- Finishes: Black / White / Grey
- Height range: 710-1210 mm
- Stroke length: 500mm
- Load capacity: 154lbs / 70kg
- Desktop width 1000-1600 mm
- Desktop depth 500-800 mm

Single Motor

- Anti-collision system
- Motor speed 25mm/s
- Power 100-240 v
- Sound level <50dB

Control panel

- Height adjustment (up/down)

EU power cable available

Warranty: 5 years

Alto 2 Desk

Three stage frame

- 3 holeless square columns
- Integrated cable tidy
- Finishes: Black / White / Grey
- Height range: 580-1230 mm
- Stroke length: 650mm
- Load capacity: 275lbs / 125kg
- Desktop width 1100-1900 mm
- Desktop depth 700 or 800 mm

Twin/Dual Motor

- Advanced anti-collision system
- Motor speed: 38mm/s
- Power 100v-240v
- Sound level: <50dB

Control panel

- Height adjustment
- 3 height memory presets
- Height display
- Reminder timer function

EU power cable available

Warranty: 5 years

Alto 2 Bench

Three stage frame

- 3 holeless square columns
- Optional cable tray
- Optional divider screen brackets
- Finishes: Black / White
- Height range: 580-1230 mm
- Stroke length: 650mm
- Load capacity: 275lbs / 125kg
- Desktop width 1100-1900 mm
- Desktop depth 700 or 800 mm

Twin/Dual Motor

- Advanced anti-collision system
- Motor speed: 38mm/s
- Power 100v-240v
- Sound level: <50dB

Control panel

- Height adjustment
- 3 height memory presets
- Height display

Motion

Two & three stage standing bench desks

Compatible with Modus screens

The Motion system offers electric height adjustable bench desks designed for a flexible arrangement of workstations and a more dynamic working environment, available as single desks or bench desks.

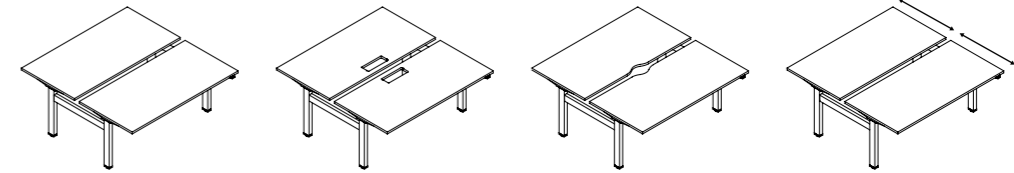

You can adjust the height of the desk with a touch of a button or via Bluetooth remote control from your smartphone.

The control panel also offers a reminder to alternate between sitting and standing positions and includes an anti-collision feature to avoid items getting trapped under the desk, the 3 level feet sensor will automatically stop the desk's movement if it senses an obstacle in its path.

Technical details

Desktop

- 25mm MFC with 2mm ABS edging
- 80mm gap between bench desktops

Frame

- 60 x 45 x 460 mm L-shaped angle
- 40 x 20 mm powder coated metal tube, matches the colour of columns

Lifting columns

- 2 or 3 stage columns
- Anti-collision feature included with 3 stage columns available for 2 stage columns with ZZZ372 sensor
- Twin motors with soft start and soft stop
- Up to 38mm/sec lifting speed
- Stroke length: 2 stage: 500mm, 3 stage: 650mm
- 50 x 80 mm rectangular tube
- Up to 80kg lifting capacity
- Powder coated metal, matches the colour of frame
- Column levellers up to 10mm
- MFC side column covers, colour combinations possible

Electronic data power unit

- Input: 230V (or 120V for US)
- Frequency: 50Hz (or 60Hz for US)
- Output: 12 - 40 V, 9A
- Option of UK, EU or CH type power cable
- Energy consumption: standby 0.1W
- Operating cycle: 1 minute on / 9 minutes off

Connecting component (DOZ008)

- 2 metal components, assemble without screws
- Matches the colour of columns and frame
- 30mm distance between desktops, 85mm distance between columns

Desk control button types

- BA / TA / TE: Up and down adjustment
- MA: Up and down adjustment and 3 memory position
- LA: Up and down adjustment, 2 memory positions, LED reminder, integrated Bluetooth

Screens

- Frame made of 18x80 mm MDF
- Central layer of 20mm open-cell foam made of melamine resin (BASOTECT G+)
- Second layer is made of VB3842 10mm foam both sides
- Third layer is made of VB2240 3mm foam both sides
- Dowel pins combine two panels
- Fittings are knocked in to the screen
- Attaches to the cable tray holder

Reception panels

Domino reception desk

Domino

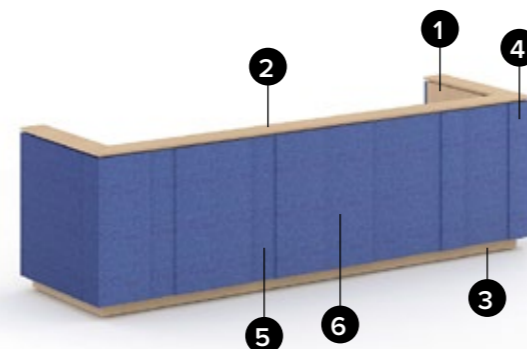

Reception desk system

Domino is a unique piece of furniture that will enable you to create workplace solutions tailored to your needs.

A large choice of fabrics, colours and sizes offers an endless range of combinations. The Domino base is available in 9 different options and acts as a base for matching different colours and textures. 2 available thicknesses of exterior panels (18mm and 31mm) adds character to the pattern being created.

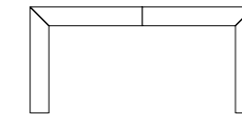

Panels are available in a choice of melamine, natural veneer, or upholstered in a range of fabrics.

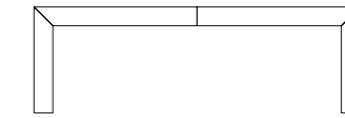

Range

'U' shape

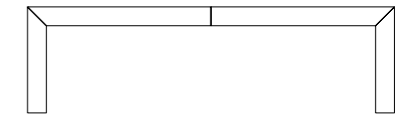

H1100mm

2200x1040 (1x1800mm desk)

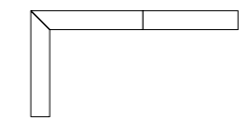

3200x1040 (2x1400mm desk)

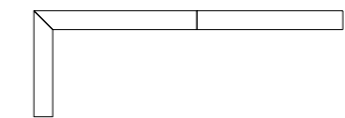

3600x1040 (2x1600mm desk)

'L' shape

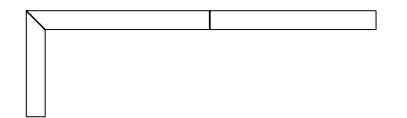

H1100mm

2000x1040 (1x1800mm desk)

3000x1040 (2x1400mm desk)

3400x1040 (2x1600mm desk)

Front panels

Thickness 18/31mm, H972mm

200mm

400mm

600mm

800mm

Technical details

1. Back/inside panel unit

- 18mm chipboard pressed with melamine or 19mm chipboard pressed with veneer

2. Top of upper unit

- 18mm chipboard pressed with melamine with 2mm ABS edges or 19mm chipboard pressed with veneer with 1.5mm edges
- Assembled with a 12mm chipboard support

3. Plinth base

- Exterior part (front and side facades) 18mm chipboard pressed with melamine or veneer

FRONT & SIDE FACADES

4. Side fabric panel (31mm)

- Made of 25mm chipboard
- VB2240 foam (3 mm)

5. Front fabric or solid panel (18mm)

- 12mm chipboard pressed with veneer or melamine, or upholstered with fabric
- 3mm VB2240 foam is used on fabric upholstered panel

6. Front fabric panel (31mm)

- 25mm chipboard with 3mm VB2240 foam

Wire cover cap (black only)

- U shape: 4pcs. included
- L shape: 2pcs. included

Materials

Band A MFC

- Whitened Oak (D1)
- Amber Oak (D2)
- White (M1)
- Pearl Grey (N3)
- Dark Grey (N1)

Band B MFC

- Sand Ash (D3)
- Dark Walnut (D4)
- Grey Wood (D5)
- Cubanit Grey (N2)
- Black (J4)

Band A Veneer

- Oak (AA)
- Ash stained Black (N61)
- Walnut (RR)
- Ash (V1)

Band B Veneer

- Ash stained Dark Brown (N62)
- Walnut stained Grey (N63)

Fabric*

- Step/Step Melange
- Velito
- Camira Synergy
- Gabriel Cyber

* Not every fabric from these ranges is available on Narbutas products - please see Fabrics section at back of price list for details

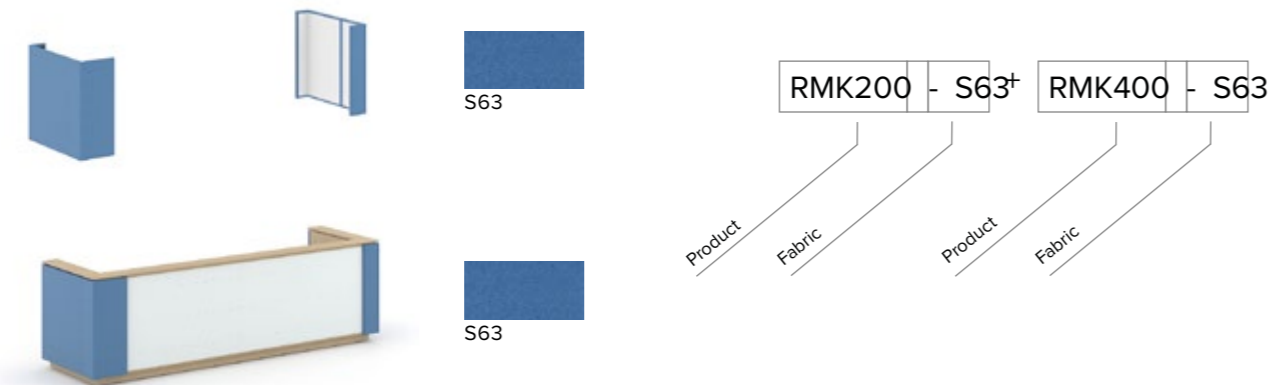

Ordering example

Step 1: Choose carcass shape (U or L shape) and sizes (from 3 available sizes)

Step 2: Choose side fabric panels

RMK200 + RMK200 or RMK400 + RMK400 is not possible

Step 3: Choose a set of front panels

Required front panel set length for RMS360 (2 desks x 1600mm) is 3000 mm

- ① RMP202 – N1
- ② RMP601 – S63
- ③ RMP202 – D4
- ④ RMP401 – S16
- ⑤ RMP401 – S17
- ⑥ RMP602 – D2
- ⑦ RMP201 - GP5
- ⑧ RMP400 – S59

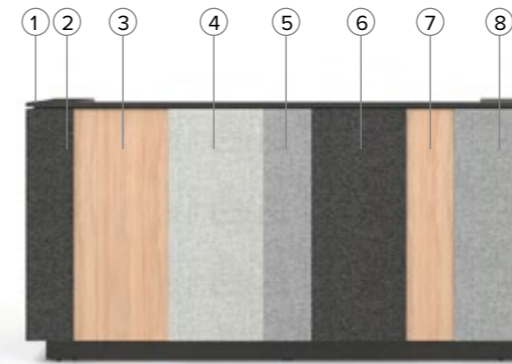

To calculate the total width required for the front panels (to fill the space) subtract the depth of the fabric side panels from the total desk width.

eg. RMS360 W3600mm - D400mm (RMK400) - D200mm (RMK200) = W3000 mm	eg. RMS200 W2035mm - D435mm (RMK201) - D200mm (RMK200) = W1400 mm
---	---

Final Product

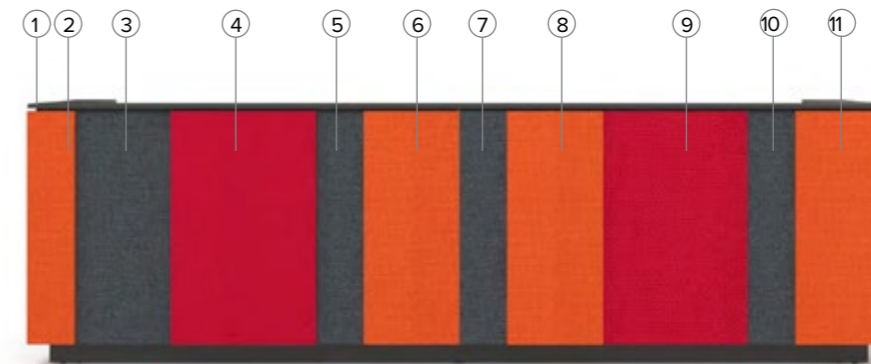

Panel combination examples

2200mm (1 x 1800 desk)

Nova

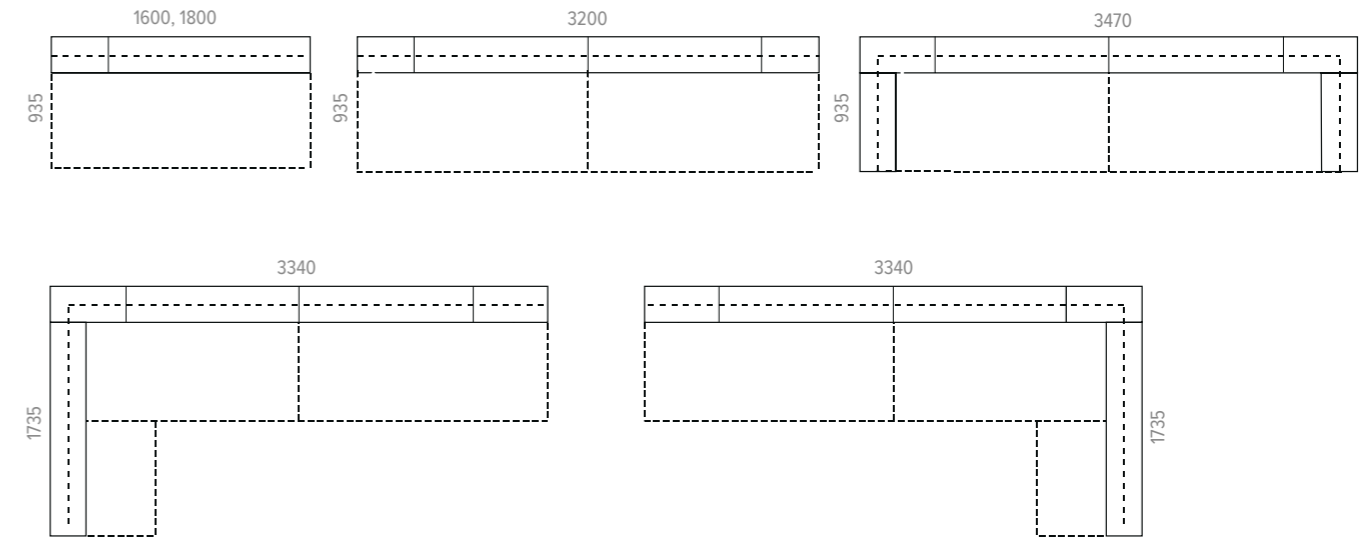

Reception desk panels

Straight, clean, stylish lines mark this simple but effective range of reception fronts to complement the Nova bench desking range.

Contrasting Plexiglas® lines define and break up the panels giving a pleasing effect to large or small runs of panels. Simply choose your Nova desks from the desking section and add the panels from here to create your complete reception unit.

Range

Technical details

Modesty panels

- 18mm MFC with 0.5mm ABS edging
- 6mm Plexiglas® inserts
- Modesty panels are fixed to the desktop and legs with metal brackets

Top of modesty panels

- 25mm MFC with 2mm ABS edging

NOVA DESKS (ORDERED SEPARATELY)

Desktop

- 25mm MFC with 2mm ABS edging
- 10mm gap between the legs and the desktop.

Metal beam

- Metal tube - 40 x 20 mm
- With welded metal plates for leg fixing
- Powder coated metal, colour matches the legs

Legs

- Welded metal tube - 40 x 40 mm
- Powder coated metal
- Plastic feet with height levelling (+10mm)
- Desk height – 740mm

Materials

Band A MFC

- Whitened Oak (D1)
- Amber Oak (D2)
- White (M1)
- Dark Grey (N1)
- Pearl Grey (N3)

Band B MFC

Ice

Reception desk

Minimalistic design with subtle combinations

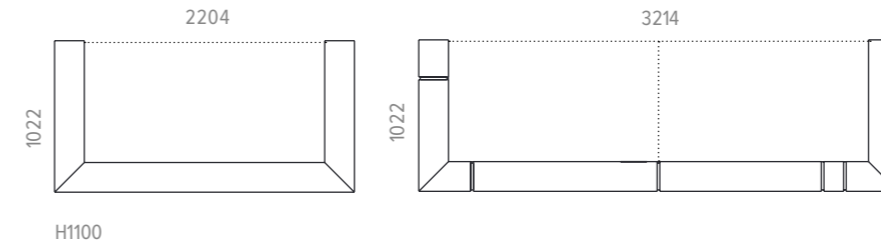

Depending on your vision for the interior, choose between a cozy melamine, or a luxurious veneer finish. Various front and top combinations are also available.

Using the same finish on the top, base and front will create a solid and minimalistic reception unit, which will be as clean and smooth as ice!

Alternatively, introducing a different-coloured top or decorative inserts will allow you to subtly reveal the elegance of this reception unit.

The Ice reception unit fits either one or two workstations, a perfect match for sit/stand or fixed-height desks.

Move & Lead executive sit/stand desk

Arqus NEW

Executive furniture

Arqus is a collection of executive furniture with a modern luxury feel consisting of desks, meeting tables, wardrobes and cabinets. Arqus executive furniture has a modern aesthetic that appeals for its simplicity and elegance.

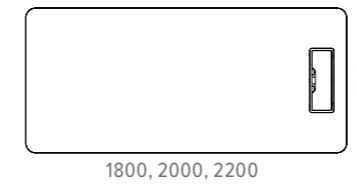

The sleek, subtly rounded shapes and lines of Arqus are reflected in every part of the furniture – in the shape of the legs and the chamfers of the tabletop or cabinets. The collection uses the highest quality materials – natural veneer and leather, symbolising luxury and refinement.

Choose a desk with a regular rectangular desktop or an asymmetric one, where the desktop tapers to the left or right. A fixed pedestal to the left or right of the desk with a height-adjustable shelf and drawers frees up desk space.

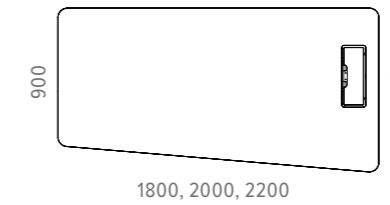

Thoughtful power solutions will allow you to have a comfortable place to work or hold meetings. Executive desks have built-in power socket blocks and meeting tables come with grommets and boxes for the power socket blocks of your choice.

Technical details

DESKS

Desktop

- 30mm chipboard covered in veneer with solid wood profile edging
- Grain direction runs the length of the desktop
- Rectangular or trapezoid shape

Metal frame

- Round powder coated metal structure made of Ø40mm tube
- Cut-outs in one of the two tubes for modesty panel attachment
- Connects between the legs or between the leg and support (desks with a pedestal)

Legs

- Bent and welded round powder coated metal structure made of Ø40mm tube
- Connects with frame and desktop
- Plastic feet with height levelling (+10mm)

Support (for desks with a pedestal)

- Bent and welded round powder coated metal structure made of Ø40mm tube
- Connects with frame, desktop and pedestal

Rectangular grommet with frame

- 13mm veneer cover, grain direction matched with desktop
- Grommet: 370x120mm
- Hinges with a soft-closing function
- Steel powder coated metal frame – 13mm width on top, flush with the desktop surface
- Metal frame: 400x150 mm

Box with power socket block

- Powder coated metal box: 385x130x H120 mm
- Integrated power block with 3 x AC power sockets 100-240V

FIXED PEDESTALS

Carcass

- 18mm MDF covered in veneer with four drawers and two closed storage spaces

Drawers

- Facades are made of 18mm MDF covered in veneer with one solid wood profile edging
- Drawer box is made of 12mm chipboard covered in veneer
- Full extension handleless drawers with hidden runners
- Lockable top corner drawer with bottom covered in leather
- Load capacity: 20kg

Doors

- 18mm chipboard in veneer, push-to open-mechanism
- Enclosed space behind the side doors for cable management (not designed to use on a daily basis)
- One adjustable shelf behind the centre doors (vertically by 192mm)

Base

- Welded powder coated metal rectangular structure of 50x20mm tubes
- Plastic height levelling feet (+10mm)

DESK ACCESSORIES

Modesty panel

- MDF board upholstered with genuine leather
- Connects to desk frame with 3mm powder coated metal holders

File railing

- Set for one bottom drawer
- Suitable for EU / UK / US file standards

TABLES

Tabletop

- 30mm chipboard covered in veneer with solid wood profile edging
- Grain direction runs the length of the tabletop
- Rectangular and boat shaped

Metal legs

- Bent and welded round powder coated metal tube structure made of Ø40mm tube
- Connects with frame and tabletop
- Plastic feet with height levelling (+10mm)

Central leg

- Bent and welded round powder coated metal tube structure, Ø40mm tube
- Connects with frame and tabletop
- Plastic height levelling feet (+10mm)

Metal frame

- Round powder coated metal tube structure, tube Ø40mm
- Connects between the legs

Rectangular grommet with frame

- See grommet with 'DESKS'

Box for power socket block

- Powder coated metal box dimensions – 385x130xH120 mm
- Fixing points for optional power blocks

CABINET + WARDROBE

Carcass

- 18mm chipboard covered in veneer

Shelves

- 18mm chipboard covered in veneer
- Load capacity: 25kg
- Pull-out coat hanger, load capacity: 3kg (Wardrobe only)

Doors

- 18mm chipboard covered in veneer, push-to open-mechanism

Cabinet Legs

- Bent and welded round powder coated metal structure made of Ø40mm tube
- Plastic feet with height levelling (+10mm)

Wardrobe Base

- Rectangular welded powder coated metal structure made of 50x20 mm tube
- Plastic height levelling feet (+10mm)

Technical details

DESK

Desktop

- 25mm MFC with 2mm ABS edging
- 25mm chipboard covered in wood veneer with 2mm edging
- 10mm gap between the legs and the desktop
- Plain desktop or with a cut-out for grommet and wire management

Legs

- Welded metal tube - 40x40 mm;
- Powder coated metal
- Plastic feet with height levelling (+10mm)
- Leg types – U or O

Metal beam

- Powder coated metal tube - 40x20 mm, matches leg colour
- With welded metal plates for leg fixing

CABINET + BOOKCASE

Carcass

- 25mm MFC with 2mm ABS edging
- 25mm chipboard covered in wood veneer with 3mm edging

Back

- 16mm MFC
- 16mm chipboard covered in wood veneer

Shelves

- 18mm MFC with 1mm ABS edging
- 18mm chipboard covered in wood veneer with 1.5mm edging
- Adjustable shelves
- Shelves load capacity – 25kg

Doors

- 18mm MFC with 1mm ABS edging
- 18mm wood veneer chipboard with 1.5 mm edging

Fittings

- Cams with connecting bolts
- Doors without handles with 'push to open' hinges
- Black plastic feet, H5mm

Sliding doors with lock

- Made from 6mm Plexiglas
- 100% recyclable matt and long-lasting surface (resistance to scratching and fingerprints)

Move & Lead

Executive Desks / Storage

Move & Lead is a minimalist, elegant and functional executive office furniture system for a modern leader. It helps to stay on the move and be active even at a work desk. Keep moving, stay healthy and productive.

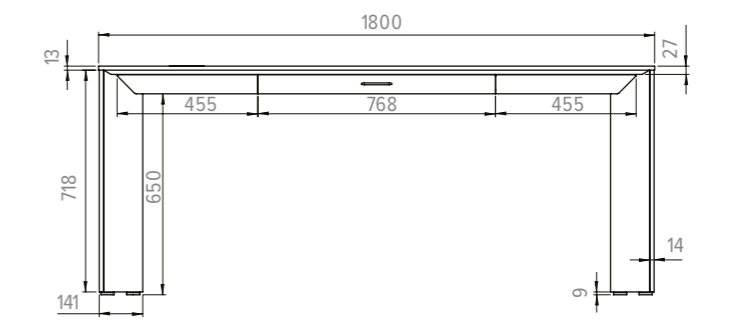

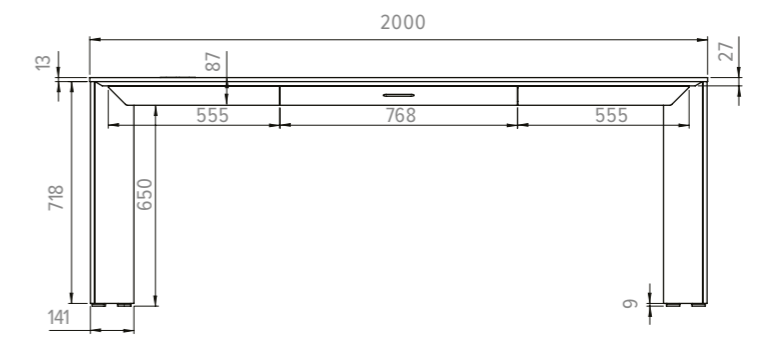

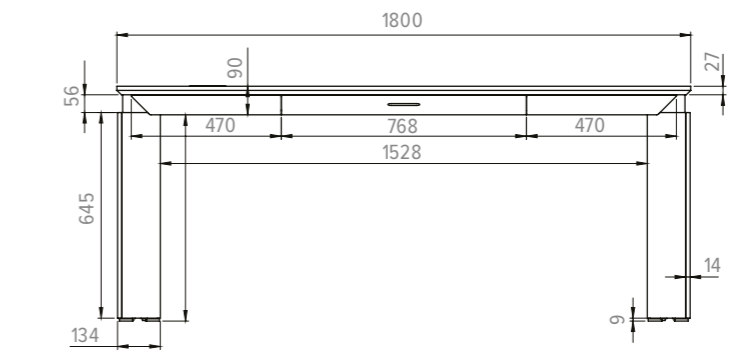

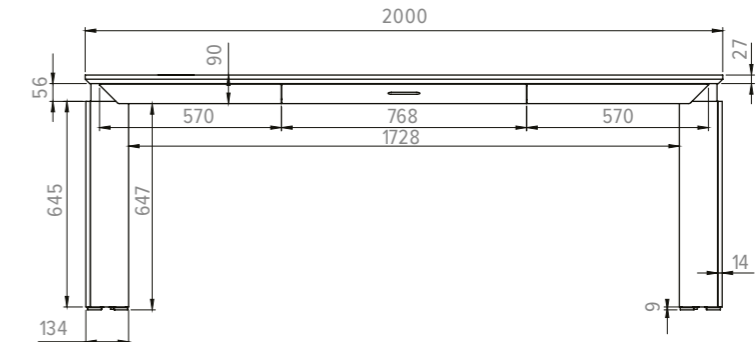

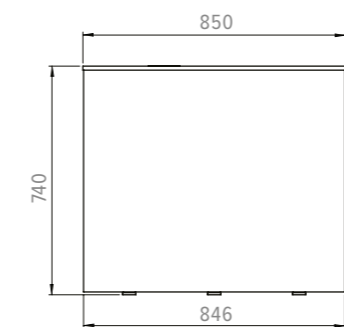

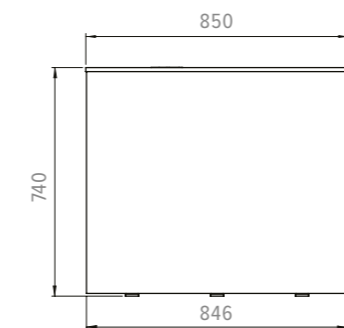

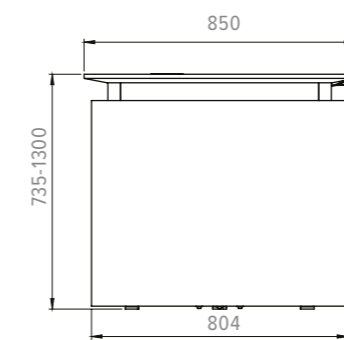

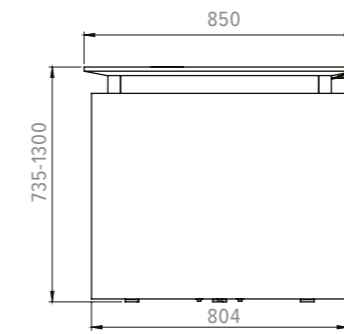

The Move & Lead executive office furniture system combines the best in ergonomics and cutting-edge technology and is designed for active leaders. Height can be adjusted between 784 mm and 1,378 mm so the desk can be easily adapted to personal needs.

A distinct feature of Move & Lead executive furniture is its mature and minimalist design. Clean, elegant lines, smooth transitions and subtle combinations of materials are guaranteed to make a strong visual impact in any office. HPL Fenix finish, natural oak, ash or walnut veneer and polished stainless steel surfaces form a harmonious whole and create a sense of subtle luxury.

Technical details

DESK

Desktop

- 27mm MDF covered in HPL with sloping edges painted same colour as desktop
- Short sloping edges have 48° angle and the long ones 19° angle

Desktop types

- Desktop with a star type cut-out for grommet and cable management
- Desktop with a star type cut-out for grommet and cable management, with built in wireless charging dock

Internal leg*

- 12mm plywood covered in HPL with brushed stainless steel

External leg

- 12mm plywood covered in HPL (external leg side) and lacquered veneer (inner leg side)
- Black plastic height levelling feet, H10mm (+5mm)

Lid under the desktop

- 12mm plywood covered with lacquered veneer

Cable management and power connectivity

- The electricity supply for the sit-stand desk comes via external leg
- Unique star type cut-out with removable 12mm HPL / veneer cover
- Lid under the desktop with access to hidden power sockets and cable management
- Built-in power sockets for desk and external devices, 2-3 slots for sit-stand desk or 3-4 slots for fixed height desk will be free to use depending on the desk configuration (with or without wireless charging dock)

Inner metal frame

- Metal tube – 53 x 21 mm
- Powder coated metal, black colour by default

Desk control button type – LA*

- Up and down drive
- 2 memory positions
- Automatic drive on memory position
- LED reminder
- Integrated Bluetooth

Lifting columns*

- Anti-collision feature
- Two motors
- Soft start and soft stop
- Lifting speed: up to 38mm/sec
- Lifting capacity: up to 40kg

Control box*

- Input: 117-240V
- Frequency: 53/60Hz
- Output: 18V
- Power Plug: EU, UK, CH, FR, US
- Energy consumption: standby 001W
- Operating Cycle: 1 minute on, 10 minutes off

Fast Qi Wireless charger (built in under the desktop):

- Output: 15W charging
- Qi certified

CABINETS

Carcass

- 18mm chipboard covered in wood veneer
- Milled side panel for convenient door opening
- Natural wood / 05mm veneer lacquered edging

Shelves

- 18mm MFC (melamine) with 1mm ABS edging, coloured in black by default
- Shelf load capacity: 15kg

Doors

- 18mm plywood covered in HPL with lacquered plywood edging
- 164° opening angle with soft closing system

Base

- Black plastic height levelling feet, H17mm (+10mm)

WALL SHELVES

Carcass

- 12mm chipboard covered in HPL Fenix with 1mm ABS edging
- 12mm plywood covered in wood veneer
- 18mm MFC (melamine) with 1mm ABS edging, coloured in black by default
- 25mm MDF
- Load capacity: 10kg

DESK PEDESTAL

Carcass

- 18mm chipboard covered in wood veneer
- 18mm MFC (melamine) with 1 / 1 mm ABS edging, black colour by default
- 18mm MDF covered in wood veneer with 05mm edging
- Milled top panel for convenient drawer opening
- Natural wood / 05mm veneer lacquered edging.

Drawers

- 18mm plywood covered in HPL with lacquered plywood edging
- 18mm plywood covered in wood veneer with lacquered plywood edging
- 15mm chipboard covered in wood veneer with 1 / 2 mm edging
- Pencil drawer bottom is milled and covered in black leather
- Full extension runners with soft closing mechanism
- Drawer load capacity – 10kg
- Removable bottle stand inside the bottom drawer (9mm plywood covered in wood veneer)

Leg

- 16mm chipboard covered in HPL Fenix with 1mm ABS edging
- Black plastic height levelling feet, H10mm (+10mm)

2 DRAWER PEDESTAL

Carcass

- 18mm chipboard covered in wood veneer
- 18mm MFC (melamine) with 1 / 1 mm ABS edging, in black colour by default
- 18mm MDF covered in wood veneer with 05mm edging

Technical details

DESKS

Supplementary unit

- Affixed with plates to the longer edge of the desktop
- 1,484 x 848 x H795 mm

Desktop

- 36mm MFC with 2mm ABS edging
- 37mm chipboard covered in wood veneer with 15mm edging
- Grain direction runs the length of the desktop
- 1,908 x 954 / 2,332 x 954 mm
- H795 mm
- 445 x 148 mm cut-out for grommet and power socket box

Modesty panel

- 36mm MFC with 2mm ABS edging
- 37mm chipboard covered in wood veneer with 15mm edging

Legs

- Folded steel band - 64 x 11 mm
- Powder coated metal or polished chrome
- Hard felt pads glued to the bottom of the legs, H10mm
- Metal to metal fixings

Rectangular grommet with metal frame

- 18mm MFC or 19mm chipboard covered in wood veneer matching the desktop
- Grommet dimensions - 403 x 143 mm
- Hinges with soft closing
- Folded steel band metal frame – 12mm width on top
- Metal frame dimensions - 472 x 170mm
- Powder coated metal or polished chrome

Box for power module

- 16mm MFC or chipboard covered in wood veneer matching the desktop
- Inside dimensions – 445 x 154 x H115mm (incl. desktop)
- Ø60mm round black plastic cable port at the centre of long side

Fixed pedestals

- 954 x 636 mm with two drawers and a pull-out drawer for suitcase, handbag or computer case
- L/H (left) or R/H (right)
- Base leg made of folded steel band - 64 x 8 mm
- H615mm (carcass – 500mm base leg – 115mm)

TABLES

Tabletop

- 36mm MFC with 2mm ABS edging
- 37mm chipboard covered in wood veneer with 15mm edging
- Grain direction runs the length of the tabletop
- H750mm
- 445 x 148 mm cut-out for grommet and power socket box

Legs

- Folded steel band - 64 x 11 mm
- Powder coated metal or polished chrome
- Hard felt pads glued to the bottom of the legs, H10mm
- Fastened with screws - metal-to metal-construction

Rectangular grommet with metal frame

- 18mm MFC or 19mm wood veneer matching the tabletop
- Grommet dimensions - 403 x 143 mm
- Hinges with soft closing
- Folded steel band metal frame - 12mm width on top
- Metal frame dimensions - 472 x 180 mm
- Powder coated metal or polished chrome

Box for power module

- 16mm MFC or wood veneer matching the tabletop
- Inside dimensions – 445 x 154 x H122 mm (incl. tabletop)
- Ø60mm round black plastic cable port at the centre of the long side

PEDESTALS

- 954 x 636 mm with two drawers and a pull-out drawer for suitcase, handbag or computer case
- 1,272 x 636 mm with two drawers and height adjustable shelf with double doors
- L/H (left) or R/H (right)
- H517mm

Carcass

- 18mm MFC with 1mm ABS edging
- 19mm chipboard covered in wood veneer with 15mm edging
- Grain direction runs horizontally
- Top panel lowered by 20mm
- Grain direction of the top panel matches the tabletop

Facade and back panels

- Combination of 19/20 mm & 25mm thickness panels
- 19/27 mm MFC with 1/2 mm ABS edging
- 20/27 mm chipboard covered in wood veneer with 15mm edging
- Grain direction runs horizontally

- Asymmetrical composition of the facade and the back panels
- Doors - hinges with soft closing function, 101° opening angle

Drawers

- 16mm MFC with 1 mm ABS edging
- 16mm chipboard covered in wood veneer with 15mm edging
- Maximum drawer load - 30kg
- Pull-out and top drawers - full extension rails with soft closing
- Bottom drawer - rails with rejection and opening system TIP-ON (no handles)
- The inside of the top drawer is coated with black genuine leather

Base

- Black plastic height levelling feet, adjustable from inside, H18 mm (+8mm)
- The specified height of the unit includes the height of the feet

STORAGE

Open shelf units

- 3 height levels - 2H/3H/5H
- Dimensions: 954 x 424 mm, H863 / 1,261 / 2,059 mm

Back and vertical panels

- 18mm MFC with 1mm ABS edging
- 19mm chipboard covered in wood veneer with 15mm edging
- Grain direction runs the length of the shelves

Fixed shelves

- 25mm MFC with 2mm ABS edging
- 25mm chipboard covered in wood veneer with 15mm edging
- Grain direction runs the length of the edge
- Top shelf lowered by 20mm

Closed cabinets

- Dimensions: 954 x 424 x H863 / 1,261 / 2,059 mm

Carcass

- Back and side panels - 18mm MFC with 1 mm ABS edging or 19mm chipboard covered in wood veneer with 15mm edging, the grain direction runs horizontally
- Fixed shelves - 25mm MFC with 2mm ABS edging or chipboard covered in wood veneer with 15mm edging, the grain direction runs the length of the edge
- Top panel lowered by 20mm
- Metal pull-out hanging rail inside wardrobe

Doors

- Combination of different thickness panels - 19 / 20 mm (600mm wide) and 25mm (300mm wide)
- 19 / 27 mm MFC with 1 / 2 mm ABS edging
- 20 / 27 mm chipboard covered in wood veneer with 15mm edging
- Grain direction runs horizontally
- Hinges with soft closing system, opening angle - 101°
- The doors of 5H cabinets have a mechanical opening system TIP-ON (no handles)
- Doors have symmetrical construction so the 600mm and 300mm wide doors can be switched (except wardrobe)

Base

- Black plastic height levelling feet, adjustable from inside - H17mm (+8mm)
- The specified height of the unit includes the height of the feet

Motion Executive

Executive desks / storage

Motion Executive is an electric sit-stand desk system, a combination of modern elegance and thoughtful functionality.

Panel legs hide the space under the desk giving more privacy. The feeling of elegance and sophistication is reinforced by the large desktop, designed for comfort.

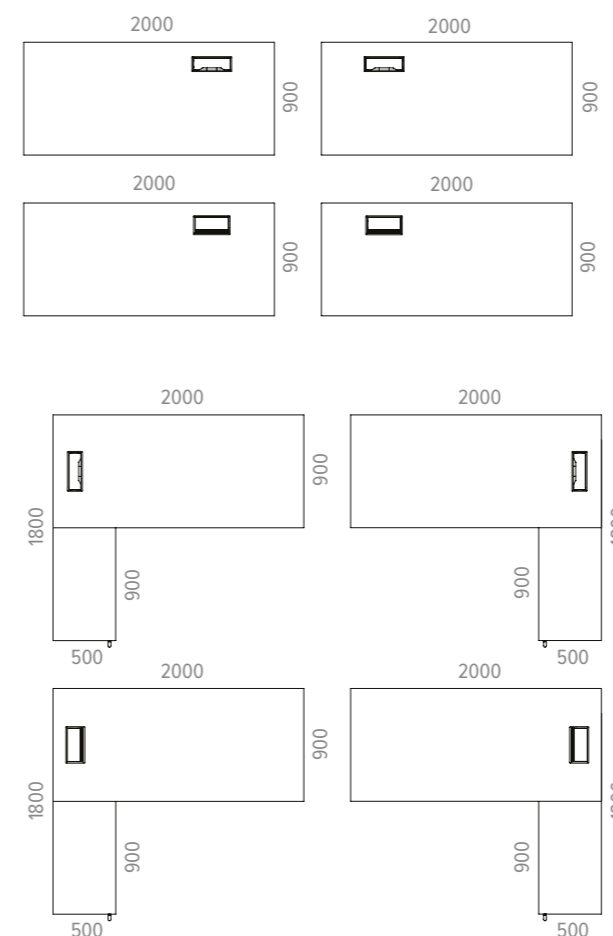

Choose from 2 models: veneer looks elegant and is designed for those who appreciate a natural look. The top has a subtly chamfered edge, while side panels wrap the desk making it appear more united and stylish.

The MFC finish has no side panel and looks more simple and modest with ABS edging.

Create a desk to suit your interior with 38 finish combinations. The insert of the leg can be black or grey HPL Fenix or white HPL. For an MFC combination, choose from 8 finishes for the top, while the leg insert can be white, black or pearl grey. Additionally, you can order a modesty panel, matching the top.

For storage space, you can choose a fixed spacious pedestal on the left or right side with different sizes

Range

Materials

Band A MFC

Whitened Oak (D1)
Amber Oak (D2)
White (M1)
Pearl Grey (N3)
Dark Grey (N1)

Band B MFC

Sand Ash (D3)
Dark Walnut (D4)
Grey Wood (D5)
Cubanit Grey (N2)
Black (J4)

Panel Leg Insert MFC

White (M1)
Pearl Grey (N3)
Black (J4)

Band A Veneer

Ash (V1)
Ash stained Black (N61)
Oak (AA)
Walnut (RR)

Band B Veneer

Ash stained Dark Brown (N62)
Ash stained Grey (N63)

Panel Leg Insert HPL

White (H70)
Black (H16)
Grey (H17)

Metal

Black (A)
White (E)
Grey (M) - MFC desks only

and drawers available. The largest pedestal opens with a light push and has one height adjustable shelf. Four handle-less drawers add to the clean image.

An easy to reach drawer is situated in the upper corner, convenient for storing your valuables, which can be locked from the side. It is also possible to order fabric insert for the drawer with a choice of colour options.

Spiral cables help to keep things neat. You can access and charge your electronic devices with integrated power modules using flip sockets or grommets.

Motion Executive is fitted with a sensitive gyroscope-based solution that senses both hard and soft obstacles. The anti-collision unit detects even a slight tilt in the desk while it is being raised or lowered.

Adjust the height of the desk by simply pressing the buttons or via a remote Bluetooth control app on your smart device where you can even save your height preferences and be reminded to change your position.

Technical details

Desktop

- 25mm MDF covered in veneer with sloping edges
- 25mm MFC with 2mm ABS edging

Desktop types

- Veneer desktop with matching veneer grommet
- Veneer desktop with flip sockets and USB charger
- Melamine desktop with metal grommet
- Melamine desktop with flip sockets and USB charger

Desk control button types

- MA - up and down drive and 3 memory position
- LA - up and down drive, 2 memory position, automatic drive on memory position, LED reminder, integrated Bluetooth

Panel leg

- Veneer/HPL panel leg - 18mm chipboard covered in veneer. 18mm chipboard inserts covered in HPL. 18mm MFC bottom part (not visible). 15mm veneer edging
- Melamine panel leg – 18mm MFC with 1mm edging

Frame

- L-shaped angle - 60x45x488 mm / 60x60x488 mm / 30x50x477 mm (depending on table configuration)
- Metal tube - 40x21 mm
- Powder coated metal, matches the colour of columns

Lifting columns

- Types: 2 step columns only
- Two motors
- Soft start and soft stop
- Lifting speed: up to 38mm/sec
- Stroke length: 500mm
- Rectangular tube dimensions: 53 x 85 mm
- Lifting capacity: up to 80kg
- Powder coated metal, matches the colour of frame
- Column levellers, up to 10mm
- Columns are covered or integrated into pedestal

PEDESTAL WITH INTEGRATED LEG

Carcass

- Veneer/HPL pedestal - 18mm MDF covered in veneer with 2/1 mm edging
- Veneer/HPL pedestal - 18mm chipboard covered in veneer with 2/1 mm edging
- Melamine pedestal - 18mm MFC with 1mm edging
- 18mm black MFC (melamine) with 1 mm edging (inner not visible parts)

Doors, drawer fronts

- Veneer /HPL pedestal - 16mm chipboard covered in HPL with 1mm edging
- Melamine pedestal - 16mm MFC with 1 mm edging

Inner drawers

- Veneer /HPL pedestal - 12mm chipboard covered in veneer with 05mm edging
- Veneer /HPL pedestal - 16mm chipboard covered in veneer with 05mm edging
- Melamine pedestal - 12mm MFC with 1 mm edging (only black/white colors available)
- Melamine pedestal - 16mm MFC with 1 mm edging (only black/white colors available)

Pedestal features

- Left or right
- Veneer + HPL or MFC
- Integrated table leg
- Full extension runners with soft closing mechanism
- Push open door with adjustable shelf
- Service door (not usable)
- Top drawer with lock
- Drawer load capacity - 10kg
- Carcass edges connected in 48° (veneer version)
- Only black or white inner drawer parts (MFC version)
- Adjustable height levelling feet

Electronic data of power unit for columns

- Input: 117-240V
- Frequency: 53/60Hz
- Output: 18V
- Power Plug: EU, UK, CH, FR
- Energy consumption: standby 001W
- Operating Cycle: 1 minute on, 10 minutes off

Grommet, cable management and power connectivity

- Built-in hidden power sockets or integrated flip sockets with additional USB charger for external devices
- Cable management box under grommet or integrated sockets included
- Spiral power cable attached to panel leg or wired through pedestal (depending on table configuration)

Nova Wood

MFC / HPL meeting tables

Nova Wood is a desking system that adds a delicate sense of luxury to your office and brings you closer to nature and a home atmosphere!

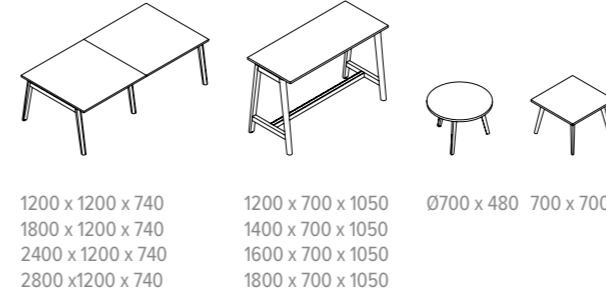

Elegant leg design is the key feature of this desking system and every table is unique due to the solid ash wood legs with wide growth rings that create a distinctive pattern. Stained and lacquered wood reveals the pattern even more (natural wood tends to change its colour over time).

The high pressure laminate desktop option features a tapered underside edge portraying a sharp, delicate edge which is softened by curved corners and inset wooden legs in a natural ash finish.

The HPL Fenix finish option is a surface treated with next-generation resins, hardened and fixed through a nanotechnology process giving the surface unique qualities including a super matt finish with low-light reflectivity, an ultra-resistant soft touch surface which is resistant to scratches and abrasion. Any micro scratches can be removed with heating.

Technical details

Table top

- 25mm MFC with 2mm ABS edging
- 26mm MDF covered in HPL with chamfered painted edges in white or black
- The chamfered edge is on the underside of the table and is 77mm deep tapering from 26mm to 11mm thin at the table edge
- Corners of HPL desktop are rounded: R100 mm
- 10mm gap between the legs and the desktop
- 40mm gap between the desktops in back-to-back benches

Metal beam

- 40 x 20 mm metal tube with welded metal plates for leg fixing
- Powder coated metal, colour matches legs

Legs

- Lacquered and stained natural ash solid wood
- Glued wood construction with metal inserts for fixing
- Plastic height levelling feet (+10mm)
- Central solid wood leg fixed into powder coated metal tube: 120 x 40 mm

Nova Wood Multipurpose

MFC / HPL meeting islands

Both high and low multipurpose tables serve as a cosy and stylish, yet practical office island for open meeting spaces. Whether for a brief stand-up meeting, an informal conversation between colleagues, a spontaneous team meeting, a lunch or coffee break in a lounge area – this table will become a point of attraction for your meeting space.

Use optional accessories to create a functional and uniquely styled space. Easily attach a display screen or a writing board to the table legs. Use shelving units to accommodate water bottles or small office supplies.

Office plants placed on top of the shelving units will help to create a more homely and private atmosphere. The electrical solutions integrated into the tabletop will ensure convenient access to power.

Mobility and flexibility are a necessity in today's offices, and you can move the table easily from one place to another using the castors option. The cable tray design will allow for easy and safe storage and handling of the table's electrical power supply elements.

Technical details

Tabletops

- 1.5mm gap between legs and desktop

MFC (melamine)

- 25mm with 2mm ABS edging and R2mm corners

MDF covered in HPL

- 26mm MDF covered in HPL with white or black sloping painted edges and R10mm corners

Metal beam

- Powder coated metal tube with welded metal plates for leg fixing

Legs and central leg

- Lacquered and stained natural ash solid wood
- Glued wood construction with metal inserts for fixing
- Plastic height levelling feet (+10 mm)

Castors

- Four Ø100mm swivel castors with wheel brakes
- Rotate in all directions
- Max load: 100kg per castor

Cable tray (optional)

- W480 x D367 x H68 mm
- Powder coated metal matches colour of frame

Top and bottom side shelves (optional)

- Powder coated metal
- Different shelves for heights: 1100mm and 1456mm
- Max load: 10kg per shelf

Planter box (optional)

- Powder coated metal
- Hang on top table crossbar only
- Not suitable for direct planting
- Max load: 10kg per box

VESA holder (optional)

- Powder coated metal
- Suitable for TV and whiteboard
- Can be placed at H1373mm only
- VESA standard – 100x100 mm
- VESA plate made of 3mm metal sheet (325x325 mm)
- Screen spacers is made of 40x20x2 mm tube
- Recommended screen up to 42", weight up to 15kg
- Screws for fixing screen to VESA plate not included

Whiteboard (optional)

- 14mm MDF covered in HPL with sloping edges

Hook (optional)

- Powder coated metal
- Hang on top table crossbar only
- Max load: 3kg per hook

Optima tables

MFC meeting tables

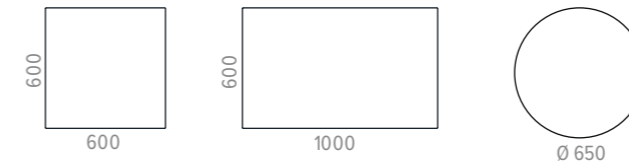

Smart and professional, Optima tables are a touch of class on a modest budget.

Optima is an optimal office furniture line which allows you to create a comfortable, functional and well-organized work environment using minimum components. The system includes panel end legs with levelling feet which provides stability on uneven flooring.

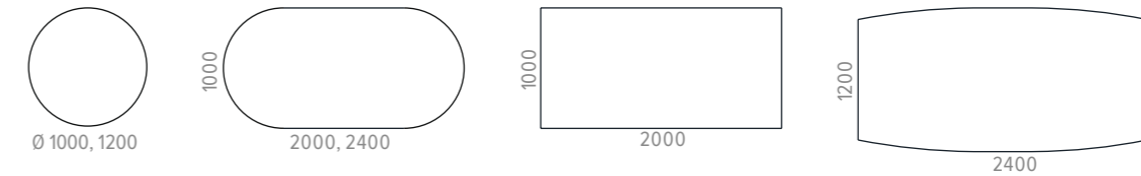

All come with 25mm tops, 2mm lippings, a sturdy timber panel base or pole legs with a metal under frame.

Range

Coffee tables with panel leg

Meeting tables

Technical details

Tables with metal pole legs

Tabletop

- 25mm MFC with 2mm ABS edging
- 720mm table height

Metal frame

- 50 x 20mm powder coated metal tube, grey colour by default
- Assembled and fixed to tabletop in the factory

Legs

- Ø50mm Powder coated metal tube
- Plastic height levelling feet (+10mm)
- H695mm leg height

Fittings

- Fast and easy assembly
- Bolted connections (without screws)

Tables with panel legs

Desktop

- 25mm MFC with 2mm ABS edging
- H720mm meeting table, H400mm coffee table

Legs

- 25mm MFC with 2mm ABS edging
- Plastic height levelling feet with (+10 mm)

Panel leg

- 25mm MFC with 0.5mm ABS edging

Fittings

- Cams with connecting bolts.

Materials

Opto

Flexible conference tables

Meeting, greeting, training. A flexible modular system of all shapes and sizes.

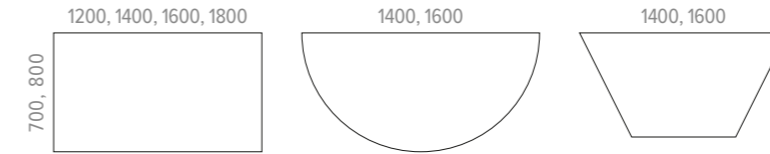

Whether it's a meeting point on the end of a desk or a complete flexible training room requirement we've got what you need. Individual tables for exams or training - no problem; a conference for 20 - just push the tables together, add some half round ends for an instant result.

Securely connect individual tables with our table connectors, allowing for multiple configurations to suit any scenario.

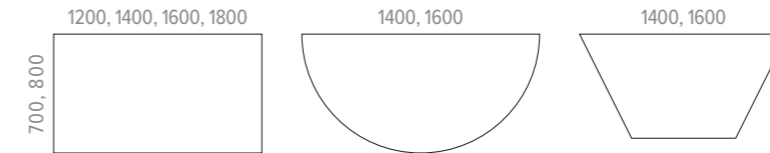

Our flip-top table frames incorporate an innovative neutrally pivoted release mechanism with integrated adjustable dampening. This results in table tops that are easy to operate and perfectly balanced to minimise premature opening and closing with a controlled 'flipping' action.

Range

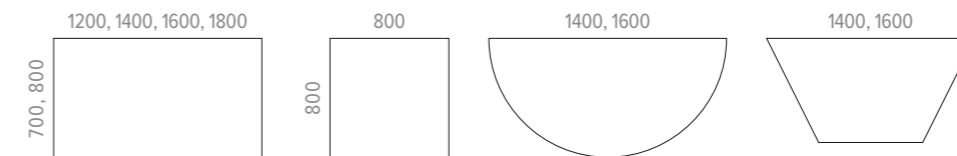

Flip-top tables

Folding leg tables

Pole leg tables

Technical details

Flip-top table frames (DFT)

- Standard leg frames are H695mm (excluding top)
- User friendly release mechanism with smooth controlled 'flipping' action
- Quick and easy to assemble
- Manufactured in UK

Folding leg table frames (DZA)

- 1.2mm thick mild steel tube
- Frame locks in the open position and can be unlocked by releasing the locking lever and snapping them into the retainer – preventing them swinging out
- Plastic blocks allow tables to be stacked without damage

Pole leg table frames (DPL)

- 60mm diameter pole legs
- 30mm height adjustment
- 1.2mm thick mild steel tube
- 200mm top plate

Tabletop

- 25mm MFC with 2mm ABS edging
- 720mm table height

Materials

G1: Band A MFC

- Whitened Oak (D1)
- Amber Oak (D2)
- White (M1)
- White with Amber Oak edge (M1D2)
- Pearl Grey (N3)
- Dark Grey (N1)

G2: Band B MFC

- Sand Ash (D3)
- Dark Walnut (D4)
- Grey Wood (D5)
- Cubanit Grey (N2)
- Black (J4)

Metal

- Grey (SV)
- Black (BK)
- White (WH)

Tops are supplied plain with self tapping screws. Tops with metal inserts available upon request (add £50 to RSP).

T-Easy

T-leg meeting tables

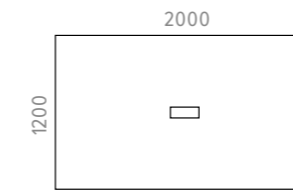

An appealing solution for meeting spaces.

T-Easy meeting tables boasting a neutral aesthetic design are ideal for a team of six or eight people. Desks featuring durable construction and T-shaped legs have a clear advantage over other types of desks: they provide a more generous space under and around the desk. The desktops have openings for effective cable and wire management.

T-Easy meeting tables make a great match with fixed height desks from the same system and Easy electric height adjustable desks. This way you will be able to easily integrate today's technology into your meeting areas as T-Easy meeting tables can be used alongside a Media conference wall.

Table range

6 seats

8 seats

Technical details

Tabletop

- 25mm MFC with 2mm ABS edging
- With cut-out for cable flap

Frame

- Metal profile - 40 x 40 mm
- Metal tube - 40 x 20 mm
- Powder coated metal, matches the colour of legs

Columns

- Metal tube - 80x40 mm
- Powder coated metal

Feet type W

- 700 x 70 x H30 mm powder coated metal sheet with welded profile for stability, matches the colour of frame
- Plastic height levelling feet (+10 mm)

Feet type I

- 796 x 60 x H30 mm powder coated metal tube, matches the colour of frame
- Plastic height levelling feet (+10 mm)

Column base meeting tables

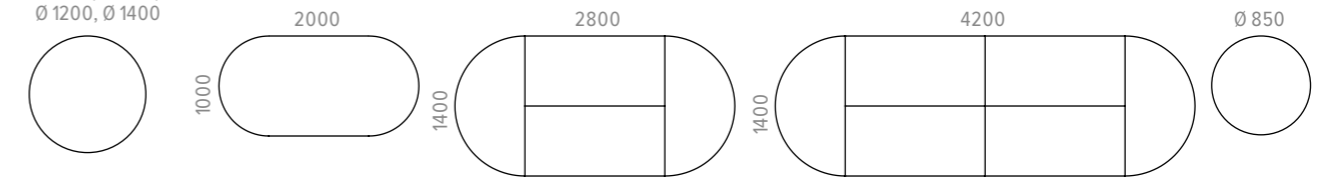

Possibly the most versatile range of conference tables on the market. Modular tops and bases make for endless size and shape possibilities, infinitely expandable and ideal for larger arrangements, making it easier to find the solution that best meets your needs.

Economic, very stable and durable, the round bases allow effective use of the entire table area and convenient communication with colleagues and partners. Standard base colours available are Black, Grey and White. Minimum order quantities may apply.

Air

Meeting tables

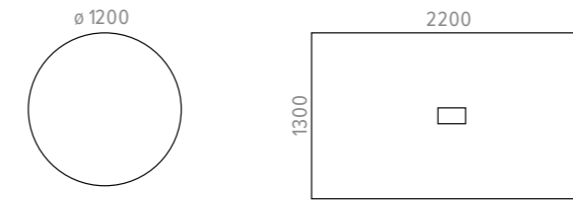

Furniture that appears as if floating in thin air.

An exceptional feature of Air tables is the thin profile metal legs that convey a sense of lightness and at the same time ensure their durability and stability. Minimalist Air designs, thought through solutions, combinations of different textures and colours – all this provides more creative freedom for architects who design office spaces.

Air meeting tables feature a round tabletop designed for a team of six people or a rectangular tabletop ideal for eight people.

Occasional tables

Mobi / Sito / Amber / Novus

Mobi: Compact table

Easily movable and practical Mobi table is ideal for remote working or for relaxing while you wait and browse magazines or enjoy a cup of coffee. Thanks to a wide range of finish options, this table will blend seamlessly with your office interior.

Amber: A flexible and cost-efficient solution

Choose your favourite Amber coffee table with a round or square tabletop.

Sito: Round coffee table

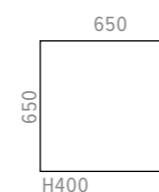

Sito coffee table is an excellent choice for reception and relaxation areas as well as informal meetings. We offer a wide selection of texture options so choose the coffee table that blends seamlessly into your office space.

Novus: Modern clean lines coffee table

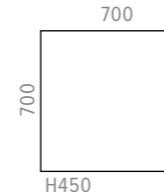

Novus coffee table features a laconic and modern design. Another unique feature is a solid tabletop coated with natural veneer.

Media

Multimedia integration

Media walls are a smart solution to integrate today's technology into your meeting areas, providing a simple way to mount a large screen and manage the power and cabling, especially in an open plan office with minimal wall space.

Media walls give you an easy way to show presentations and to participate in video conferences and meetings. The conference wall can be attached to various types of meeting tables or high tables (brackets included).

You can choose a Media wall with an 80mm cutout for power or cable management.

Technical details

Wall

- Front and back panels made of 16mm MFC
- Sides made of 18mm MFC
- All edges of front & back panels are made of 1mm ABS
- Non-visible edges are 0.5mm ABS
- Back panel fixed to carcass with 25mm MDF
- Four height levelling feet (+10mm)
- 2.5mm metal brackets for connection to tabletops
- Ø60mm round white plastic cable ports

VESA mount

- 100 x 100, 200 x 100, 200 x 200, 300 x 300 mm
- 3mm metal sheet VESA plate (325 x 325 mm) with option for screen height adjustment ±50mm
- Screen/carcass have 40mm space for plugs and wiring
- Screen spacers made of 40 x 20 x 2 mm tube
- Powder coated metal
- Recommended screen up to 42", weight up to 15kg
- Screws for fixing screen to VESA plate are not included

Fixed high table

- Desktop with Ø80mm cut-out for socket
- 25mm MFC (melamine) with 2mm ABS edging
- Plastic feet with height levelling (+10 mm)
- Ø35 x 2 mm powder coated metal frame with Ø86 x 4 mm side fixing plates

Parthos NEW

Acoustic tables

Parthos tables are characterised by a stylish, elegant design, with well-thought-out shapes that spark collaboration. The Parthos collection consists meeting tables, high tables and coffee tables.

The main design element is a sculptural cylindrical column, covered with PET felt, whose textural pattern of vertical lines further emphasises the allusion to the element of classical architecture.

Round power units with different types of sockets can be integrated into the one column meeting tables for

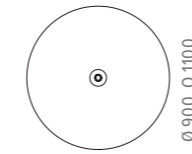

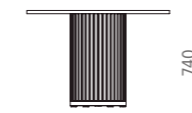

easy charging of devices. For two and three column meeting tables, you can also choose a rectangular metal table grommet for wire management which opens on both sides.

PET felt features acoustic properties; the porous surface absorbs sound, while the vertical cut-outs disperse some of the sound waves. We recommend combining these tables with the Parthos acoustic columns. They will not only ensure a better acoustic environment but will also create stylistically harmonious interiors for meeting, relaxation and other spaces.

Technical details

Tabletop

MFC (melamine)

- 25mm with 2mm ABS edging
- The corners of the tabletop are rounded: R2mm
- With or without a cut-out for a grommet and power socket
- Round and obround shaped

MDF covered in HPL

- 26mm MDF covered in HPL with sloping painted edges
- Sloping painted edges: white, black or grey colour
- The bottom edges of the tabletop are sloped 11°
- With or without a cut-out for a grommet and power socket
- Round and obround shaped

Column structure

- The top cover is made of 36mm MFC (melamine) with 2mm ABS edging
- Cover made of PET fiber board, 9mm, with a vertical pattern
- Welded metal frame made of 20x20 mm metal tube, 2mm and 3mm thickness of the metal sheets
- Powder-coated metal
- Base made of 36mm MFC (melamine) with 2mm ABS edging
- Concrete counterweights
- Adjustable height levelling feet, H9 – 14 mm, 6 pcs

Metal frame (under tabletop)

- Welded metal frame made of 40x20 mm metal tube
- Powder coated metal

PET felt cable tray (for two and three column tables)

- PET fiber board of a 9mm thickness
- Bent metal sheet of a 1mm thickness
- Powder-coated metal

Electrical accessories

Rectangular grommet with a metal frame

- 16 mm MFC (melamine) or 17mm MDF covered in HPL covers, matched with the tabletop
- Grommet dimensions – 313x146x27 mm
- Spot welded metal frame made of 1mm and 3mm thick metal sheets
- Powder coated metal
- Two opening directions

Cube & Spectrum

Steel mobile pedestal & caddy

Suited under desk these stylish and intelligently designed steel pedestals feature a solid steel construction with central locking, pre-assembled hidden castors and smooth ball bearing runners.

Cube has a slim top and flat front design and the range includes narrow or classic width, and low or standard height, with or without a full box file drawer. Cube is available in White, Grey or Black.

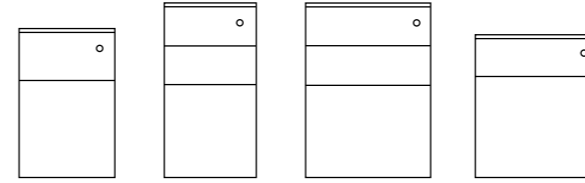

Spectrum Caddy has a unique inset frame and handle design and is available in white with white handles as standard. Upgrade Spectrum handles to a choice of six stock colours or specify any RAL K5 Classic colour*.

Nova

Pedestals / Cupboards / Lockers

A complete range of system storage to complement the Nova bench desking range.

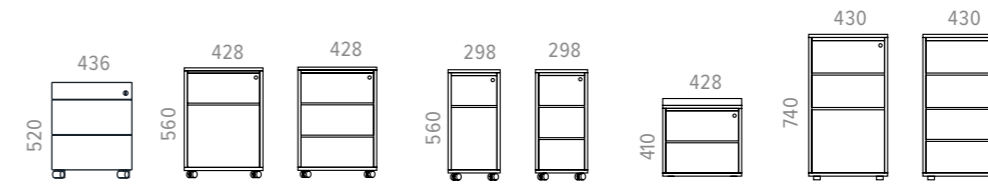

Cupboards, bookcases, credenzas, locker units. Open fronts, hinged doors, sliding doors, cupboards and other storage exactly designed to fit the desk ends and much, much more.

Nova storage is available in nine different MFC finishes as well as veneer options on some products.

Practical and functional high-capacity shelves and cupboards of different heights and widths can be easily combined in work environments to create various comfortable individual work areas.

Nova Line shelves, cupboards of different heights and widths are decorated with Plexiglas® inserts and handles and will perfectly match any of Narbutas office furniture systems.

Boxi

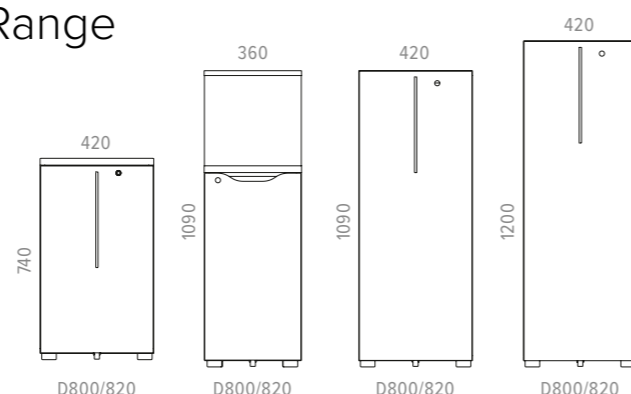

Tower storage

Minimalist style. Unlimited possibilities. A simple and universal solution designed to accommodate all your essentials in the office. Thanks to its storage capacity Boxi can be adapted to meet specific storage needs and ensure that all essentials are within reach.

- 2 widths: 360mm or 420 mm
- 2 depths: 800mm (for single desks) or 820mm (for bench desks)
- 3 heights: 740mm (desk height), 1090mm and 1200mm
- Different inner combinations

Range

Technical details

Carcass

- 16mm/18mm MFC with 1mm edging
- 25mm MFC with 2mm edging (only H740mm top and H1090mm middle top)

Pull-out drawer

- 18mm MFC with 1mm edging (except W360mm file tower and towers which parts are made of 16mm MFC)
- Soft closing function
- Lockable
- 50kg max. load
- Plastic pen holder integrated in the upper shelf

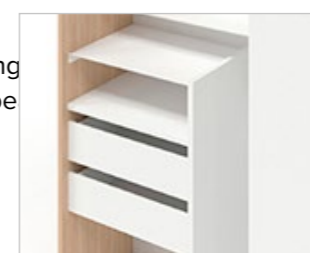

Inner file drawers

- 12mm MFC with 1mm edging
- Full extension visible ball bearing slides
- W646 x D350 x H280 mm

Inner personal drawers

- 12mm MFC with 1mm edging
- Full extension visible ball bearing slides
- W450 x D300 x H120 mm

Fixed metal shelves

- 1mm thick powder coated steel sheet
- Fixed with screws

Legs

- Four H23mm plastic height levelling feet (+10 mm)
- Ø80mm castor (non-marking thermoplastic rubber tread)

Sliding doors

- 10mm plywood with laminate, lacquered edges
- No handles (cutouts)
- White plastic slide profile

USB fast charger

- A+C Twin USB Fast Charger integrated into the back panel of the cupboard
- 3m cable
- Dimensions: Ø74 x 50 mm
- Cable standard: UK, EU, CH, FR, US
- Black plastic

Power socket

- AC power socket 100 – 230V
- 3m cable
- Dimensions: Ø74 x 50 mm, hole for socket Ø60mm
- Power socket standards: UK, EU, CH, FR, US
- Black plastic

Hook for clothes

- Dimensions: 20 x 28, H62mm
- Powder coated metal
- Fixed with screws

Uni & Uni Plus

Storage system

A choice of over 60 cupboard and bookcase combinations.

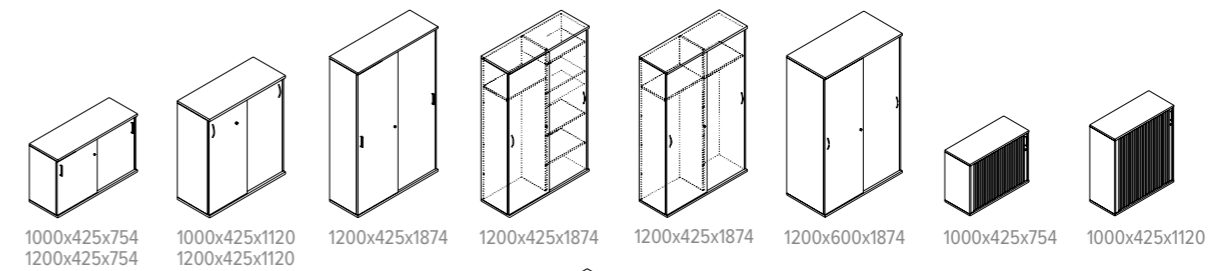

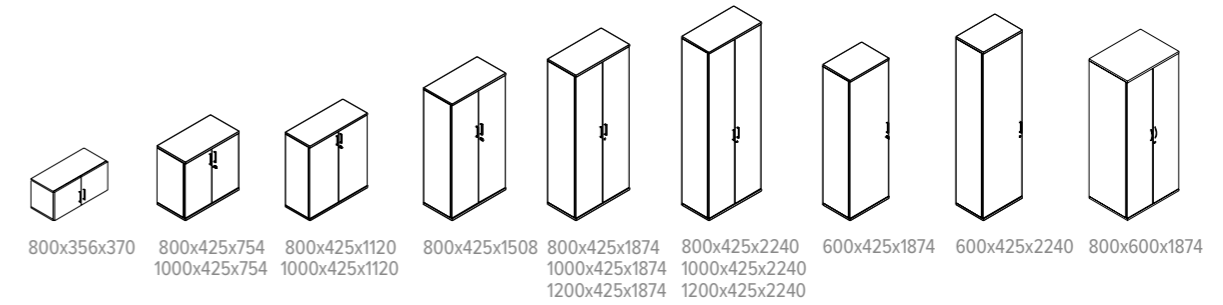

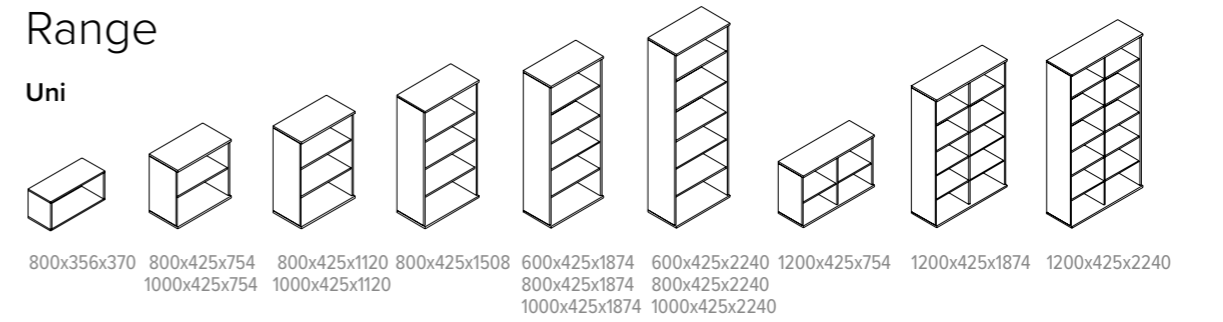

All storage units have 19mm carcasses and 25mm tops to complement desking and finished backs for use as room dividers. Cupboards include shelves and locks. All units are supplied without a base, this must be chosen from the options available.

A universal storage system created for easy document archiving, this exclusively wide range of cupboards allows you to choose from shelves of different heights and widths, paired with different types of possible cupboard doors. Backs of the cupboards may be covered with a whiteboard or with fabric for sound absorption.

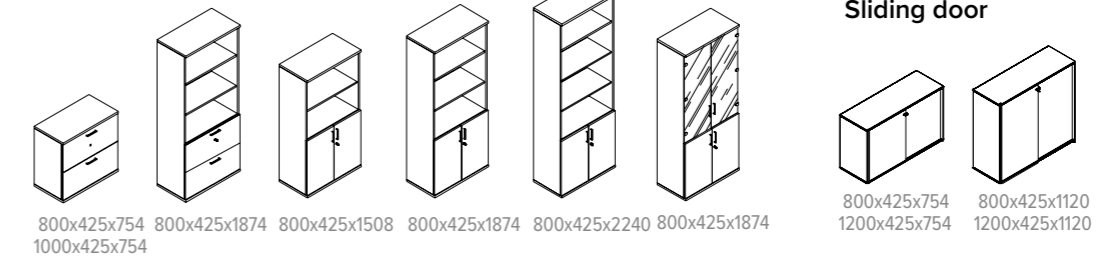

You can choose conventional shelves, shelves with dividers and fixed or pull-out filing cradles. All accessories are suitable for UK and EU standards.

Uni Plus

Technical details

Carcass

- 18mm MFC with 1mm ABS edging

Top and bottom

- 25mm MFC with 2mm ABS edging

Back

- Made of 16mm MFC
- Fabric back panel (X0Z071, X0Z103) HDF 3mm coated with 3mm foam and fabric
- HPL 1mm whiteboard back panel (X0Z070, X0Z102)

Shelves

- 18mm MFC with 1mm ABS edging, 25kg load capacity
- 25mm MFC with 2mm ABS edging (for W1000mm carcass), 32kg load capacity
- Fixed or height adjustable shelves

Shelf options

- Metal lateral filing shelf and cradle (suitable for A4 or foolscap)
- Shelf with 5 chromed dividers from metal 5mm

Pull-out filing cradle

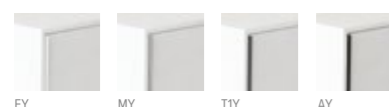

- File drawers for both A4 and foolscap files
- Full extension, with anti-tilt function
- Black powder coated welded metal sheet, no bottom
- Ball bearing slide, load capacity 50kg

Doors

- All doors are lockable
- Doors with hinges in 18mm MFC with 1mm ABS edging
- Sliding doors in 18mm MFC with 1mm ABS edging (with plastic runners)
- Tambour doors from ABS profile
- 5mm tempered clear glass

Handles (3 types)

- W136mm square powder coated metal handle (X)
- W150mm curved powder coated metal handle (K)
- Metal profile 60mm powder coated metal handle for sliding door cupboards only (X2S082, X3S082, X2S122, X3S12), length matches door height (Y)

Sliding door handles

- Powder coated metal profile 60mm, length matches the door height

Drawers

- File drawers for both A4 and foolscap files
- Full extension, central locking with anti-tilt function
- Powder coated black welded metal sheet, no bottom
- Ball bearing slide, 50kg load capacity

Fittings

- Cams with connecting bolts
- Lock with metal bars
- Fast assembling hinges (no tools required to connect hinges and plates)

Plinth

- 18mm MFC
- Plastic feet with height levelling (+10 mm)

Metal legs

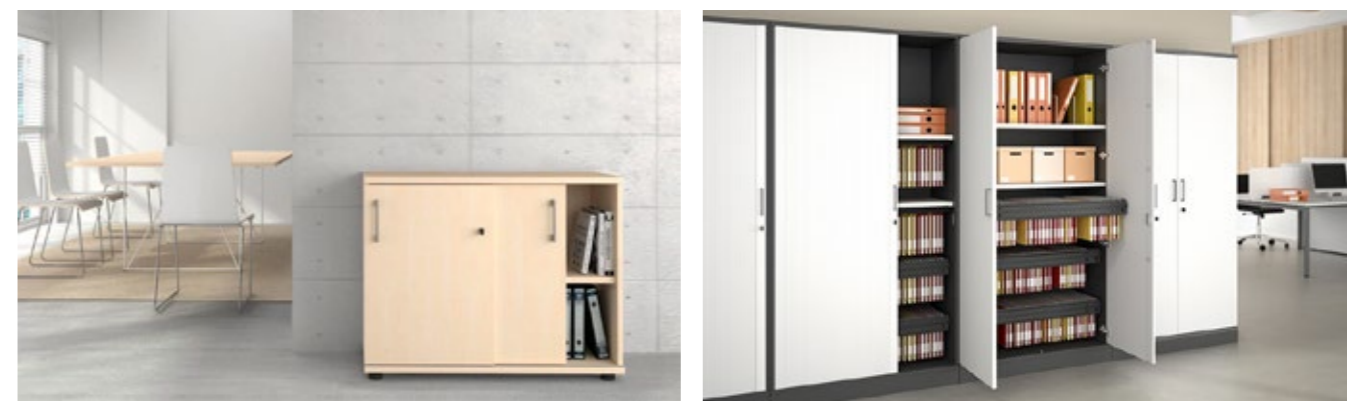

- 40x40mm powder coated metal tube
- H80mm +10 mm plastic feet with height levelling

Plastic feet

- H23 mm +10mm black plastic height levelling feet, (with OPTIMA desks H720mm)
- H38 mm +10mm black plastic height levelling feet, (with NOVA desks H740mm)

Castors

- 4 x Ø80mm twin wheel castors
- 2 out of 4 with stopper brakes
- 100kg per castor load capacity

Choice

Storage system

A modular storage system for modern workspaces.

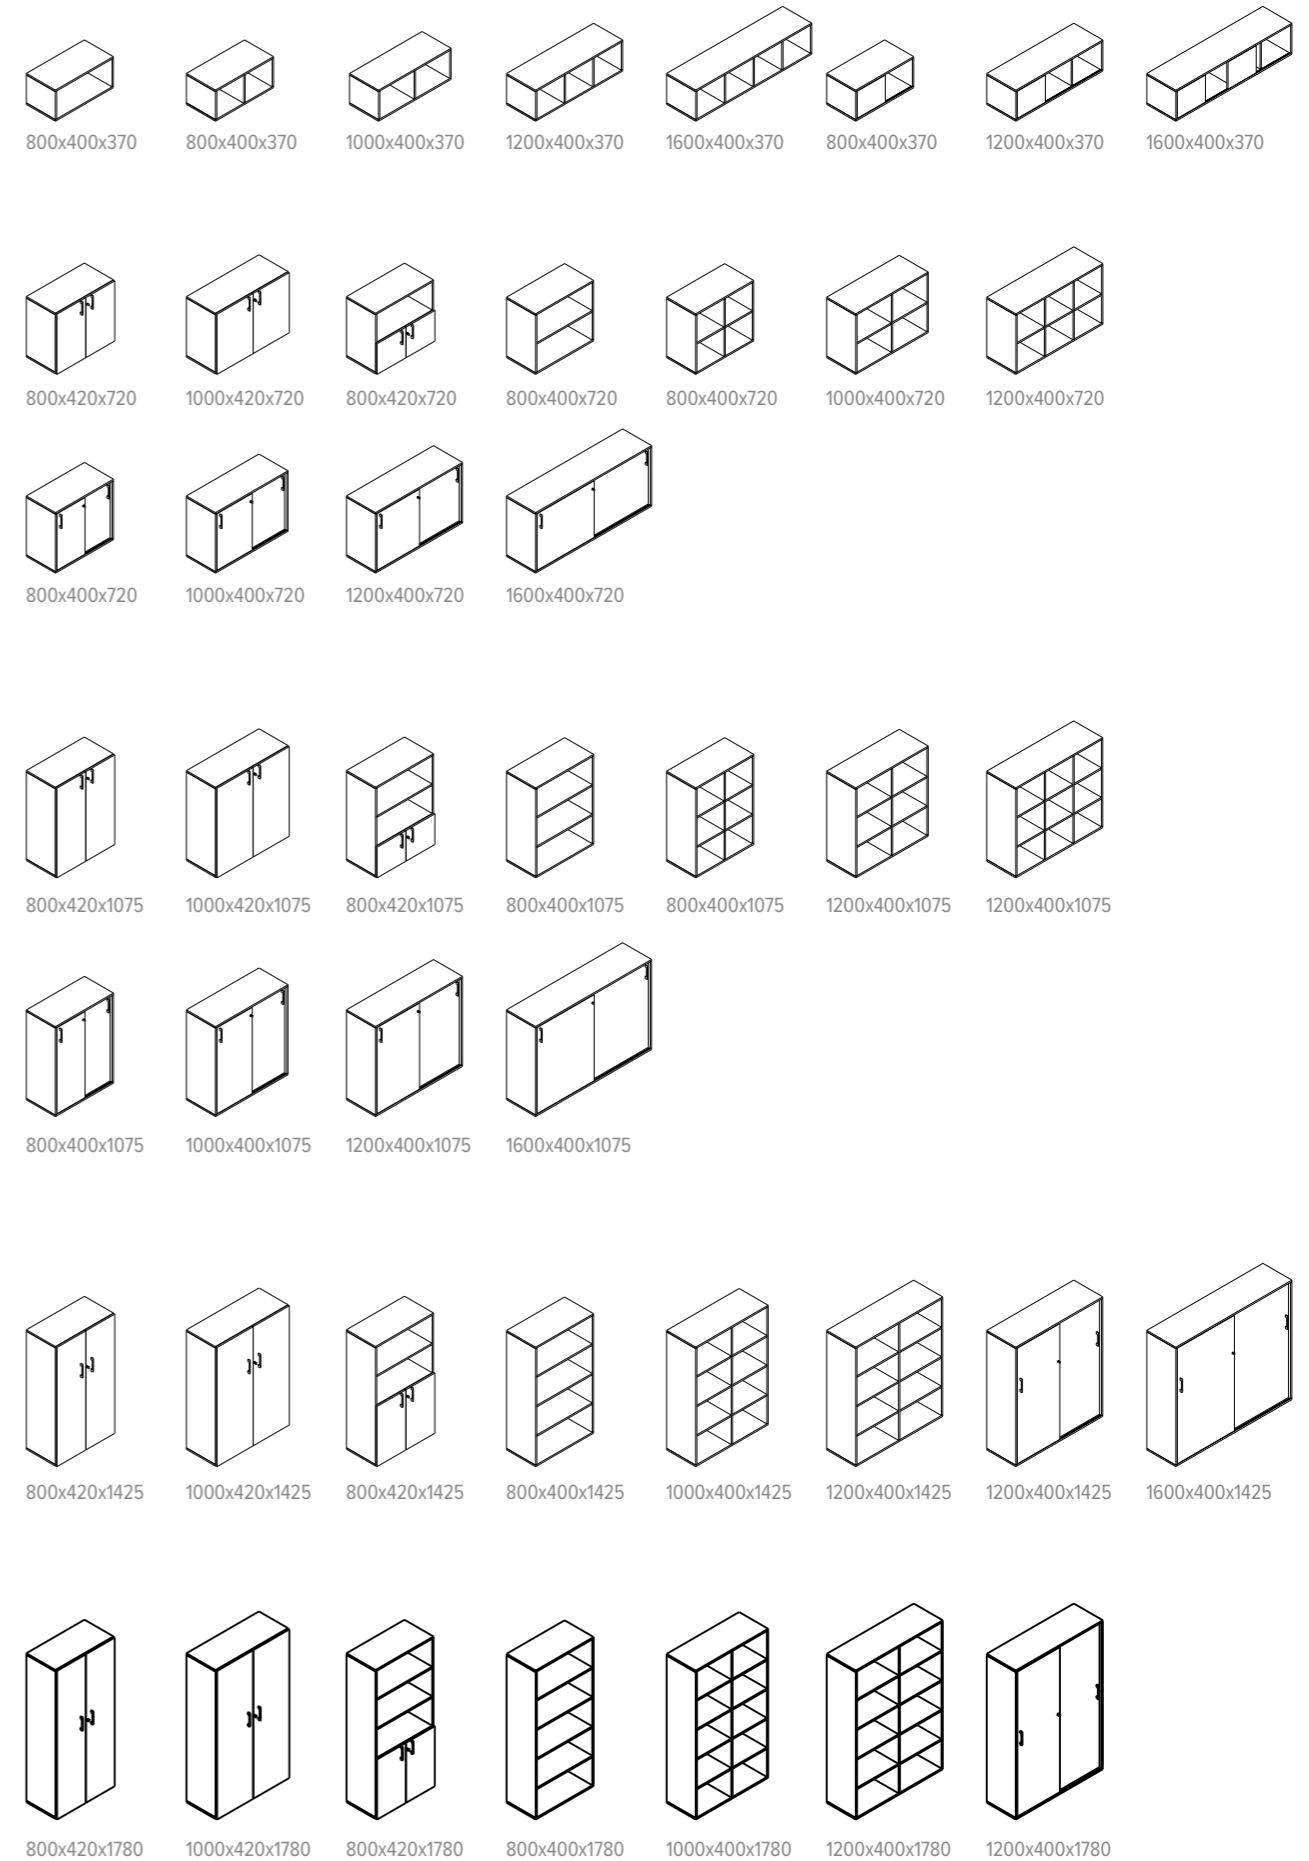

Endless choices of sizes, door types, shelf options, bases and more make the Choice storage range stand out from the crowd. Choice storage units can be easily combined into multiple arrangements, allowing flexible storage solutions for any area of your workspace.

You can also combine different textures: fabric, melamine and natural veneer. Choose from a wide range of fabrics to create desired colour combinations that will blend nicely into your office.

You can use acoustic doors along with other acoustic solutions (panels, partitions) to create a better acoustic comfort in your office.

Metal baseboard or metal legs will be perfect for those who want to create a minimalist office style. Legs made of natural ash wood will bring you closer to nature in a very subtle manner. Castors will make it easy to rearrange office furniture.

Range

Technical details

Carcass

- 18mm MFC with 1mm ABS edging

Top and bottom

- 18mm MFC with 1mm ABS edging

Back

- Made of 18mm MFC

Shelves

- 18mm MFC with 1mm ABS edging, 25kg load capacity
- 25mm MFC with 2mm ABS edging, 32kg load capacity (for W1000mm carcass)
- 28mm metal sheet, 40kg load capacity
- Fixed or height adjustable shelves

Doors (with lock)

- Doors with hinges in 18mm MFC with 1mm ABS edging
- Sliding doors in 18mm MFC with 1mm ABS edging (with plastic runners).

Acoustic doors (with lock)

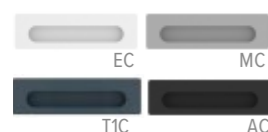

- Acoustic chipboard, MFC faced surface with 2mm ABS edging
- Absorption class: C
- Weighted sound absorption coefficient: $\alpha_w = 0.75$ (MH)
- SAA (Sound Absorption Average): 0.83
- NRC (Noise Reduction Coefficient): 0.85

Handles (2 types)

- Powder coated metal handles (EG, MG, AG, T1G, EX, MX, AX, T1X), 128mm fixing hole

- recessed powder coated aluminium handles 145 x 42 x 15 mm (EC, MC, AC, T1C)

Fittings

- Cams with connecting bolts
- Lock without metal bars
- Fast assembling hinges (no tools required to connect hinges to plates)
- Soft closing hinges
- Sliding doors with plastic runners
- Wardrobe with metal pull-out hanging rail (D420mm cupboards)

Bases

- 18mm MFC plinth, H80mm +10mm height levelling
- Welded metal tube plinth, H40mm +10mm height levelling

H80mm metal legs

- Powder coated metal tube - 20x20 mm;
- H80mm Plastic legs +10mm height levelling

H150mm metal legs with frame

- 20x20 mm powder coated welded metal tube
- H150mm plastic legs +10 mm height levelling

Plastic feet

- H17mm black plastic height levelling legs +10 mm

H150 mm solid wood legs

- Lacquered natural ash solid wood base +10mm height levelling

Castors

- Four Ø80mm twin wheel castors
- Two out of four with stopper brakes
- 100kg per castor load capacity

Shelves for letters (post shelf)

- 16mm MFC with 1mm ABS edging

Shelf/Shelf with dividers

- 18 / 25 mm MFC with 1mm ABS edging
- 7 chromed metal dividers (only for shelves with dividers)

Drawers for foolscap

- File drawers for both A4 and foolscap files
- Full extension with anti-tilt function
- Powder coated black welded metal sheet, without bottom
- Ball bearing slide, 50kg load capacity

Pencil tray (stationery drawer)

- W380 x H32 mm black plastic tray with 375mm mounting brackets
- Ball bearing slide full extension
- Mounted under cupboard top, or shelves
- 2kg load capacity (EN 15338)

Wire frame for foolscap / A4 (frame-mounted binders)

- W340 x D305 x H245 mm galvanized wire with black plastic corners

Cushion

- 3 different sizes: 790 x 390 x 32, 990 x 390 x 32, 1190 x 390 x 32 mm
- Cushions are for 1H and 2H cupboards - fixed on the top of the cupboard with velcro tape
- Two cushions (790) are needed for W1600mm cupboards
- HR5050 foam rubber is used in cushion production

Fabric back panel

- HDF 3mm coated with 3mm foam and fabric (fixed with glue stickers)

Side and top panels

- 16mm MFC with 1mm ABS edging
- 16mm chipboard, covered in wood veneer with 1.5mm edging

Stickers

- Adhesive stickers (H0.13mm) for placing one cupboard on the top of another without fixings

Counterweight

- 8mm powder coated metal plate (Grey only), fixed with screws underneath
- 25mm MFC with two 0.5mm ABS edges, fixed with stickers to the back panel inside the cupboard

Materials

Band A MFC

- Whitened Oak (D1)
- Amber Oak (D2)
- White (M1)
- Dark Grey (N1)
- Pearl Grey (N3)

Band B MFC

- Sand Ash (D3)
- Dark Walnut (D4)
- Grey Wood (D5)
- Cubanit Grey (N2)
- Black (J4)

Metal

- Anthracite (T1)
- Black (A)
- Grey (M)
- White (E)

Veneer

- Oak (AA)
- Maple (KK)
- Walnut (RR)
- Ash (V1)

Fabric*

- Berta
- Era
- Bondai
- Step/Step Melange
- Lucia
- Velito Presto
- Synergy

Choice

Storage lockers

Choice modular MFC lockers are a creative and versatile solution for secure personal storage.

You can personalize your locker and create a variety of combinations or match the door colour with locker body. Choice locker cupboards can be a colourful accent in your office and create either an expressive or reserved image.

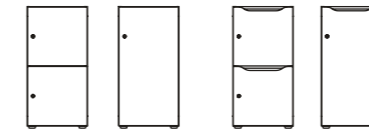

Create colourful combinations by mixing and matching carcass and door finishes.

Lockers are supplied with key locks as standard, optional combination or digital locks are available as well as 2 different door types – fully enclosed or with a cut-out for mail.

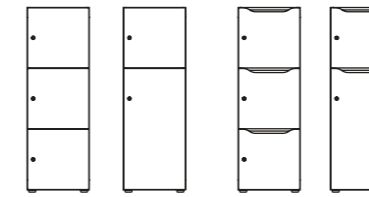

Office spaces are changing rapidly as more and more companies implement the activity-based work concept or hot desking system. Lockers cater to the needs of employees who spend majority of their time working outside the office or have flexible work hours as well as the resident workers and office visitors.

Range

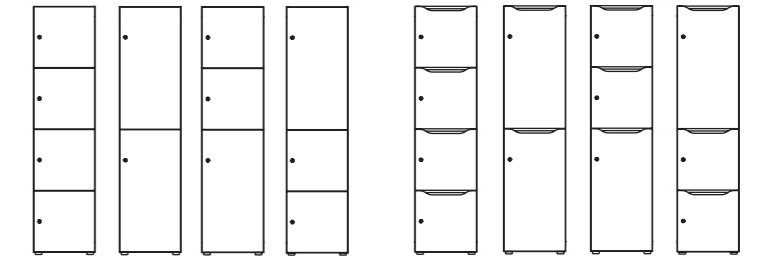

W450mm, D500mm

H917mm

H1367mm

H1817mm

Technical details

Carcass, top, bottom & shelves

- 18mm MFC with 1mm ABS edging[†]
- Back: 18mm MFC

Doors with hinges

- 18mm MFC with 1mm ABS edging
- 18mm veneer faced chipboard with 1.5mm ABS edging
- 17.5 - 18mm HPL faced chipboard with 2mm ABS edging
- 107° opening angle with soft closing function

Top panels

- 18mm MFC with 1mm ABS edging
- 18mm chipboard, covered in wood veneer with 1.5mm edging

Plastic feet

- Black plastic height levelling legs, H17mm +10mm

P1 Locks

- Cylinder lock with retention (AP)

P2 Locks

- Combination lock (BP)

P3 Locks

- 4G series electronic keypad lock for assigned use (CP)*
- 4G series electronic keypad lock for shared use (CS)*
- 4G series electronic RFID lock for assigned use (DP)*
- 4G series electronic RFID lock for shared use (DS)*

Metal shelves

- Central powder coated metal shelf (external dimensions: 380 x 316 x H108 mm, 0.8mm thick)
- R/H powder coated metal shelf (external dimensions: 340 x 316 x H140 mm, 0.8mm thick)

Materials

Band A MFC

- Whitened Oak (D1)
- Amber Oak (D2)
- White (M1)
- Dark Grey (N1)
- Pearl Grey (N3)

Band B MFC

- Sand Ash (D3)
- Dark Walnut (D4)
- Grey Wood (D5)
- Cubanit Grey (N2)
- Black (J4)

Veneer

- Oak (AA)

HPL

- Grey (H12)
- Cappuccino (H13)
- Light Yellow (H14)
- Mint (H15)
- White (H70)

WorkLab

Multifunctional furniture

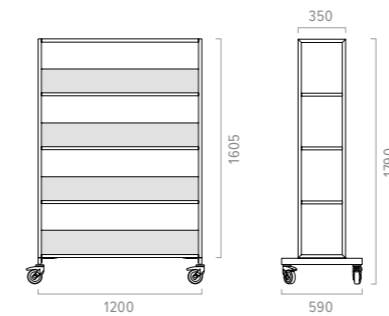

WorkLab is a multifunctional system that allows you to comfortably use a conference wall, whiteboard, temporary workplace, shelves or make a private space.

WorkLab consists of a single frame that can perform three different functions: a conference wall, a temporary workplace and shelves. Choose one of the pre-made base models and change the elements to create a piece of furniture that best meets your needs. The WorkLab option with a display screen is a mobile centre for team meetings and a tool to foster collaboration, with the possibility of hanging a whiteboard on the other side.

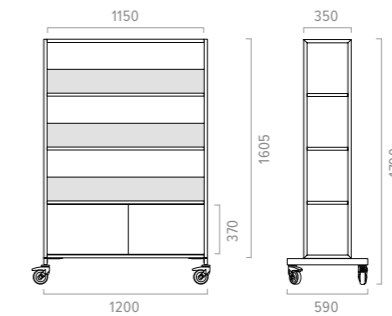

When combined with a desk, WorkLab makes a great temporary workplace. The display screen can be hung on either its front side or back side. WorkLab also acts as a playful partition and practical shelves. The back may be closed or semi-open. A display screen can also be hung on the back if required. Large castors are an integral part of the WorkLab design, ensuring the mobility of this piece of furniture and enhancing its unique image. Once you have customised the model that is right for you, you can also order a hook, shelf or side panels for additional functionality.

Range

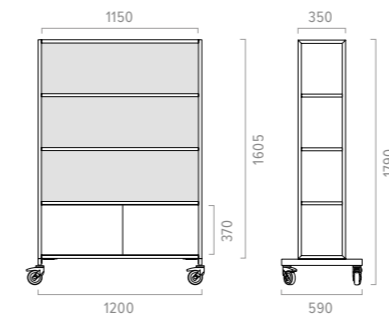

Mobile shelving unit with 4 fixed shelves + semi-open back

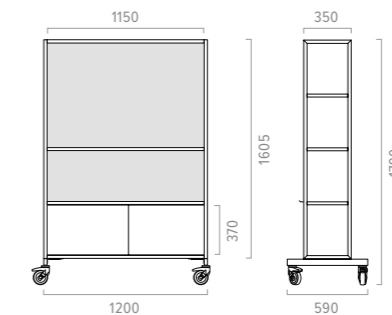

Mobile shelving unit with 2 fixed shelves, cabinet + semi-open back

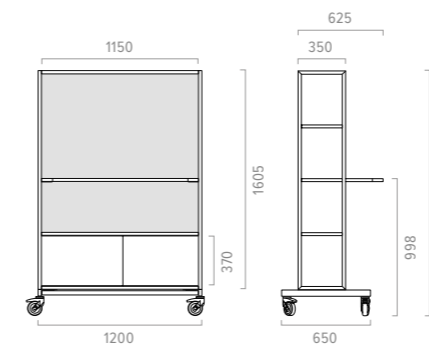

Mobile shelving unit with 2 fixed shelves + cabinet + back panel

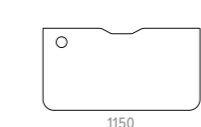

Mobile media wall with fixed shelf + cabinet + back panel

Materials

Band A MFC

- Whitened Oak (D1)
- Amber Oak (D2)
- White (M1)
- Pearl Grey (N3)
- Dark Grey (N1)

Band B MFC

- Sand Ash (D3)
- Dark Walnut (D4)
- Grey Wood (D5)
- Cubanit Grey (N2)
- Black (J4)

Metal

- Black (A)
- Grey (M)
- White (E)
- Dark Grey (T1)
- Deep Bronze (S1)
- Dusty Rose (ME1)
- Avacado Green (ME2)

Fabric Band A*

- Berta
- Camira Era

Fabric Band B*

- Camira Lucia

Fabric Band C*

- Camira Synergy
- Velito Presto
- Step / Step Melange

* Not all fabrics in these ranges are available on a standard lead time

Technical details

Metal frame

- Welded metal tube – 25x25 mm
- Powder coated metal

Metal lower bases

- Powder coated metal tube – 50x25 mm
- In all configurations the length is 590mm, except for workstation with a desktop – the length is 650mm

Footrest metal beam

- Only in the workstation configuration
- Powder coated metal (double painting) tube – Ø30mm

Castors

- Four swivel castors, Ø100mm
- With wheel brakes
- Rotates in all directions
- Load capacity - 100kg per castor
- Make sure that before relocating a unit with castors, all electrical components are disconnected from the main power source and hanged on hook of the side panel or placed securely

Shelves

- 25mm MFC (melamine) with 2mm ABS edging
- Load capacity – 25kg

Lower cabinet

- Top, bottom, side and back panels are made of 25mm MFC (melamine) with 2mm ABS edging
- Sliding doors are made of 16mm MFC (melamine) with 1mm ABS edging
- Dimensions: 280 x 566 x H370mm (inner, two sections)

Desktop

- Only in the workstation configuration, order separately
- 25mm MFC (melamine) with 2mm ABS edging
- The corners of desktop are rounded - R80mm
- Scallop for cable management: 350x40 mm
- Optional cut-out for a power socket integration

Fabric back panel

- Made of 16mm chipboard
- Covered with 3mm foam
- Upholstered with fabric

Fabric and whiteboard back panel

- Fabric side is made of 8mm MDF covered with 3mm foam
- Upholstered with fabric
- Whiteboard side is made of 12mm chipboard pressed in HPL with 1mm ABS edging

Perforated metal sheet back panel

- Perforated 1 mm metal sheet with a Ø8mm hole
- The back panel has three vertical sections with a bended central part (except a shelving unit configuration)
- Top and bottom welded with metal tube 20x20 mm
- The edges are welded with metal profile
- Matches the colour of the frame
- Powder coated metal

Fabric side panel

- With or without a metal hook for wire management
- 8mm MDF covered with 3mm foam
- Upholstered with fabric
- Double-sided panel hides an inner metal construction
- Metal brackets for mounting
- Load capacity of metal hook - 3kg
- Powder coated metal

Perforated metal sheet side panel

- With or without a metal hook for wire management
- Perforated 1 mm metal sheet with a Ø8mm hole
- Two edges are welded with metal profile
- Fixed with screws
- Load capacity of metal hook - 3kg
- Powder coated metal

Side shelf

- Powder coated metal
- Should be hanged only on the crossbars of the side frame
- Fixed with screws
- Load capacity - 10kg per shelf

Hook

- Powder coated metal
- Should be hanged only on the crossbars of the side frame
- Fixed with a screw
- Load capacity - 5 kg per hook

Screen holder

- Two types of holders: for perforated metal back and fabric back
- Powder coated metal
- VESA standard – 100x100 mm
- Recommended screen weight is up to 15kg
- Screws for screen fixing to VESA plate are not included

Combus

Modular zoning shelving

Combus is a modular shelving system designed for shaping and dividing spaces, different types of shelving, are designed for open space, against a wall or on top of Choice cabinets. Combus is functional, has an easily adaptable design and is environmentally friendly.

Choose from closed or open shelving, with boxes and drawers. Use a book-end as an additional accessory for orderly storage of books. With the planter boxes, you can easily add plants to create a biophilic office environment. The Combus system includes the possibility of attaching a screen, making it a great

solution for quick discussions. The cable routing from the screen to the floor is well thought out, with a metal duct leading from the screen to a cut-out at the bottom of the frame, then through the cut-out and under the plinth to an electrical socket.

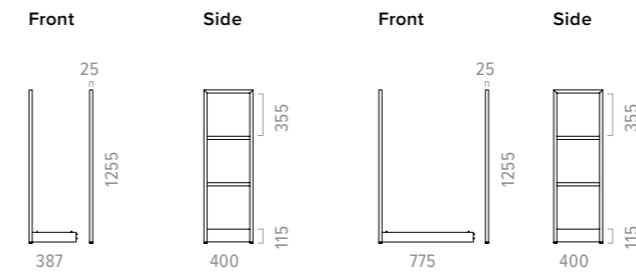

Subtle design elements help you create character including a PET felt storage basket, metal planter box and a metal book-end.

Combine different finishes, such as metal, melamine and PET felt, to create unique combinations.

Technical details

Shelving unit

Shelves

- 25mm MFC with 2mm ABS edging
- Load capacity for 362mm width– 20kg
- Load capacity for 750mm width– 25kg

Shelf box

- 25mm MFC with 2mm ABS edging
- Available with open or closed back
- Load capacity for 362mm width– 20kg
- Load capacity for 750mm width– 25kg

Planter box

- 25mm MFC with 2mm ABS edging
- Load capacity for 362mm width– 20kg
- Load capacity for 750mm width– 25kg

Cabinet with drawer

- Top / bottom made of 25mm MFC with 2mm ABS edging
- Front, sides and back panel are made of 18mm MFC with 1mm ABS edging
- Drawer box made of 12mm MFC with 1mm ABS edging
- Soft closing function, partial extension with hidden slides
- Opening with a handle
- Handle made of metal sheet, powder coated
- Load capacity – 20kg

Frame

- 25x25 mm welded metal tube
- Bottom made of bent sheet metal, 350x25x150 mm
- Plastic feet with height levelling (+10mm)
- Powder coated metal frame construction is easy to assemble and disassemble

Plinths

- 362x80x25 mm and 750x80x25 mm, powder coated bent sheet metal

Connecting component

- 95x95mm metal plates, made of 1.5mm steel

Fixing components

- Fittings for fixing to the floor (included in the package)
- Set of fittings for mounting to the wall (order separately)
- Counterweight (order separately), made of 25mm MFC with 0.5mm ABS edging
- For more details about fixing types and the right selection of them, please read additional information

Planter shelf unit

Ready-made configurations

- Metal frame + planter box
- Metal frame + 2 shelves + planter box
- Metal frame + planter box + cabinet with drawer
- Metal frame + 3 shelves, planter box
- Metal frame + shelf, planter box + cabinet with drawer

Frame

- 25x25 mm powder coated welded metal tube
- Top frame metal connector 750x25x25 mm
- Bottom made of bent sheet metal, 350x25x150 mm
- Plastic feet with height levelling (+10mm)
- Metal frame construction is easy to assemble and disassemble

Plinths

- 362x80x25 mm and 750x80x25 mm, powder coated metal bent sheet metal

Connecting component

- For shelves combination connection
- 95x95 mm - made of 1.5mm steel

Fixing components

- Fittings for fixing to the floor (included in the package)
- Fittings for mounting to the wall (order separately)
- Counterweight (order separately), made of 25mm MFC with 0.5 mm ABS edging
- For more details about fixing types and the right selection of them, please read additional information

Shelves

- 25 mm MFC with 2mm ABS edging
- Load capacity for 362mm width – 20kg
- Load capacity for 750mm width – 25kg

Planter box

- 25mm MFC with 2mm ABS edging
- Available in 2 sizes: 750x400x300 mm or 750x400x150 mm
- Load capacity for 362mm width – 20kg
- Load capacity for 750mm width – 25kg

Cabinet with drawer

- Top and bottom 25mm MFC with 2mm ABS edging
- Front, sides and back panel are made of 18mm MFC with 1mm ABS edging
- Drawer box made of 12mm MFC with 1mm ABS edging
- Soft closing function, partial extension with hidden slides
- Handle made of metal sheet, powder coated.
- Load capacity – 20kg

Shelving unit for mounting on cabinets**Ready-made configurations**

- Four different 2H combinations
- Six different 3H combinations
- Six different 4H combinations

Frame

- 25x25 mm powder coated welded metal tube
- Bottom made of welded sheet metal, 350x25x105 mm

Shelves

- 25mm MFC with 2mm ABS edging
- Load capacity for 362mm width – 20kg
- Load capacity for 750mm width – 25kg

Shelf box

- 25mm MFC with 2mm ABS edging
- Available with open or closed back
- Load capacity for 362mm width – 20kg
- Load capacity for 750mm width – 25kg

Planter box

- 25mm MFC with 2 mm ABS edging
- Load capacity for 362mm width – 20kg
- Load capacity for 750mm width – 25kg

Back panel

- 25mm MFC with 2mm ABS edging

PET felt back panel

- 4mm plywood covered with 9mm PET fibreboard from both sides

Perforated metal sheet back panel

- 1mm powder coated metal sheet with perforated Ø8mm holes
- Edges are welded with metal profile

Metal planter box

- 1mm powder coated welded sheet metal
- Two sizes: 362x410x160 mm and 750x410x160 mm
- Placed on the shelves

Screen holder

- Screen holder base is made from 1.5mm powder coated metal sheet
- VESA plate is made of 2mm powder coated metal sheet
- VESA standard – 75x75 mm, 100x100 mm, 200x200 mm, 300x300 mm
- Recommended screen weight is up to 15kg
- Recommended screen size is up to 55"
- Screws for screen fixing to VESA plate are not included

Cable tidy

- 1mm powder coated bent sheet metal - 1245x51x12 mm
- Attached with two screws to the shelves above and with metal pins under the plinth below

Book-end

- 1mm powder coated bent sheet metal - 250x160x230 mm

Basket

- 9mm PET fibreboard
- Black painted or nickel-plated binding screws – 15mm
- Load capacity – 3kg

Screens & Acoustic

Screens

Acoustic screens

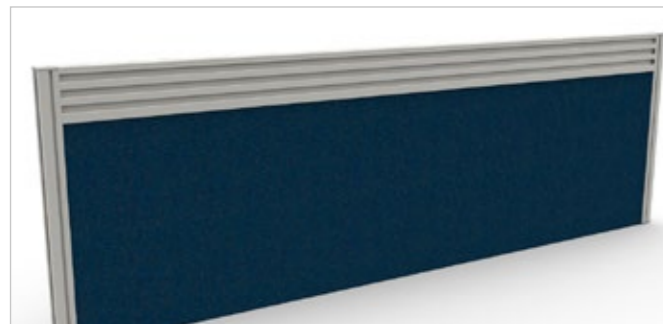

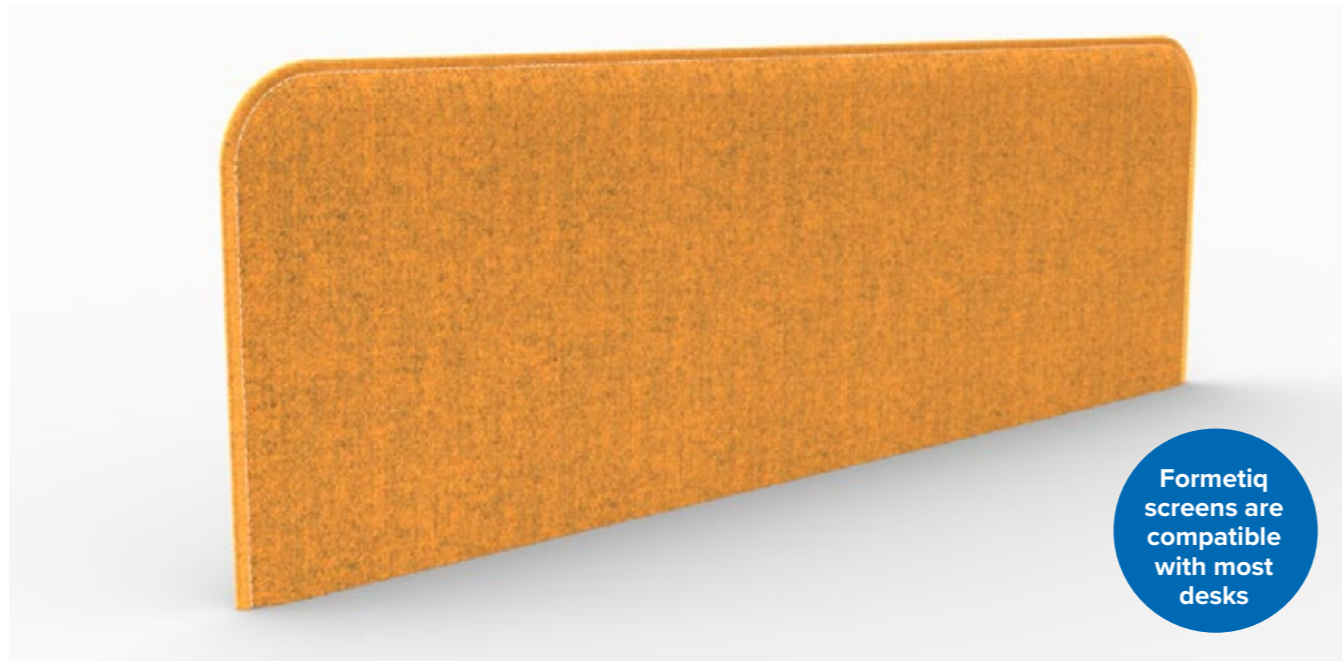

Room dividers

Acoustic panels

Fabric screens

Desktop dividers

Our wide range of fabric screens can enhance desks in any workspace, adding colour, texture and necessary sound absorption, all manufactured in the UK.

Aluminium frames and PVC edging are available in a choice of White, Grey or Black*.

Technical

Screen height

- When fitted all screens will be aligned 390mm above the desktop.

Brackets

- All prices include brackets. Please supply desk layout plans so we can select correct brackets for your requirements.

Pinnable option

- With the exception of stitched edge, all fabric screens offer a pinnable option, designed for use with pins.

Round PET

Acoustic desk screens

See Round desks

Part of the Round desking and storage system these vibrant screens are suitable for Round single and bench desks, but designed to work with both fixed and sliding desktops.

Available in different widths and heights and various colours and patterns (with rounded lines or honeycomb motif), they are also lightweight, which lowers the desk load and makes them easy to handle. The metal bracket design makes them quick and easy to assemble.

Round acoustic desk screens are made from PET felt which although it feels like natural wool is actually made from 50% recycled plastic, a sustainable material which possesses excellent sound absorption properties.

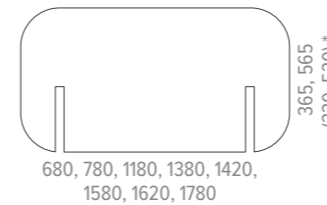

PET felt is soft and light, yet strong and durable. It meets applicable fire safety requirements and can be easily cleaned and disinfected.

Range

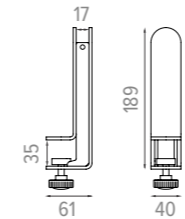

Plain (ZA0)

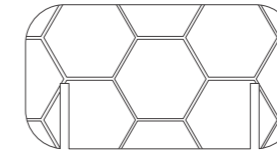

Fixed desktops

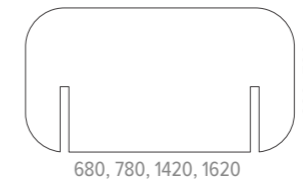

Brackets for fixed desktops (front/side)

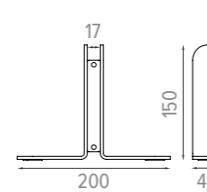

Hex pattern (ZA1)

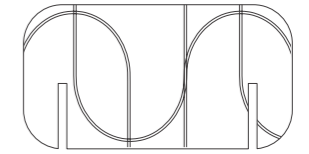

Mobile screens

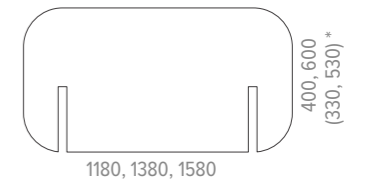

Feet for mobile screens

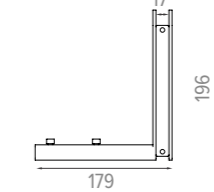

Flo pattern (ZA2)

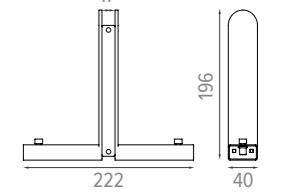

Sliding desktops

Brackets for sliding desktops (front/side)

Brackets for sliding desktops (bench)

Technical

Screen composition

- Two separate 9mm PET boards glued into one solid 18mm screen, R100mm rounded corners

Metal brackets for fixed desktops

- Welded, 4mm sheet powder coated metal clamping brackets
- Galvanised clamping pad
- Plastic knob with metal screw
- Designed to be attached to fixed desktops (17-27mm thickness)

Metal feet for mobile screens

- Welded, 4mm sheet powder coated metal feet, W200mm
- Glued anti-friction pads
- Feet designed for screen mobility (stand anywhere on flat surface)

Metal brackets for sliding desktops

- Welded, 4mm sheet powder coated metal brackets
- Designed to be screwed to the sliding desk metal beam

Nova

Fabric / Plexiglas® screens & modesty panels

Nova desktop divider screens are designed to work with Nova desking but also work with other desks from the Narbutas range.

Choose from fabric screens available in a range of fabric options or Plexiglas® screens and modesty panels available in a variety of different colours.

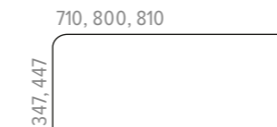

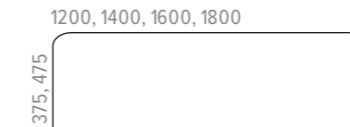

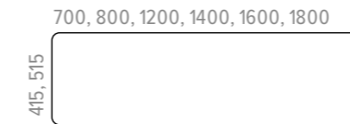

Nova desk screens are also compatible with Nova Wood desks.

For Nova Wood 2-desk and 4-desk benches with HPL top:
DNK142, DNK143, DNK146, DNK151, DNK162, DNK163, DNK166, DNK171, DNK182, DNK183, DNK186, DNK189.

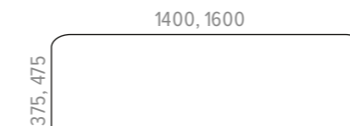

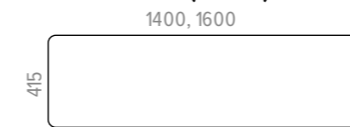

DNK08C is not compatible with NOVA O single row 2-desk benches.

Top 530 & Desk 760

Acoustic desktop screens

Acoustic screens for stand alone height adjustable and back to back desks.

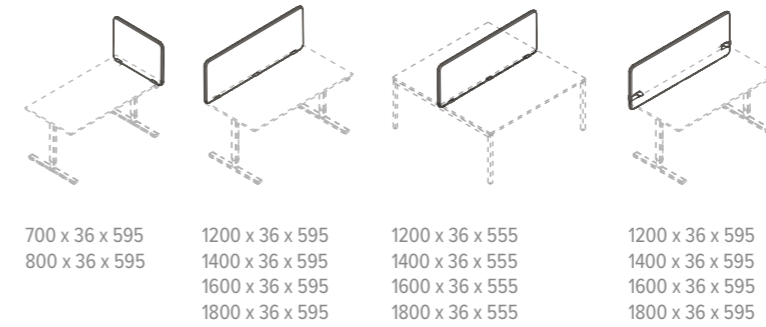

Our acoustic screens are filled with noise reducing material and covered in natural wool or polyester fabric. They deliver improved visual and audio protection, providing more privacy without isolating employees from each other, separating workspaces and improving your concentration.

Acoustic desk screens give you privacy at work and reduces noise from the surrounding environment. This helps to concentrate on your work, though does not separate employees and allows them to communicate easily. Also suitable for bench desks.

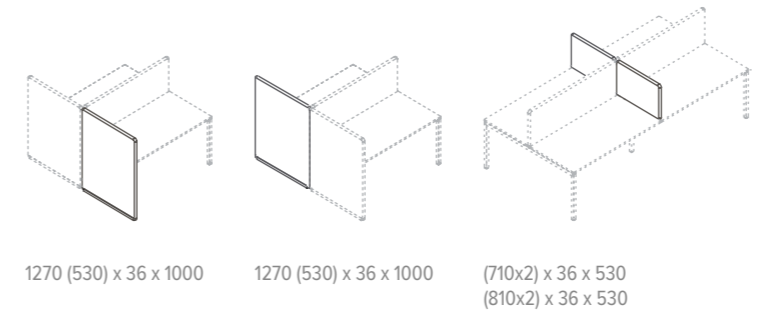

The acoustic screen system Desk 760 effectively shields you from the busy world, but also leaves an opportunity to communicate with other colleagues without boundaries. This is an excellent choice for those who want to distance themselves from distractions.

Modus

Double sided fabric desktop screens

Height adjustable or fixed height Modus acoustic desk screens offer both privacy and sound absorption sheltering users from general office noise.

Modus acoustic desk screens are double-sided allowing you to choose a combination of two different colours** - an easy way to create your own individual workspace whilst still relating to your corporate office interior style

These desk screens can be combined with Modus or Modus Light acoustic panels which can be arranged to ensure both visual and acoustic comfort.

Modus double sided Class D desktop screens (APK120/APK140/APK160/APK180) are also compatible with Active, single Motion desks, single Easy desks, One, Nova A and T-Easy desks.

Modus double sided Class C desktop screens are only compatible with Motion bench desks.

Technical

Screen composition (42 mm)

- 15x40mm plywood frame
- Central 10mm polystyrene foam layer
- Second HR3030 10mm foam layer on both sides
- Third VB2240 3mm foam layer on both sides
- Dowel pins combine two panels
- Upholstered with 1 colour fabric or 2 colour fabric combination

Fittings for height adjustable screens

- Compatible Nova A and single Motion desks
- Screens are inserted into the fittings (154x124xH74 mm)
- Pressed with screws to ensure stability
- Fixed to the desktop

Height adjustment (not available for Motion 2-desk benches)

- Screens can be raised / lowered to the preferred height;
- Only two screws must be tightened to ensure stability.

Fittings for fixed height screens

- Screens are inserted into the fittings (77x44, H=205 mm);
- Fixing to the cable tray holder.

Screen composition (46 mm)

- Frame made of 18x80mm MDF
- Central layer made of 20mm open-cell foam made of melamine resin (BASOTECT G+)
- Second layer is made of VB3842 10 mm foam from both sides
- Third layer is made of VB2240 3mm foam from both sides
- Dowel pins combine two panels
- Upholstered with 1 colour fabric or 2 colour fabric combination

Fittings for screens

- Fittings are knocked in to the screen
- Fixing to the cable tray holder

My Space

Fabric acoustic dividers / desking

My Space absorbs noise and divides your office into personal workspaces.

You can choose from a mounted desktop or freestanding screen system, suitable for 720-780mm height desks. Components are quick and easy to connect and assemble.

Acoustic screens are filled with special acoustic sound-absorbing foam, certified sound absorption Class D, and can be upholstered with a fabric of your choice. Use a variety of colour combinations not only to create

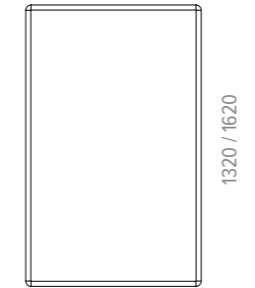

separate spaces but also to arrange workstations in groups. This updated range now includes 120° brackets and trapezoidal desktops to greatly expand the desk arrangement possibilities.

Thanks to the modular construction, this acoustic furniture allows you to power up to 6 workplaces from a single power socket. In order to keep the working process as effective as possible, My Space is available with a 3 socket power unit that can be used for standard power supply, USB, or data connection in different configurations.

Acoustic Artwork

PET felt acoustic partitions + baffles

Choose from three types of wall-mounted or ceiling-mounted acoustic products: partitions, clouds and tiles are all lightweight and versatile and help you to create acoustic comfort, creatively divide spaces and achieve a unique office interior.

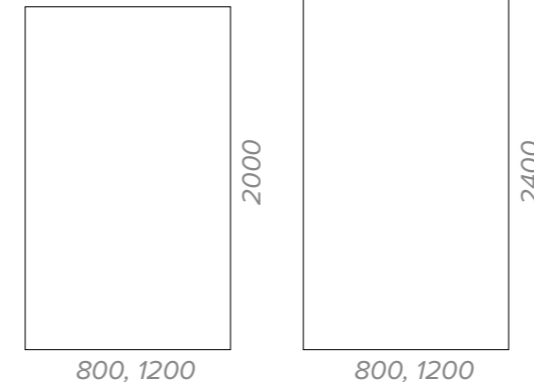

Partly made of recycled plastic PET felt acoustic products feel similar to wool to touch but are made from plastic using more than 50 per cent recycled plastic, making them suitable for recycling.

This sustainable material possesses excellent sound absorption properties. The porous structure ensures efficient absorption of medium to high frequency noise despite the low thickness of product. PET felt is soft and light, yet strong and durable. It also has a required degree of fire resistance and meets applicable fire safety requirements. Due to the structure PET felt can be easily cleaned and disinfected.

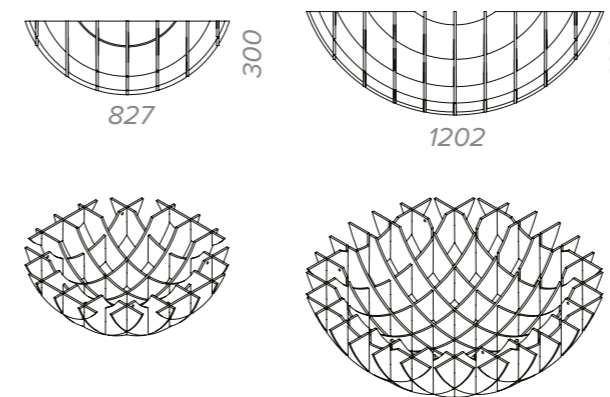

Partitions come in a variety of patterns featuring circles, hexagons, grids, and a variety of wavy patterns.

- Suitable only for PET clouds
- Only a single product can be suspended per set

- Set includes ceiling mounting (for T24 Armstrong profile)
- Ø1.5mm wire rope L50-2000mm
- Adjustable cable grip
- Two Ø1.5mm wire ropes with metal plates L1500mm

Adhesive fittings

- Included for each PET tile
- Thickness 0.2mm
- Temperature for application or removal min 15°C
- Temperature resistance 5-35°C
- Adhesive fittings for wall or ceiling (glass / wood / plastic / ceramics / varnished surfaces)**
- Not suitable for use on vinyl wallpaper and anti-stick surfaces

* See PET felt colour swatches on page 464 ** The adhesive must flow onto the surface and create full surface contact. The surface to be bond must be free of grease, loose particles and moisture!

Parthos NEW

Acoustic columns

Parthos stylish, mobile and sustainable acoustic columns are one of the solutions that can achieve the desired acoustic balance in different spaces. Best of all, they require no special fixings, thus giving you more freedom and flexibility.

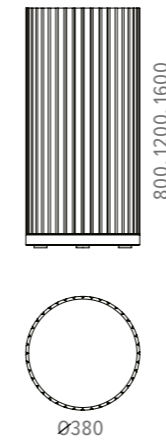

Parthos ensures that high, medium and low frequency sounds are muffled: High-frequency sounds like phone calls, medium-frequency sounds like speech, and low-frequency sounds caused by heating, ventilation and air conditioning systems. The acoustic columns are filled with textile offcuts, with excellent sound-absorbing

properties. Columns are covered with PET felt, which is porous and enhances these properties. The choice of pattern also contributes to the improvement of acoustics by dispersing some of the sound waves.

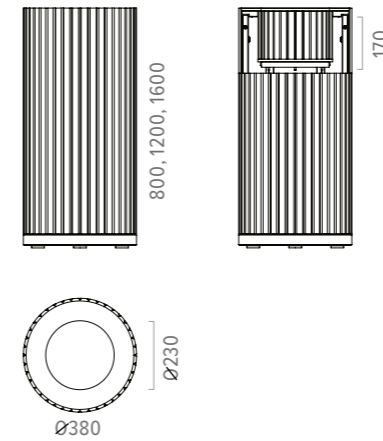

Choose from three different heights – 800 mm, 1200 mm, and 1600 mm with space for a plant pot hooks is an acoustic product with a distinctive design that can be easily integrated into meeting spaces. You can use hooks or with power and charge.

Technical

Surface cover

- Cover made of 9mm PET fibre board

Internal structure

- Welded power coated metal frame made of 20x20 mm metal tube and 2mm metal sheet
- Concrete counterweight

Base

- 36mm MFC with 2mm ABS edging
- Adjustable height levelling feet, H9-14 mm, 6 pcs

Acoustic fill

- Composition of acoustic filler (made from cut-offs) – mix of polyester and cotton
- Column weight may vary due to use of fabric cut-offs as acoustic filling

Hooks

- Hooks made of 1.5mm power coated metal sheet, 6 pcs
- Dimensions – 30x25x120 mm
- Recommended maximum weight per hook – 2kg

Modus & Modus Light

Acoustic sound absorption panels

Modus acoustic panels offer a modern solution to improve the working environment by absorbing background noise, reducing reverberation and improving acoustics.

With a broad range of fabric colours on offer Modus panels add depth and interest to office interiors and can be used to create private working spaces. The system includes wall mounted panels, suspended ceiling panels, and vertically suspended double-sided panels.

The main purpose of acoustic panels is to reduce reverberation (echo) to the maximum extent possible and to absorb noise, in this way improving acoustic comfort. The panels contain a special patented and certified material designed to efficiently absorb sound. Modus acoustic panels offer class C sound absorption.

Technical

MODUS LIGHT LIGHTWEIGHT ACOUSTIC PANELS

- ±1mm tolerance on panel dimensions
- Acoustic foam A and C class sound absorption (according to DIN EN ISO 354 standard)

Fixings

- Adhesive fittings for wall or ceiling (glass / plastic / metal / ceramics / varnished surfaces)
- Screwed fittings for wall or ceiling (masonry / wood / gypsum)

Wall and ceiling acoustic panel composition

- Acoustic foam glued to white painted HDF - 3mm
- Upholstered using Velcro straps

Acoustic panel composition for Armstrong ceiling from 600x600 mm modules

- Acoustic foam glued to white painted HDF - 3mm
- Upholstered using Velcro straps
- Zinc metal strip suspension for "Armstrong" type ceiling.

Practical sound absorption

- 68 mm thickness class A sound absorber
- 48 mm thickness class C sound absorber

MODUS ACOUSTIC PANELS

- ±1mm tolerance on panel dimensions
- Acoustic foam C class sound absorption (according to DIN EN ISO 354 standard)

Double-sided ceiling panels

- Frames made of 18mm plywood
- 20mm acoustic foam
- 10mm foam HR3030
- Covered with 3mm foam VB2240
- Upholstered with fabric

One-sided ceiling & wall panels

- Frames made of 30mm plywood
- Covered with 3mm foam VB2240
 - 20mm acoustic foam
 - Upholstered with fabric
 - Spunbond.

Fittings

- Drilled to the wall fittings
- Adhesive fittings (for glass or quick assembly)
- Connection components for the panels of the same length
- Ceiling panels suspension set (50-3000 mm)
- Double-sided (vertical) panels suspension set (50-3000 mm)
- Double-sided (vertical) panels suspension set for interconnect (50-1200 mm)

Vertically suspended panels

Horizontally suspended panels

Workpods & Booths

Workpods

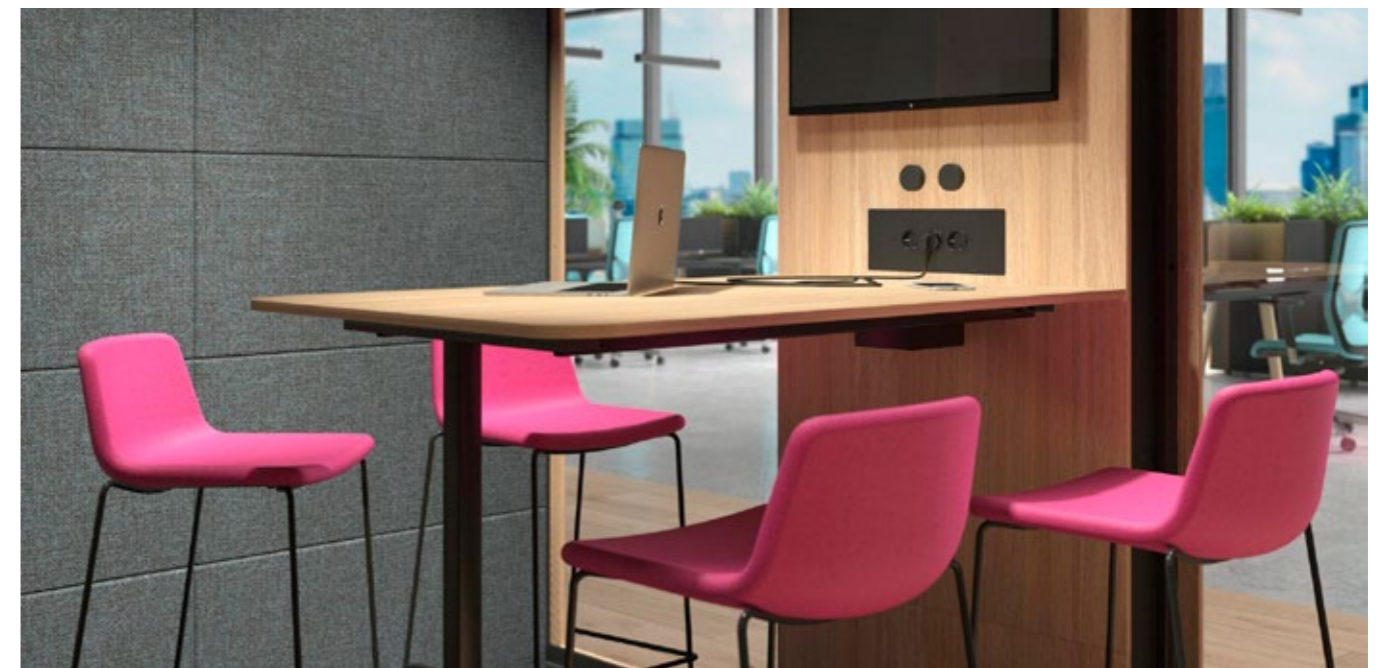

Meeting booths

Arcipelago Wood meeting booth

Silent Room

Acoustic workpods

Silent Room is an oasis of quiet in a middle of a modern office. Thanks to this office solution, concentrating at work has never been easier as it enables employees to focus during phone conversations, video conferences or creative tasks without distracting others. Silent Room ensures indoor air quality as well as acoustic and visual comfort for employees.

Multilayered Silent Room wall structure, hermetic door and ceiling ensure sound insulation. The inner layer of the panels is made from high-class acoustic

material that eliminates echo and has excellent sound absorption properties. The upholstered exteriors block out noise effectively and create an acoustically-optimised working environment.

Getting in and out of the Silent Room is easy: a low doorstep and same level floor ensures that no caution is needed while stepping inside. Silent Room ensures a high level of comfort and allows for a wide range of freedom. It can be also easily adapted to a variety of activities, providing you with the freedom to create a personalised setting that suits your needs best. You can

be sure that you will be able to continue that important conversation or presentation even if your device runs out of battery power. For user convenience, Silent Room room is equipped with a power socket with USB-A and USB-C charge.

Thanks to its air ventilation and lighting solutions, Silent Room offers a productivity-boosting environment. The high-capacity ventilators ensure a proper air flow rate (500 m³/h) with a low operating noise.

The combination of the LED lamps creates a warm and homely atmosphere. A smart control unit selects an optimal ventilation and illumination level, and, if necessary, allows for individual adjustment. Once an employee leaves the Silent Room, intense ventilation is automatically activated to prepare the room for the next user.

This acoustic piece of furniture also helps with energy savings as it automatically dims the lights when no one is present in the room and even switches them off after some time.

Technical details

EXTERNAL WALLS (S / M / L / XL)

Options

- Upholstered with fabric
- Melamine
- Upholstered with fabric. Rear wall with glass
- Melamine. Rear wall with glass

5 panels upholstered with fabric

- Welded frame is made of metal tube 40x20mm
- Angular brackets are made of 40x40 mm powder coated metal tubes
- Plastic feet with height levelling (+30mm)
- 12mm MFC (melamine)
- Covered with 3mm foam
- Upholstered with fabric

1 solid panel from melamine

- Welded frame is made of metal tube 40x20 mm
- Angular brackets are made of 40x40 mm powder coated metal tubes
- Plastic feet with height levelling (+30mm)
- 16mm MFC (melamine) with 1mm ABS edging

Walls with glass panes

- Welded frame is made of powder coated metaltube 40x20 mm
- Inside gasket is made of 12mm MFC (melamine) with 1mm ABS edging
- Front sides and top of the metal frame are covered with 16mm MFC (melamine) with 1mm ABS edging
- 8mm TSG (tempered safety glass), clear

INTERNAL ACOUSTIC WALLS (S / M / L / XL)

Panels upholstered with fabric

- Frame is made of 40x20 mm powder coated metal metal tube
- 12mm MFC (melamine)
- 40mm of acoustic foam
- Upholstered with fabric

INTERNAL FRONT WALLS (S / M / L / XL)

Options

- Upholstered with fabric
- Melamine panel
- If you order external walls with glass panes, you do not need to choose internal front walls

Panels upholstered with fabric

- Frame is made of 40x20 mm powder coated metal tube
- 12mm MFC (melamine)
- Covered with 3mm foam
- Upholstered with fabric

Melamine panel

- Frame is made of 40x20 mm powder coated metal tube
- 16mm MFC (melamine) with 1mm ABS edging

INTERNAL FRONT CENTRAL WALL

Wall with control unit (S)

- Top front panel is made of 16mm MFC (melamine) with 1mm ABS edging
- Bottom front panel with hinges is made of 16mm MFC with 1mm ABS edging
- Sides and internal construction parts made of 16mm MFC with 0.5mm ABS edging
- Ventilation and lighting dimming knobs are made of PA 2200 (nylon)

Table (S)

- Tabletop: 16mm MFC (melamine) with 1mm ABS edging
- Box for wires (135x150x100 mm) underneath the table top is made of 1mm powder coated metal sheet
- Bracket: 40x20 mm powder coated metal metal tube
- Mounted 1 AC power socket (100-240 V) with or without integrated USB fast charger (USB Type A+C, max 5A)
- Load capacity – 25kg

Control box (S / M / L / XL)

- Input (GST18i3 male): 100-240 V
- Output (GST18i3 female): 100-240 V
- Frequency: 50/60 Hz
- Power cable: Type G (UK) to GST18i3 female, 3m
- Power output cable length: 0.5m - GST18i3 male to GST18i3 female
- Power consumption – max. 229W, standby 4.5W

Options (M / L / XL)

- Internal front central wall with electronic control system
- Internal front central wall with low table, VESA mount and electronic control system
- Internal front central wall with high table, VESA mount and electronic control system

Wall with control unit (M / L / XL)

- Top front panel is made of 16mm MFC with 1mm ABS edging
- Bottom front panel with hinges is made of 16mm MFC with 1mm ABS edging
- Sides and internal construction parts are made of 16mm MFC with 0.5mm ABS edging
- Ventilation and lighting dimming knobs are made of PA 2200 (nylon)
- Cable guides are located on both sides of the wall (only for units without tables).

Table (M / L / XL)

- 720mm or 1050mm tabletop height option
- Tabletop is made of 16mm MFC (melamine) with 1mm ABS edging
- Box for wires (135x150x100 mm) underneath the table top is made of 1mm powder coated metal sheet
- Table frame is made of 40x20 mm metal tube
- Top of the leg is made of 70x20 mm metal tube
- Leg base is made of 40x40 mm powder coated metal tube
- Feet with height levelling (+10mm)

Screen bracket (M / L / XL)

- Screen bracket base is made from 70x20 mm powder coated metal tube
- VESA plate (120x120 mm) is made of 2mm metal sheet
- VESA standards – 75x75 mm, 100x100 mm and recommended weight is up to 10kg
- Recommended screen size is up to 27"
- VESA plate can be fixed to the holder in 3 different heights
- Bolts for flat screen assembly are not included

CEILING (S M L XL)

Composition

- Double layered ceilings are made of 12mm top and 16mm bottom MFC (melamine) panels with 1mm ABS edging
- Frame is made of 50x20 mm metal tube
- PIR sensor mounted in to central ceiling segment
- Fan grills are made of 1mm powder coated metal sheet
- Air supply duct inside glued with acoustic foam
- Ø60mm cable grommet for optional power supply from ceiling

Lighting

- 3 x LED modules (8.92W) colour temperature approx. 3000K dimmable
- 3 x LED housing (asymmetrical) made of aluminium
- Replacement for LED modules can only be purchased from the manufacturer

Ventilation

- 2 x air supply fans are located in the ceilings
- 2 x air exhaust slots are located in central segment of the ceilings for natural ventilation
- Maximum airflow approx. 200m³/h

DOORS (S / M / L / XL)

- Left-handed or right-handed option
- Powder coated metal door frame is made of 40x40 mm tube and 40x8 mm steel rod
- Aluminium profiles with PVC sealing fixed to internal sides and top and bottom of door frame
- Top of the metal frame is covered with 16mm MFC (melamine) with 1mm ABS edging
- 8mm TSG (tempered safety glass), clear

GLASS FACADE (M / L / XL)

- Powder coated metal door frame is made of 40x20 mm tube
- Inside gasket is made of 12mm MFC (melamine) with 1mm ABS edging
- Front sides and top of the metal frame are covered with 16mm MFC (melamine) with 1mm ABS edging
- 8mm tempered safety glass, clear

FLOORS (optional) (S / M / L / XL)

- Powder coated metal floor frame is made of 40x40 mm and 40x20 mm tube
- Floor panels are made of 25mm MFC with 0.5mm ABS edging
- Floor carpet thickness 3mm, made of PA6 (40%) and PP (60%)
- Skirting boards made of 16mm MFC with 1mm ABS edging
- Plastic feet with height levelling (+30mm)
- Note that the floor adds approximately 70mm to the overall height

CARPET (optional) (S / M / L)

- Carpet thickness 6.5mm, 100% polyamide, antistatic
- It is highly recommended to use the carpet when placing the Silent Room on hard flooring
- If you are planning to place the Silent Room on your carpet, you do not need to order the additional carpet
- Uneven floor can be the cause of sound insulation problems

ELECTRICAL (M / L / XL)

Power socket (ARU704)

- 1 AC power socket 100-240 V
- Integrated USB fast charger (USB Type A+C, max 5A)
- 1 cable guide for multimedia cable
- Mounting in Ø80mm cut-out
- Dimensions: Ø90x66 mm
- Cable length: 0.8m

Power socket (ARU703)

- 1 AC power socket 100-240 V
- Dimensions: 90x66 mm
- Mounting in Ø80mm cut-out
- Cable length: 0.8m

Power socket block set for media (ZZZ336)

- 3 AC power sockets 100-240 V
- Dimensions: 260x60x45 mm
- Adaptor block GST18i3 T-type - 1 x male, 2 x female
- Extension cable length: 0.5m - GST18i3 male to GST18i3 female

Power unit for media wall (ZZZ340)

- 3 AC power sockets 100-240 V
- Dimensions: 260x60x45 mm
- Metal frame 317x119x40 mm, made from 2mm powder coated metal sheet
- Mounting in 300x110mm cut-out
- Extension cable length: 1m - GST18i3 male to GST18i3 female

Power unit for media wall (ZZZ341)

- 2 AC power sockets 100-240 V
- 1 LAN outlet (CAT6 RJ45) with 2m flylead
- Dimensions: 260x60x45 mm
- Powder coated metal frame 317x119x40 mm, made from 2mm metal sheet
- Mounting in 300x110 mm cut-out
- Extension cable length: 1 m - GST18i3 male to GST18i3 female

Power unit for media wall (ZZZ342)

- 2 AC power sockets 100-240 V
- 1 Integrated USB fast charger (Type A+C, max 5A)
- Dimensions: 260x60x45 mm
- Powder coated metal frame 317x119x40 mm, made from 2mm metal sheet
- Mounting in 300x110 mm cut-out
- Extension cable length: 1m - GST18i3 male to GST18i3 female

Power unit for media wall (ZZZ343)

- 1 AC power sockets 100-240 V
- 1 Integrated USB fast charger (Type A+C, max 5A)
- 1 LAN outlet (CAT6 RJ45) with 2m flylead
- Dimensions: 260x60x45 mm
- Powder coated metal frame 317x119x40 mm, made from 2mm metal sheet
- Mounting in 300x110 mm cut-out
- Extension cable length: 1m - GST18i3 male to GST18i3 female

Jazz Box

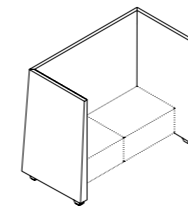

Acoustic meeting booths

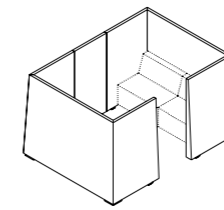

For a peaceful zone at your noisy office environment, Jazz Box is perfect for individual work, short meetings or for taking breaks during the day.

Combine soft seating, table, monitor holder and other accessories to create a space adjusted to individual needs.

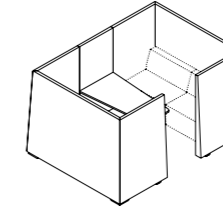

Range

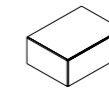

1810 x 925 x 1420

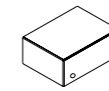

2500 x 1810 x 1420

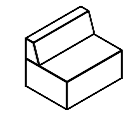

2500 x 1810 x 1420

800 x 600 x 400

800 x 600 x 400

800 x 600 x 650

Technical details

ACOUSTIC WALLS

Walls frame

- Made of 18mm medium density fibreboard and 18mm chipboard
- Coated with specially shaped foam VB2540 (density: 25kg/m³) from outside and acoustic foam from the inside
- Top and sides softened with VB2240 3mm foam

Legs

- MDF painted in black, H39mm

POUFS

Pouf frame

- 15mm plywood and 15mm chipboard

Seat

- Upper part is foam coated HR5050 (density: 48-51 kg/m³), lower layer of the foam HR3030 (density: 28-32 kg/m³); frame sides are foam coated HR3030 (density: 28-32 kg/m³)

Base

- Black painted rectangular metal base (50 x 20 x 1.5 mm) with 4 plastic glides (5mm)
- Ability to order linking parts (2 pcs.), which allow linkage of the poufs to lines

Cushion

- Made of foam (HR3538), upholstered with fabric;
- Zipper sewn into the lower part.

Power socket

- 1 socket for 230V with 1.5m cable
- UK, EU, FR, CH sockets available

DESK & LINKING CENTRAL WALL

Desktop

- 1200 x 650 x 663 mm, made of 25mm LMDP
- Power socket with 4 wire management holes is mounted into the desktop (only for AGS183)
- Metal box for cable management is fixed under the desktop: 185 x 150 mm, H100mm if there is a power socket

Table

- Made of metal tube: 70 x 20 x 2 mm
- Black painted leg glides are made of MDF, H16mm

Wall frame

- Made of MDF (18mm) and MFC (melamine, 18mm)
- Fittings are placed on the side to attach other walls

Foam

- Frame is coated with specially shaped foam from outside and acoustic foam from the inside

Wall legs

- Black painted MDF legs, H39mm

Monitor holder

- Three height adjustable positions
- VESA standards: 75 x 75, 100 x 100 mm
- Recommended weight up to 10kg

Wire management

- Space with zips for wire management

Arcipelago Wood

Meeting booths

Compatible
with Solo Smart
Charge power
module

Arcipelago Wood gives your employees a calm, focused 'room within a room' where they can conduct meetings, collaborate and reduce ambient noise to enhance focus.

A harmonious combination of oak veneered plywood and upholstered panels, Arcipelago Wood meeting booths transform workspaces with their use of natural elements and colours to create a positive effect on productivity and mood of employees.

Technical details

Wooden base

- Straight and curved segments made from 18mm birch plywood, covered with modified, lacquered oak veneer, R1mm rounded edges
- Segments joined with plastic connectors, using hex/allen key
- Straight panels have 2 height adjustable plastic legs (+15mm)

High back segments

- Internal metal frame molded with PU foam (100kg/m³)
- Zippers on the sides to connect each segment
- Connects to wooden base with plastic brackets

Seat base

- Base under the seats (1280 x 600 x 80 mm) is made from black 18mm MFC, with 1mm ABS edging
- Beam under the seat base is made from powder coated metal tube 40 x 40 mm
- Upholstered part is made from powder coated metal tube 70 x 20 mm, softened with foam
- Seat base fixed to wooden base
- Ø45mm velcro pads fix seat base to cushions
- Recommended load up to 110kg per seat

Seat cushions

- 1 seater square seat cushion (650 x 650 x 130 mm) is made from PU foam (65-70kg/m³), upholstered with fabric
- Ø45mm velcro pads fix cushions to seat base
- Seating depth – 530mm

Back cushions

- Base (515 x 375 mm) made from black 18mm MFC with 2mm ABS edging
- Filled with foam, upholstered with fabric
- Back cushions fixed to wooden base

Table

- 1100 x 800 mm tabletop made

- from 18mm birch plywood covered with modified, lacquered oak veneer with R1mm rounded edges
- Fixed to wooden base with 2 metal brackets
- H720mm from floor
- Lacquered and stained natural ash solid wood leg (694x54x59 mm) with metal plate 120 x 120 x 4 mm to fix to tabletop
- Plastic height levelling feet (+15mm)

Monitor holder

- Monitor holder base made from powder coated metal tube 70 x 20 x H390 mm
- VESA plate (120 x 120 mm) made from 2mm metal sheet
- 75 x 75 mm & 100 x 100 mm mount spacings and recommended weight up to 10kg -
- Can be mounted at 3 different heights
- Bolts not included

Wiring

- Upper wiring cover (100 x 340 mm) made from 18mm birch plywood, covered with modified, lacquered oak veneer and fixed to monitor holder
- Lower wiring cover (592 x 340 mm) made from 18mm birch plywood, covered with modified, lacquered oak veneer and fixed with 2 powder coated metal tubes 20 x 20 mm
- R1mm rounded edges
- 20mm gap between wooden base and lower wiring cover
- Box for wires (340 x 169 x 95 mm) made from 1mm powder coated metal, placed under the tabletop with option to mount power socket block inside

Oslo

Mesh back operator chair + meeting chair

Strength, comfort, style and performance at a value price.

With its mesh back and rear chrome accent, stylish integrated armrests and lockable tilting mechanism, our Oslo chair offers value, aesthetics and features rarely ever seen at a similar price.

Working in tandem with its task chair equivalent, the Oslo cantilever base meeting chair offers the same sleek black outfit with integrated armrests and an all black metal cantilever base.

Technical

Operator chair

Palermo

Canteen / meeting / conference chairs

Huge choice
of fabrics
available!

Ideal for breakout areas and canteens the Palermo chair's contemporary moulded shape and subtle muted colour choice bring vitality to any workspace.

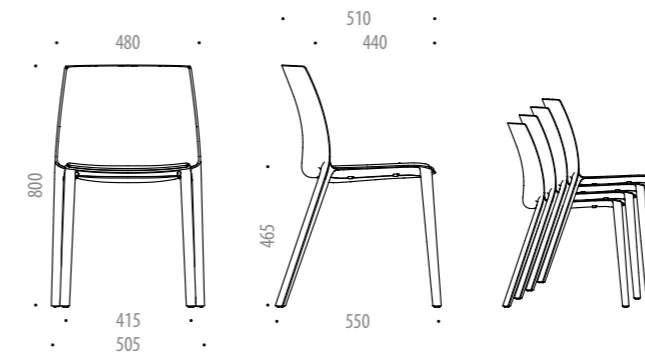

Choose the standard form or with integrated armrests, both stackable up to 4 chairs high. The solid plastic finish makes them easy to keep clean.

Made entirely from environmentally sustainable polypropylene

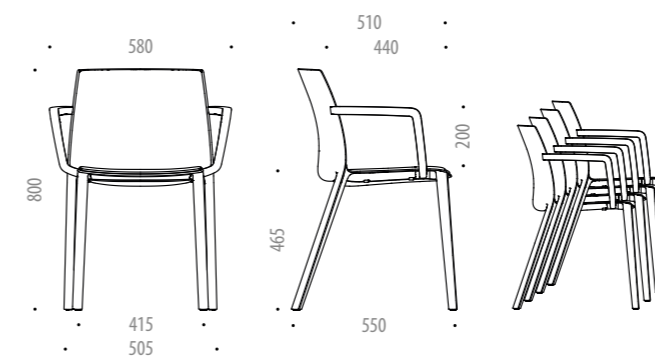

Palermo chairs are manufactured from a mixture of recycled materials: approx. 50% regenerated industrial polymers and 50% recycled consumer waste such as packaging, textiles and toys. Once these materials are processed the resulting polypropylene is reinforced with glass fibre.

Wind

Task + Meeting + High swivel chairs

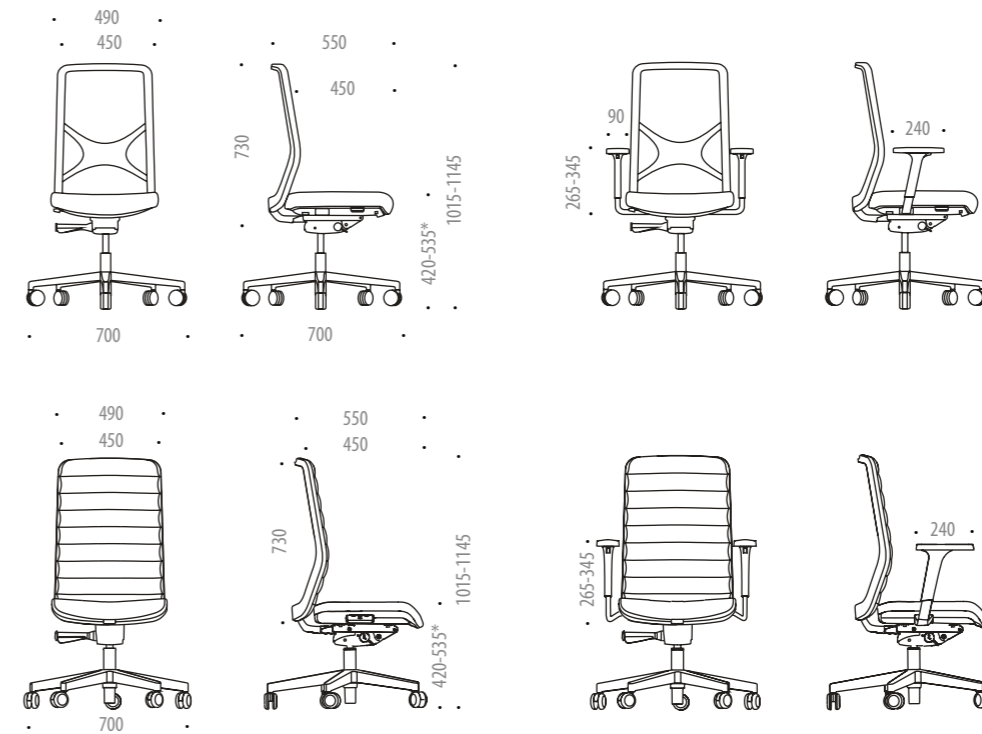

The Wind task chair is now available in 3 different versions: choose the backrest with regular and knitted mesh for a lighter and more breathable solution or fabric if you prefer a softer feel - same design without sacrificing any of its ergonomic features.

Wind has an instantly recognizable X-shape transparent lumbar support uniquely designed to enhance the chair's visual appeal and serve an important function. Its height can be adjusted and it conforms to the user's lumbar shape due to the elastic properties of silicone, providing exceptional comfort.

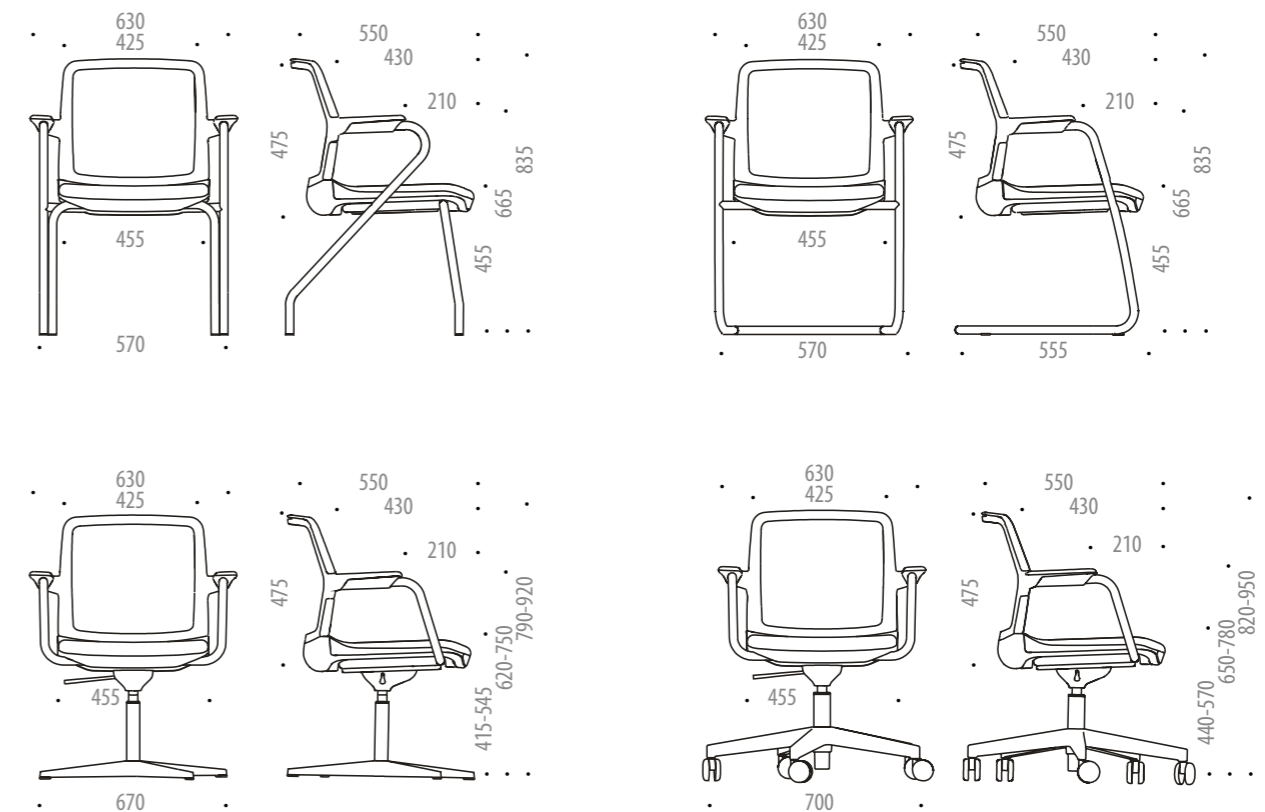

The high swivel chair is an elegant solution to match with reception desks, high tables and sit-stand desks. The ring-shaped adjustable-height legrest allows users to adjust the chair to their height, maintain a correct seating position and avoid unpleasant back and neck pain. Castors provide extra safety and stability, locking in place as you sit. The meeting chair is a welcoming tool to equip collaborative workplaces and increase productivity. Backrest and armrests form an original monobloc structure the upholstered seat and 4 different bases meet any flexibility and aesthetic needs.

TASK CHAIRS

Seat

- Fixed or depth adjustable (60mm run range)
- Lower part (inner and outer) made of PP (polypropylene)
- Foam made of polyurethane
- Fabric or leather look upholstered

Backrest

- Frame made of black or white plastic
- Mesh, fabric or leather look upholstered
- Inner foam made of polyurethane (fabric upholstery)

Lumbar support

- Height adjustable (80mm run range)
- Made of transparent silicone

Headrest

- Frame made of nylon plastic
- Soft part made of polyurethane
- Height adjustable (60mm run range)
- Fabric or leather look upholstered

Gas lift

- Chrome or black
- 130mm run range

Mechanism

- Weight-sensitive synchronized mechanism
- 3 backrest locking positions by push button

Bases

- 5-star polished aluminium base
- 5-star black or white fibreglass reinforced plastic base
- External Ø700mm

Castors

- Rubber freewheel castors for hard floor, Ø65mm
- PA freewheel castors for soft floor, Ø65mm

Armrests

- Fixed black plastic armrests
- 2D adjustable black plastic armrests
- 2D adjustable black plastic or white plastic armrests with polished aluminum lower part
- 2D height adjustable armrests (80mm run range), pad moves forward and backward (55mm range)
- 3D adjustable black plastic armrests
- 3D adjustable black plastic or white plastic armrests with polished aluminum lower part
- 3D height adjustable armrests (80mm run range), width adjustable (37mm run range), pad moves forward and backward (55mm range)
- All armrests upper part coated with PU pads, soft touch

MEETING CHAIRS

Seat

- Fixed, lower part (inner and outer) made of PP
- Foam made of polyurethane
- Fabric or leather look upholstered

Backrest

- Frame made of black or white plastic, mesh upholstered

Armrests

- Chrome frame covered with black or white plastic
- Armrest pad fixed, made of plastic

Mechanism

- Polished or black
- Fixed, height adjustment by side lever

Gas lift

- Chrome or black colour, 130mm run range

Bases

- 5-star polished aluminium base
- 5-star black or white fibreglass reinforced plastic base
- 5-star external Ø700mm
- 4-star polished or black powder-coated aluminium base
- 4-star external Ø670mm
- Four legs metal tube frame, chrome or powder coated
- Cantilever metal tube frame, chrome or powder-coated

Castors and glides

- Ø65mm rubber freewheel castors for hard floor (5-star base)
- Ø65mm PA freewheel castors for soft floor, (5-star base)
- Glides for hard floor (cantilever and 4-leg base)
- Glides for soft floor (cantilever and 4-leg base)

HIGH SWIVEL CHAIRS

Seat

- Fixed
- Lower part (inner and outer) made of PP
- Foam made of polyurethane
- Fabric or leather look upholstered

Backrest

- Frame made of black or white plastic
- Mesh, fabric or leather look upholstered
- Inner foam made of polyurethane (fabric upholstery)

Lumbar support

- Height adjustable (80mm run range)
- Made of transparent silicone

Bases

- 5-star polished aluminium base
- 5-star black or white fibreglass reinforced plastic base
- External Ø700mm

Foot ring

- Fixed with gas lift
- Easy height adjustable
- Black plastic body with chrome-finished ring, Ø460mm

Gas lift

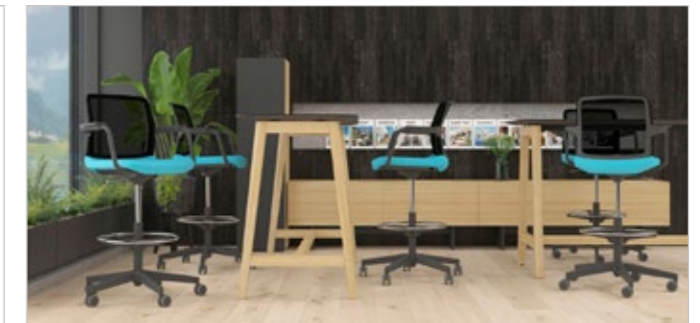

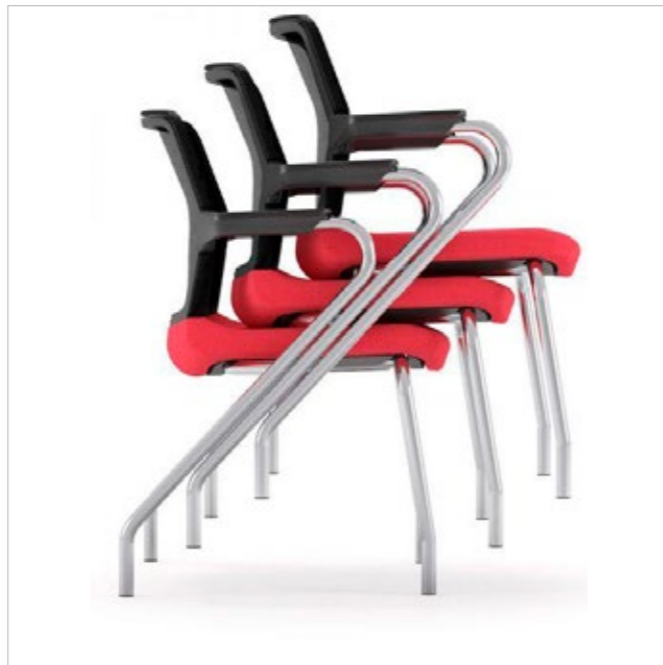

- Chrome or black colour
- 245mm run range

Castors

- Rubber freewheel castors with sit stop brake for hard floor, Ø65mm
- PA (polyamide) freewheel castors with sit stop brake for soft floor, Ø65mm
- PP fixed glides, Ø50mm, for soft floors

Armrests

- Fixed black or plastic armrests;
- 2D adjustable black plastic armrests;
- 2D adjustable black plastic or white plastic armrests with polished aluminium lower part;
- 2D height adjustable (80mm run range), pad moves forward and backward (55mm range)
- 3D adjustable black plastic armrests
- 3D adjustable black plastic or white plastic armrests with polished aluminium lower part
- 3D armrests height adjustable (80mm run range), width adjustable (37mm run range), pad moves forward and backward (55mm range)
- All armrests upper part is PU coated pads, soft touch

North Cape

Task + Executive + Meeting + Conference chairs

The North Cape chair family is composed of stylish, sophisticated and functional executive, task, meeting and conference chairs. The range joins executive, working and meeting areas as well as reception and guest areas by uniting, delicate style.

Task chair tension adjustment

This function allows you to control how easily the chair tilts, depending on your weight and the force that is being used to lean back.

Task chair knee-tilt mechanism with centered axis

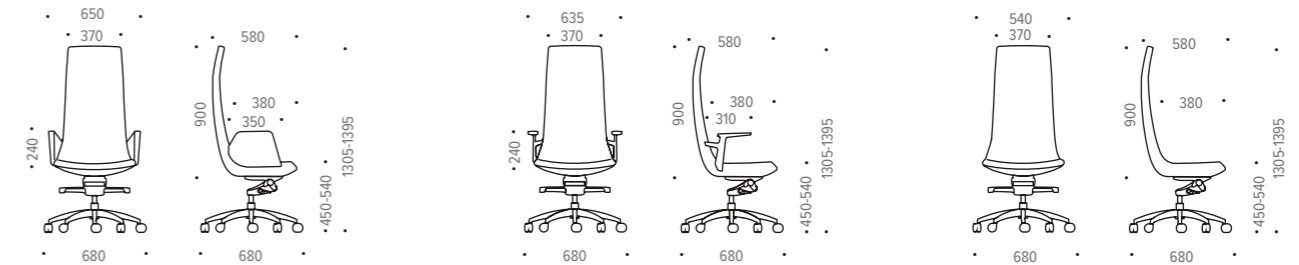

The task chair backrests and seats are joined together so when you lean back, the whole chair tilts. This mechanism allows you to lean back without lifting your feet from the ground, avoiding pressure on your calves. The tilting mechanism has 4 locking positions and returns automatically to the initial position.

More comfort

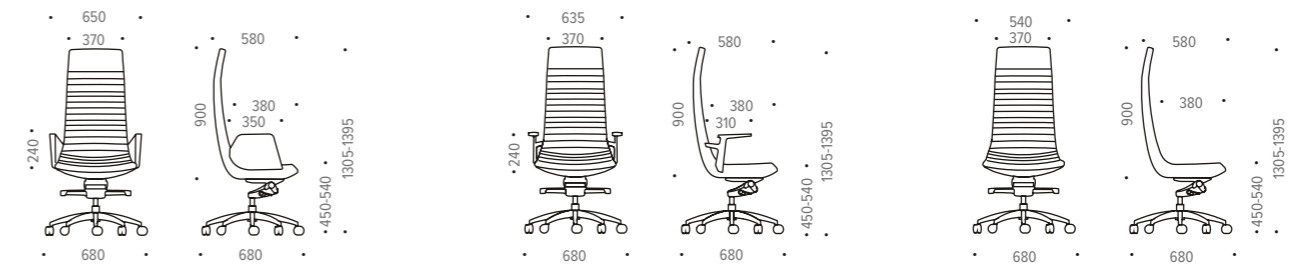

The addition of a seat cushion will make your North Cape chair even softer and can add an accent of colour.

Moon

Meeting + Conference + Operator chairs + Stools

The simple but elegant Moon chair family make a positive addition to any workspace.

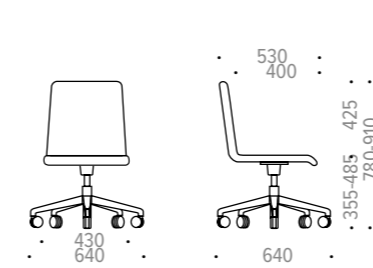

The comfortable task chair comes with a choice of 5-star polished aluminium or black plastic with fibreglass base.

Meeting chairs come with a choice of sled steel frame or 4 legs with or without an integrated armrest. All meeting chairs are suitable for a conference environment and can be easily stacked up to 5 chairs high.

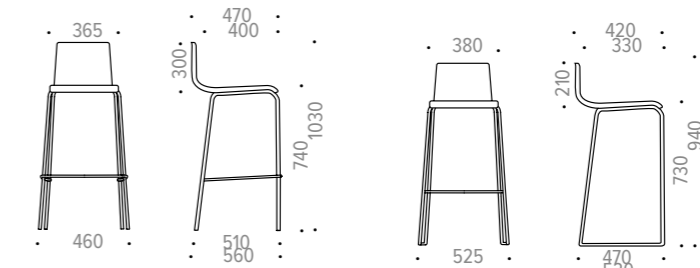

The high chairs are ideal for raised breakout meeting tables or bars and are stackable up to 3 chairs high.

Range

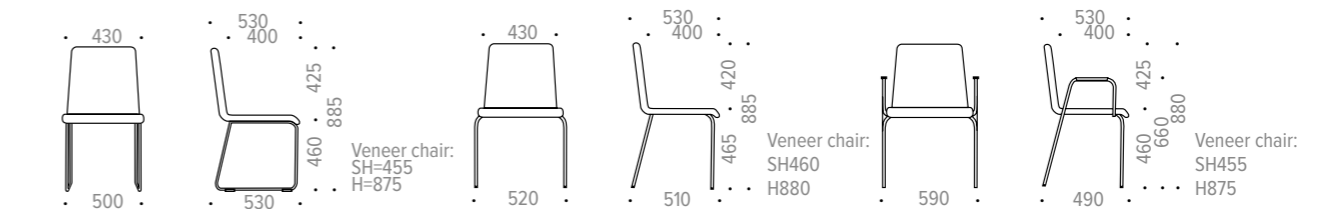

Operator chair

Stools

Meeting chairs

Technical

Types

- Task, meeting & conference and high chairs

Seat and back

- Frame made of plywood
- Foam made of cut foam (density H5050)
- Upholstered with fabric or leather
- Covered with natural wood veneer or laminated veneer

Mechanism

- Tilting mechanism lockable in working position
- Knob for tension adjustment

Gas lift

- Chrome or black colour
- 130mm run range
- Pneumatic regulation of the height

Bases

- 5-star polished aluminium or black plastic with fibreglass base
- External Ø640mm
- Chrome or powder-coated Ø11mm steel sled frame with soft floor or hard floor glides
- 4-leg Ø18mm chrome steel frame
- 4-leg Ø18mm chrome steel frame, integrated armrests with plastic finish
- 4-leg Ø16mm chrome steel frame

Castors

- Ø65mm rubber freewheel castors for hard floor
- Ø65mm PA freewheel castors for soft floor

Gama

Conference / meeting chairs

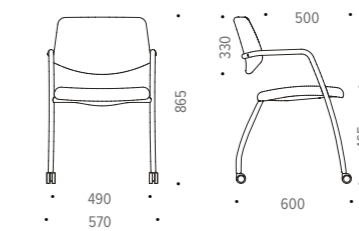

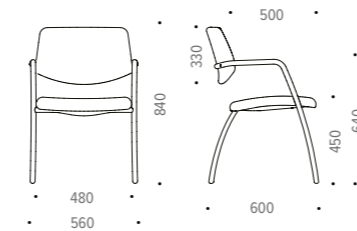

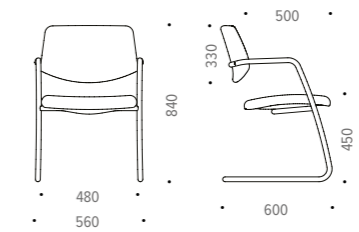

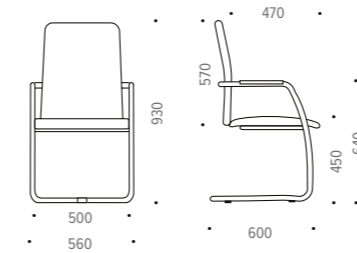

Gama meeting chairs are the perfect choice for conference rooms with a stylish reclined design that provides maximum comfort.

Choose between a high or low backrest in fabric or mesh and a cantilever or 4-leg frame.

A large choice of fabrics are available for backrest and seat including genuine leather. Frames come in chrome or powder-coated steel.

Range

Technical

Seat

- Lower part made of PP (polypropylene)
- Foam made of cut foam (density H5050)
- Upholstered with fabric or leather

Back

- Frame made of black plastic
- Foam made of cut foam (density H5050) (fabric upholstery)
- Upholstered with fabric, leather or mesh

Armrests

- Integrated armrests with plastic pads

Bases

- 4-leg chromed or powder-coated steel frame with plastic glides, Ø25mm
- 4-leg chromed or powder-coated steel frame with castors, Ø25mm
- Cantilever chromed or powder-coated steel frame with plastic glides, Ø25mm

Castors

- Rubber free wheel castors for hard floor, Ø50mm
- PA (polyamide) free wheel castors for soft floor, Ø50mm

Wait

Conference chairs + Stools

The Wait chair's flexible and lightweight design make it a popular choice for conference seating.

With a choice of steel sled frame stackable up to 10 high, or steel legs with or without castors stackable up to 6 high the Wait chair can be adapted to suit any aesthetic. An optional trolley makes reworking room layouts or moving chairs from room to room quick and easy.

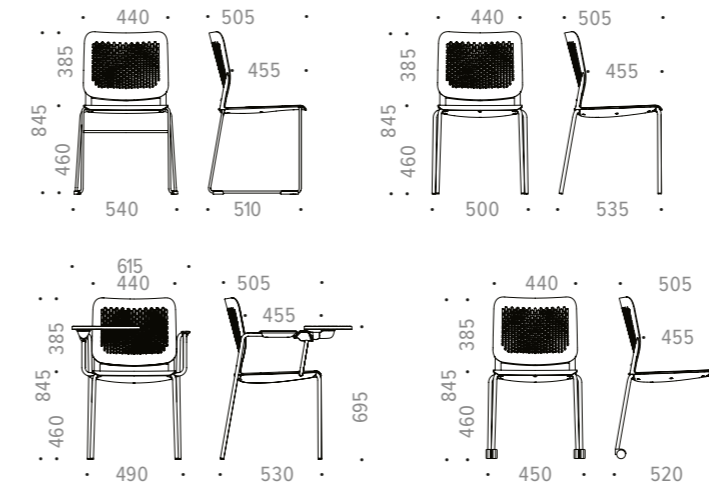

Wait comes in a choice of 7 plastic colours and multiple fabric options for the backrest and seat including Velito, Synergy and Leather Look.

Chairs with a 4 leg steel base offer an integrated armrest option with a small folding table accessory also available, making them ideal for training workshops or lectures.

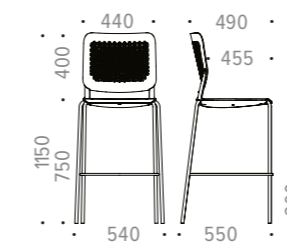

The high chair option is ideal for breakout areas with high tables or dining areas with bars.

Twist & Sit

Conference + Meeting + Lounge chairs + Stools

Distinctive character and freedom of expression for your individual style.

With its visually striking Scandinavian design, Twist & Sit soft seating family is perfect for modern offices that exude a chic vibe and looks just as great in traditional workspaces. It has expressive character, provides improvisational freedom and comes in different style variations. You can select almost 80 different colour combinations for the upholstered part of the chair, contrasting colours will bring a sense of exclusivity to your Twist & Sit furniture.

It also comes in a variety of base options so there is no need to compromise on style. Consider your functional needs as well as the fabric or design to accommodate your preferences.

Metal bases have a modern look and are practical, whereas wooden bases give the space a homely feel and add a touch of elegance to the room. Both base options are available in dark and light colours to further add to the beauty of contrast.

The high wraparound backrest diminishes surrounding noise and offers a pleasant sense of comfort and protection.

Our wide choice of Twist & Sit Lounge chairs will accommodate the needs of a broad array of office settings. The soft seating family includes meeting and conference chairs, lounge seating with high or low backrests as well as high chairs.

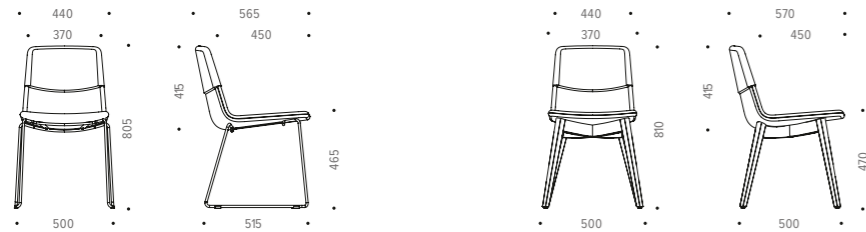

Twist & Sit lounge furniture is very versatile and suits not only usual office spaces but also special executive

spaces. It will add a special touch to both formal and informal meeting spaces, relaxation spots or creative areas. Mix and match different Twist & Sit models to create a desirable visual impact whether you want to convey a vibrant, edgy or playful feel or a subtle and calm one.

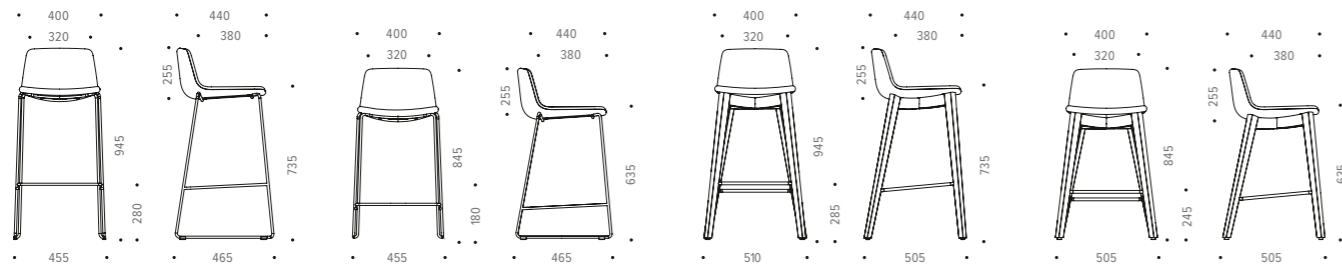

From airport lounges to office break rooms, from meeting rooms to co-working spaces, from bar counters to restaurant tables to living rooms, Twist & Sit is ideal for making any environment stand out.

Twist & Sit Soft

Lounge chairs + Sofas

Twist & Sit Soft lounge seaters will help you add a homely feel to your office spaces and create a relaxing atmosphere. Available in different sizes and high-back or low-back versions the chairs allow you to transition smoothly from individual tasks to team meetings or chatting with colleagues.

Thanks to the recurrent design motives, the lounge chairs, armchairs and sofas fit together perfectly with the rest of the Twist & Sit range, help to create a uniform style and ensure a broader range of potential uses.

Well-rounded shapes and a distinctive connection between the lower and upper parts of the backrest create an expressive and instantly recognisable look. The immaculate appearance is achieved with stitching details extending smoothly throughout the surface of the seater from top to bottom.

Twist & Sit Soft seaters ensure a comfortable sitting experience thanks to the increased thickness of the PU padding. Besides highlighting the visually distinctive design of the seater, the design elements of the backrest also serve an important function as the

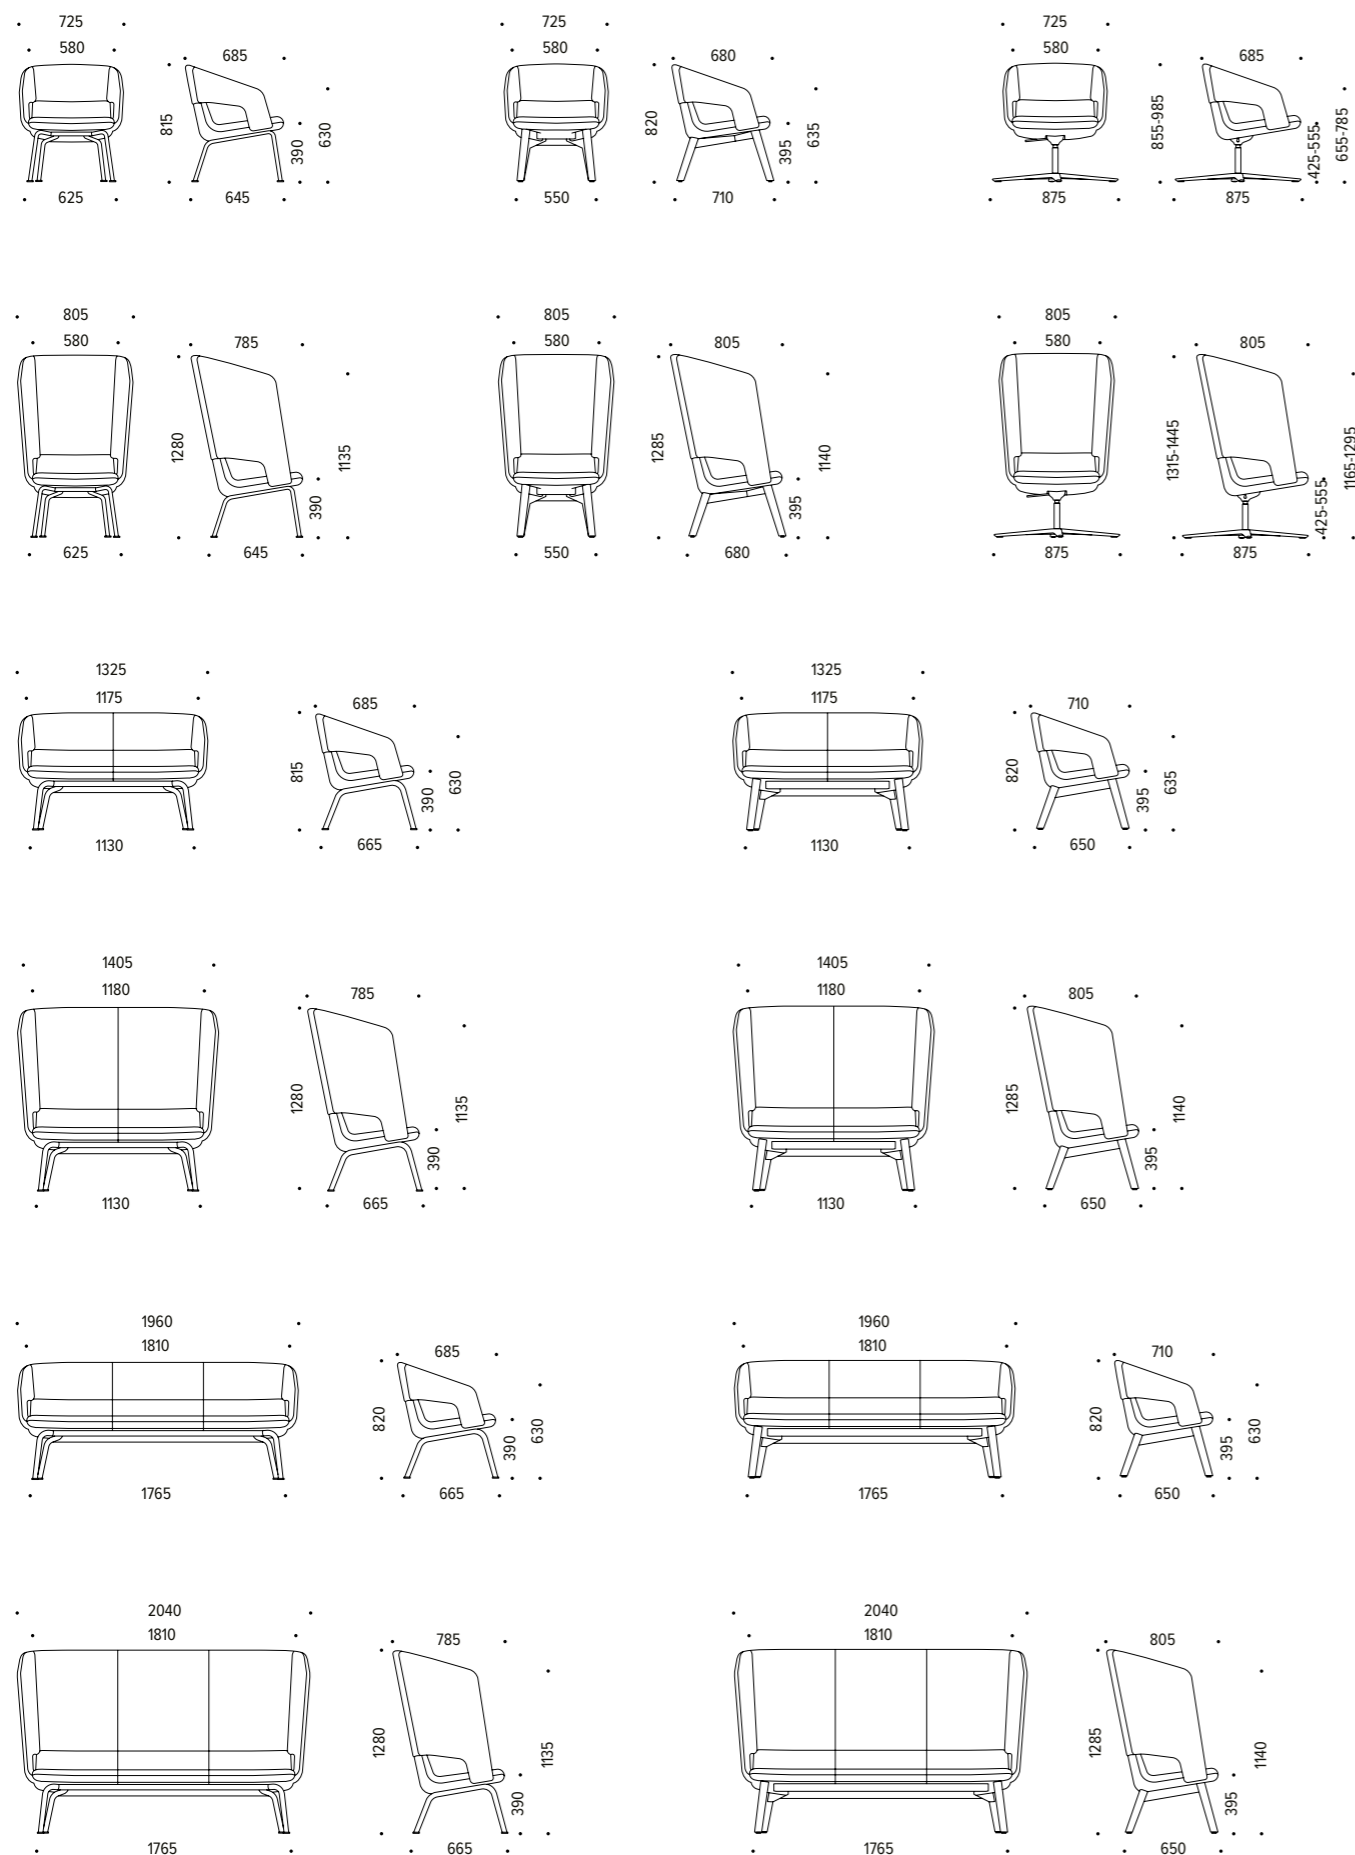

recessed lower part of the backrest subtly conforms to the natural contours of the spine, making the user feel comfortable. The side openings facilitate movement of air and come in handy when moving the seater from one place to another. A high-back seater will help you ensure a greater level of privacy serving as a barrier from background noise.

With its special stitching pattern and a wide range of fabric and leather look options, Twist & Sit Soft will enable you to choose the best single-colour or two-tone seaters for your office interior.

The lacquered solid ash wood is ideal for those who appreciate an authentic look, whereas the lacquered black stained option is perfect for those who opt for a unique style. Both options are easily compatible with different seater bases.

High-back seaters may come with optional accessories which can serve as additional statement pieces. The round wooden knob can be used for convenient hanging of personal items. The left-handed or right-handed swivel table provides a convenient surface for placing a laptop, a cup of coffee or a book.

Range

Technical

Seat and back

- Steel frame moulded with polyurethane
- Possible in low-back or high-back versions and three sizes – one-seater, two-seater and three-seater
- Upholstered with fabric or leather look, available in two colours (outside and inside)

Armrests

- In one body with the backrest, connected to the seat with steel plates
- Steel frame molded with polyurethane
- Upholstered with same fabric or leather look as the backrest and seat

Mechanism

- Fixed mechanism
- Height adjustment with side lever
- Polished or finished in black colour
- Only for one-seater version

Gas lift

- Chromed or finished in black colour
- 130mm run range
- Only for one-seater version

One-seater bases

- Powder coated steel legs from Ø25mm pipe, plastic glides in black, with/without felt for hard and soft floor
- Wooden legs, lacquered natural or lacquered and stained black ash solid wood, glued and fixed with metal fittings, plastic glides* in black, double sided, with or without felt for hard and soft floor
- 4-star base, polished or black painted aluminium, external Ø880mm

Two-seater and three-seater bases

- Powder coated steel legs from Ø32mm pipe, plastic glides in black, with or without felt for hard and soft floor
- Wooden legs, lacquered natural or lacquered and stained black ash solid wood, glued and fixed with metal fittings, plastic glides in black, with or without felt for hard and soft floor

Two-seater and three-seater bases frames

- Frame for metal legs: made from rectangular pipes 40 x 20 mm, assembled under seat and legs connected with metal fittings
- Frame for wooden legs: made from rectangular pipes 50 x 25 mm, assembled under seat and legs connected with metal fittings. Frame is covered with lacquered natural or lacquered and stained black solid ash-wood covers

Wooden knob

- Mounting place for accessories
- Made from lacquered natural or lacquered and stained black ash solid wood with metal fittings
- Mounted 1060mm from the ground
- Suitable only for high-back lounge chairs and sofas
- Accessories cannot be fitted on furniture that was not prepared for mounting

Swivel plywood table

- Table can be ordered L/H or R/H
- Made from 15mm plywood covered in wood veneer and lacquered edges
- Swivel mechanism made from 3D printed PP plastic and metal black powder coated parts
- Mounting bracket made from 3mm metal sheet, black powder coated and fixed with bolts covered with black plastic (PE) caps
- Mounted 665mm from the ground

- Suitable only for high-back lounge chairs and sofas
- Accessories cannot be fitted on furniture that was not prepared for mounting

*For one-seater with wooden legs glides are two sided and can be mounted and dismantled with screwdriver depending on the floor type – one side is for soft and other side is for hard floor

Cannie

NEW

Stools

Designed by the Italian studio S.I. Design, the **Cannie collection of stools combines high-quality materials into a simple yet playful design that is easily adaptable to different interiors.**

Available in three heights, Cannie may look like a simple stool, but it is guaranteed to offer high quality and comfort to its users. When sitting on a high or medium high stool, you can place your feet comfortably on the footrest.

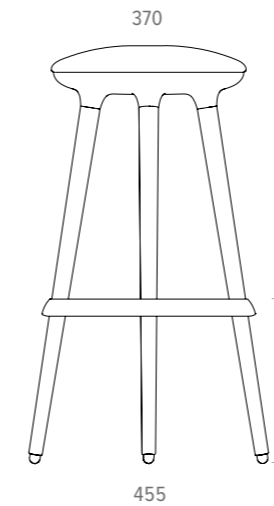

Cannie stools are easy to disassemble, sort and recycle. The plastic seat and footrest are fully recyclable, as are

the solid wood legs. The varnish and paints are water-based and therefore have low emissions of volatile organic compounds.

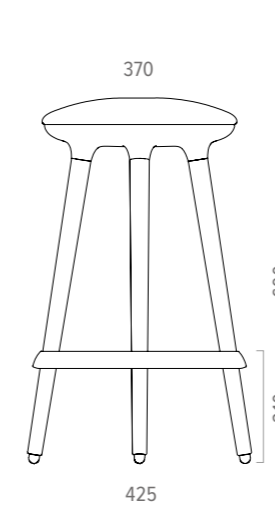

Cannie stools of different heights can be used in office collaborative or meeting spaces, an office kitchen as well as in public spaces. Designers will enjoy combining these stools in different interiors and will be able to choose the colours of the legs, the footrest as well as the plastic of the hard part of the seat and upholstery of the seat. That is 1620 possible combinations in total!

The Wobby pivoting stool offers a healthier sitting alternative and a solution for increased productivity at work. The modern and sleek design is an ideal accompaniment for a sit/stand desk.

The unique pivoting system means the seat can be tilted up to 8 degrees in all directions and rotated 360 degrees, together with the stable, non-skid base surface allowing it to be used as a support when standing to work.

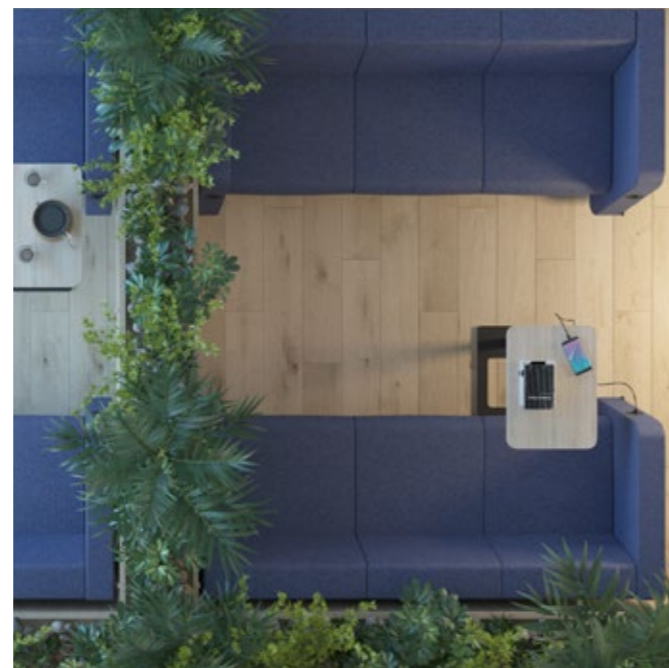

The seat height is simple to adjust to your individual needs using the elegant brown leather strap.

Soft Rock

Modular soft seating

Soft Rock low-frame lounge seaters, with a distinctive backrest, blend subtly into all kinds of lounge or workspaces and help to create a welcoming, safe and calm atmosphere for relaxation, informal meetings, collaboration or individual tasks. The synergy between rounded shapes and straight lines creates a unique, eye-catching yet simple design.

The flexible modular system consists of a series of lounge seaters available in different sizes and forms which can be easily combined or rearranged to make efficient use of the space. Choose from six main lounge

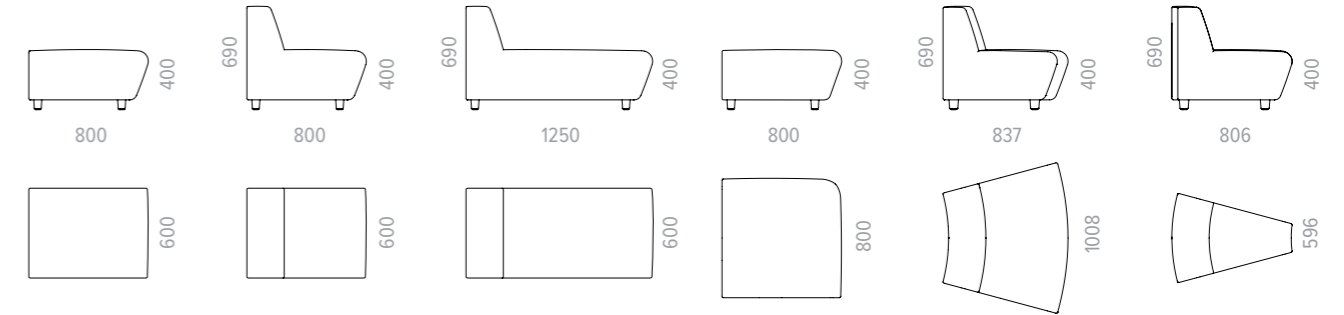

seaters available in different sizes, with straight or curved lines, and with or without a backrest.

Screens can be harmoniously integrated into the seating combinations and can change their purpose, like creating a more private area for individual work that requires concentration within an open space.

Soft Rock offers its users a convenient way of charging their mobile phones, laptops or other smart devices. The armrests of the Soft Rock furniture have in-built power sockets or fast charging USB ports.

Lounge seaters

- Black plastic feet with plastic glides (PP), height 63mm, 4 pcs (felted glides adds extra 3mm)
- Internal frames made from 15mm chipboard
- Curved internal frames made from 15mm chipboard and 15mm bent plywood
- Backrest fixed to the internal frame with 40x30 mm powder coated metal tubes
- Bottom plate made from 25mm MFC with 2mm ABS edging, fixed to the internal frame with 60x60 mm powder coated metal tube connectors
- Bottom plates have ability to install linking brackets
- Maximum functional load 110kg
- Preassembled metal connectors for side armrests or screens for quick mounting
- Seats made from moulded PU foam (density: 55kg/m³), hardness approx. 300N
- Backrests made from moulded PU foam (density: 55kg/m³), hardness approx. 250N
- Sides and backs softened with foam VB3842 (density: 36-39kg/m³)
- Upholstered with fabric or RNN, without gluing
- Linking brackets 50x15 mm black powder coated metal tube

Side armrests

- Internal frame 12mm, 25mm chipboard, 3mm HDF and 3mm flexible plywood
- Preassembled connectors (plastic) for quick mounting to lounge seaters
- 1 AC power socket 100 – 230 V (EU, UK, FR, CH, US) or USB fast charger (USB Type A+C, max 5A), cable ends with connector GST18i3 male, cable length – 1m
- Covered with foam VB3842 (density: 36-39 kg/m³)
- Upholstered with fabric or RNN

Armrests with metal base

- Internal frame 12mm chipboard and 3mm HDF
- 1 AC power socket 100 – 230 V (EU, UK, FR, CH, US) or USB fast charger (USB Type A+C, max 5A), cable ends with connector GST18i3 male, cable length – 1m
- Bottom base, for positioning between seaters, made from 3mm black powder coated metal sheet
- Covered with foam VB3842 (density: 36-39 kg/m³)
- Upholstered with fabric or RNN

Screens

- 16mm chipboard, covered with 10mm acoustic foam
- Preassembled connectors for mounting to seaters
- Upholstered with fabric or RNN

Screen table

- 18mm birch plywood, covered in veneer with sloping edges and R1mm rounded edges
- Mounting brackets made from 4mm black powder coated metal sheet
- Mounted 700mm from the ground (300mm from the seat)
- Bolts covered with black plastic (PE) caps

Power supply cables

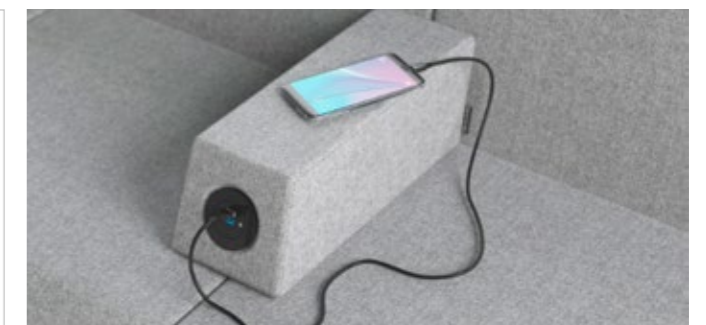

- AC plug – GST18i3 female connector
- AC plug standards: EU, UK, FR, CH, US
- Cable lengths: 1 m and 3 m
- Cable core: 2mm² (EU, FR, UK, CH)
- Inline Overcurrent Protection (OCP 10A) (CH)
- Inline Overcurrent Protection fulfills statutory requirements: in the USA for more than 3 sockets, in Switzerland for more than 1 socket
- Black

Extension cables

- GST18i3 female to male connector
- Cable lengths: 1m, 2m and 3m
- Cable core: 2mm² (EU, FR, UK, CH)
- Black

Distributor blocks

- GST18i3 1-2 block (1 male in, 2 female out), black
- GST18i3 1-3 block (1 male in, 3 female out), black
- GST18i3 1-5 block (1 male in, 5 female out), black

Jazz Chill Out

Modular soft seating

With its simple shapes and sharp lines Jazz modular soft seating works in almost any setting, ideal for reception and waiting areas and breakout spaces.

The sloped backrests and raised armrests provide a high level of comfort and the variety of fabrics available means that colours can be easily mixed and matched and swapped as desired.

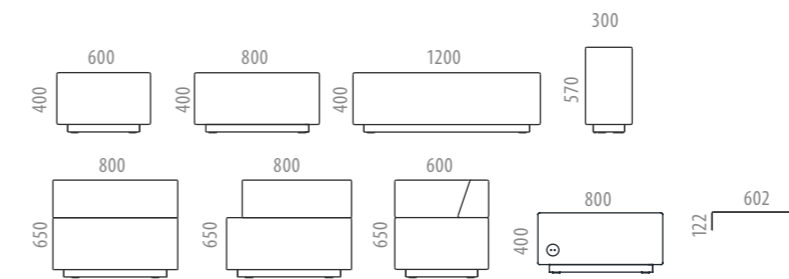

The simple table design can be added in any section of seating and moved as required and aligned with power sockets in poufs to create a flexible individual workspace.

Jazz lounge seating works seamlessly with Jazz silent booth for increased privacy and sound absorption.

Fabrics can also be matched with Modus acoustic panels to create permanent alcove seating, ideal for dining areas and reception areas.

Works
with
Jazz Box

Range

Technical

Frame

- Made from 15mm plywood and 15mm chipboard, poufs with backrest also has 40 x 30 x 2 mm metal tube
- Backrest frame made from 15mm plywood, 25mm chipboard and 25 x 25 x 2 mm metal tube

Padding

- Frame top coated by foam HR5050 (density: 48-51 kg/m³), lower layer of the foam HR3030 (density: 28-32kg/m³); frame sides coated by foam HR3030 (density: 28-32 kg/m³)
- Backrest frame coated by foam HR5050 (density: 48-51 kg/m³)

Power socket

- Power insert available with UK, EU, FR or CH type socket
- Cable length 2 meters

Seat

- Black metal base (50 x 20 x 2 mm) with 4 plastic supports (5mm)
- Linking brackets available for creation of combinations

Arcipelago

Modular soft seating

Create modern and functional office or public spaces with Arcipelago, a modular lounge seating system offering endless configuration possibilities whether individual workspaces, waiting areas, private meeting spaces or open meeting areas.

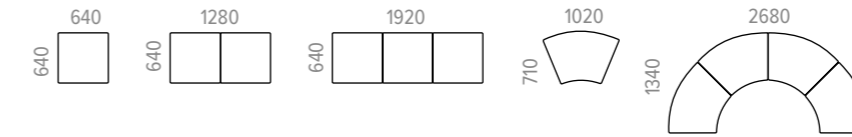

Thanks to its flexibility and 3 different height adjustment options, Arcipelago is a great choice for workspaces of any size and style. The high-back option provides more privacy and acoustic comfort.

Choose from a wide range of fabrics and colours or mix and match them to create a unique style for your office. Backrests and seat cushions can be easily removed and swapped. Choose your favourite configuration from standard options or build your custom configurations by mixing and matching modular components. Arcipelago is easy to assemble, disassemble or reassemble.

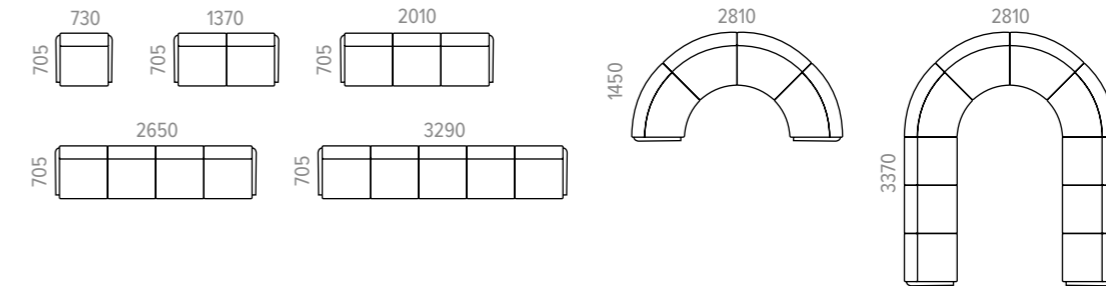

Arcipelago comes with well-designed accessories including: tables mounted between seats with integrated power socket and USB fast charger, mobile tables and armrests with power socket and USB fast charger.

Additional dimensions

Technical

Base frames

- One seater base frame (640 x 640 x 80 mm)
- Two seater base frame (1280 x 640 x 80 mm)
- Three seater base frame (1920 x 640 x 80 mm)
- One seater curved base frame 45° (1020 x 690 x 80 mm)
- Base frames are made from metal tubes 70x20x2 mm and 50 x 20 x 2 mm
- Outer side of base frames are softened with foam HR5050 (48-51 kg/m³)
- Upholstery to the base frame attached with hook and loop straps

Legs

- Round wooden legs Ø48mm x H256 mm with height adjustable plastic feet (+10mm), seat H420mm (pricelist standard)
- Metal tube legs Ø30 x 263 mm with height adjustable plastic feet, (+10mm), seat H420mm (pricelist standard)
- Metal tube legs Ø30 x 293 mm with height adjustable plastic feet, (+10mm), seat H450mm (optional change)

Back cushion

- One seater straight back cushion (650 x 420 x 200 mm)
- One seater curved 45° seat cushion (1070 x 420 x 200 mm)
- Made from PU foam (50kg/m³)
- Upholstered with fabric
- Back side sewed with soft hook and loop strap

Side armrests and backrests

- Internal metal frame molded with PU foam (70kg/m³)
- Upholstered with fabric
- Backrests with hard Velcro strap in front to bind with back cushion

High back sides

- Internal metal frame molded with PU foam (100kg/m³)
- Upholstered with fabric
- Connected with zippers on the sides

Connecting brackets

- Armrest and backrest connecting brackets, base frames connecting brackets ('U' shape) and metal brackets for table connection ('L' shape) made of metal sheet (8mm)
- High back sides connecting brackets made from plastic (PA66+15GF)

Seat cushion

- One seater square seat cushion (650 x 650 x 130 mm)
- One seater curved seat cushion 45° (1030 x 710 x 130 mm)
- Made from PU foam (65-70 kg/m³)
- Upholstered with fabric
- Sewn with soft round 'velcro' pads on the bottom
- Seat cushions placed on MFC board, stuck with hard hook and loop pads

Armrest with power sockets

- Internal frame made of 15mm chipboard
- Covered with foam (HR5050 (48-51 kg/m³), VB3842 (36-39 kg/m³))
- Upholstered with fabric
- 1 x power socket with 2m cable
- Bottom base for positioning between seat cushions from 3mm metal sheet

Integrated tables

- Frame made of 18mm MFC with 1mm ABS edging (640 x 640 x 200 mm)
- H420mm above the ground – same as seat cushion
- 1 x EU, UK, FR or CH type power socket with 2m cable (SHD62), USB A + C fast charging module (SHD63)

Mobile table

- Table top 16mm MFC (500 x 400 mm) with 1mm ABS edging
- 8mm metal plate underneath table top
- Vertical powder coated metal column tube (40 x 40 x 2 mm)
- 8mm metal base with 4 adhesive felt glides

Kardo

Pole-mounted monitor arms

The Kardo fixed pole monitor arm is popular worldwide due to its appealing aesthetic and easy install design features.

We launched our first pole-mounted monitor arm in 2013 to help office workers avoid the risks associated with display screen equipment and save valuable desk space. Our Kardo range has proved very popular and now includes arms for single, twin and quad screen setups.

Materials

- Metal**
- Black (BK)
- White (WH)
- Grey (SV)

Quick release 75mm/100mm VESA mounting plates as standard with hand turn fixing screws

Quick release arm height adjustment

EASY TO INSTALL
No tools required!

FIRA Certified to:
BS EN ISO 9241 Workplace Ergonomics
PP 045 Safety and Durability

Includes pre-assembled clamp plus through-desk fixing option

Integrated cable management keeps your workspace clear

VESA plates slide onto Kardo arm with fixing clips to hold screen in place

Hand-turn desk edge clamp and through-desk clamp included

Brighten your workspace with an integrated flower holder in the pole

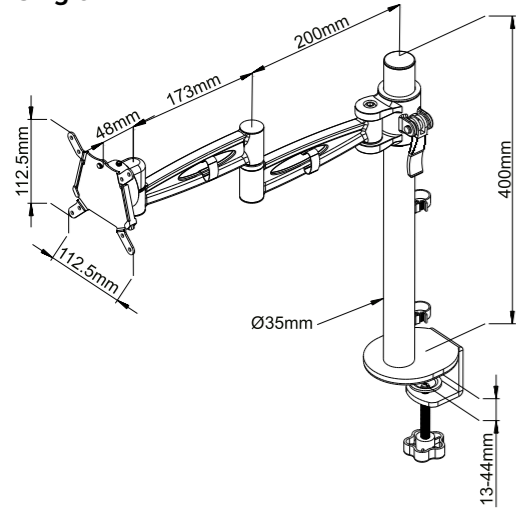

Technical details

- VESA quick-release mounting plates 75mm and 100mm
- Pre-assembled hand-turn desk edge clamp and through-desk fixing included (PMA521, PMA522, PMA523, PMA524)
- Low profile mini-clamp option
- Tool rail mounted arm option for single screen/monitor
- Inverted single arm option to convert single to twin
- Powder-coated steel, available in Black, Grey or White
- Certified to: BS EN ISO 9241 Workplace Ergonomics, PP 045 Safety & Durability

Levo

Dynamic monitor arm & twin rail

Levo offers the very latest in monitor arm design with a unique ratchet and clutch mechanism engineered to hold large screens securely, whilst being easy and smooth to adjust.

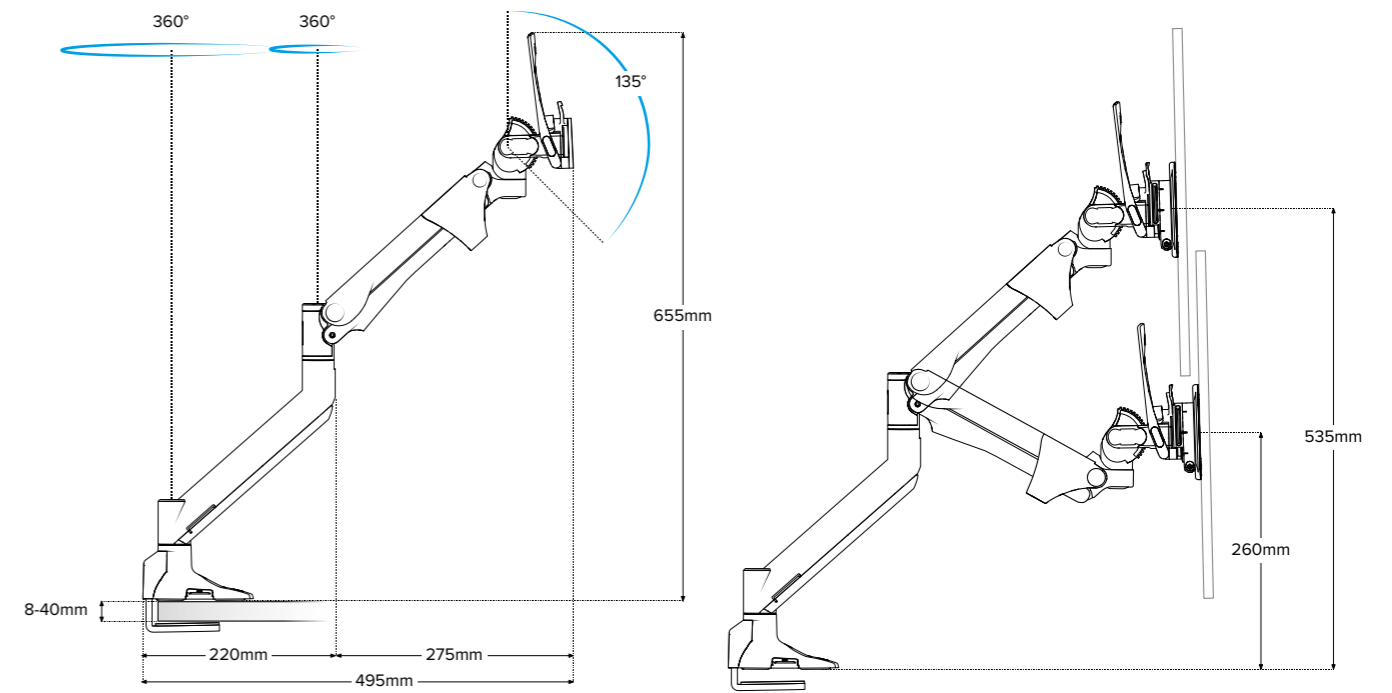

Simple to install, Levo is perfect for single or dual screens in agile working environments or with large touch screens at exhibitions or in reception areas.

Materials

Metal

- Black (BK)
- White (WH)
- Grey (SV)

Twin rail only available in black

Technical details

Monitor arm

- Quick-release 75mm/100mm VESA mount with hand-turn screws
- Smooth gas lift for easy height adjustment
- Innovative ratchet tilt adjustment with safety clutch mechanism using easy to access lever
- One-touch easy position adjustment
- Tension adjustment indicator helps reduce project installation times
- Optional 180° rotation stop
- Integral high capacity cable management (4 cables)
- Desk-edge clamp and through-desk clamp included, tightened from above the desk for easy installation
- Flexible base design for through-desk cable management
- All tools included, stored neatly in the base
- Convert to laptop holder with universal VESA attachment

Twin rail attachment

- Quick-release mount
- Easy slide adjustment to position screens
- Optional handle aids rail tilt adjustment
- Supports 2 screens 1-4kg, up to 730mm max. screen width

Boost

Desktop power modules

Type E
(French)
sockets
available

Beautifully stylish and incredibly compact, the Boost desktop module provides power exactly where you need it while using minimal space on your desk.

Boost is designed to appear subtle and unobtrusive at the rear of the desktop, available in white or black.

The modules include a choice of 1, 2 or 4 individually fused UK power sockets with a neon master switch, with the option of USB-A & USB-C fast charge sockets and RJ45 Cat6 data sockets. Mains power cables are available with a choice of 2, 3 or 5 metre length.

Technical details

- Type G (UK) individually fused or Type E (French) power sockets available, 250V/5A
- Neon master switch option
- Option of USB-A + USB-C fast charge and RJ45 data transfer ports.
- High quality aluminium casing
- 2 x desk edge fixing clamps
- 500mm power drop cable with GST 3-pole male connector with retaining clip
- Certified to BS 5733, CE marked
- 5 year warranty

Materials

Plastic / Aluminium*

Black (BK)
White (WH)

* Please note: 500mm drop cables match module colour. Starter cables and connector cables are black only. Please contact us for power and connector cables in white.

Solo + Solo Plus

In-desk power modules

Type E
socket
available
with Solo

Solo: Simple. Convenient. Incredible value.

With a single UK power socket, USB Smart Charge socket and 2.5m mains power cable, Solo fits conveniently in a standard Ø80mm port hole and provides the perfect accessory to your desk.

Solo Plus offers the same compact simplicity of Solo with a single UK power socket and USB-A smart charge socket plus the addition of 2 x USB-C smart charge sockets - all in one Ø80mm module!

Choose from HDMI or Cat6 RJ45 data transfer inserts for both sides of the module or alternatively have them blank or leave empty for use as cable pass-throughs.

Secure Solo Plus in place with a choice of clamp-on collar or tab system for desk and tables where the collar won't fit.

Technical

SOLO PLUS

- Ø110mm x H65mm
Fits Ø80mm porthole
- 1 x Type G (UK) power socket
230V/13A/3000W
- 1 x USB-A smart charge socket
(QC 3.0 standard, 18W max)
- 2 x USB-C smart charge sockets
(PD standard, both 45W max)
- Option of 2 x data transfer inserts
(HDMI, RJ45, empty or blank)
- 500mm drop power cable with
GST 3-pole male connector
- Fully tested and certified to
BS5733, BS1363-2/A,
CE & UKCA marked
- 5 year warranty

SOLO

- Ø100mm x H80mm
Fits Ø80mm porthole
(Ø60mm without surround)
- 1 x Type G (UK) power socket
230V/13A/3000W
- Type E (French) power socket
230V/13A/3000W
- 1 x USB-A smart charge socket
(QC 3.0 standard, 12W max)
- 2.5m hardwired mains
power cable
- Fully tested and certified to
BS5733 & BS1363/A, CE marked
- 5 year warranty

Click

Hidden in-surface power module

Click is an in-desk power module made with an all metal surround and lid. When closed the lid discretely hides any clutter while allowing cables to neatly pass onto the work surface through the sprung flap.

Simply press the lid to release and reveal the sockets. Click offers 2 Type G (UK) power sockets, USB-A and USB-C charge ports, RJ45 and HDMI data transfer ports.

Technical

- W290 x D174 x H90 mm
- 3mm surface impact
- 275 x 164mm cutout required
- 2 x 13A Type G (UK) sockets
- USB-A + USB-C charge ports, 5.0V/2.4A
- 1 x RJ45 data transfer port
- 1 x HDMI data transfer port
- Integrated GST 3-pole female connector
- 500mm drop power cable with GST 3-pole male connector
- Certified to BS1363/A, BS5733/A, CE & UKCA marked
- 5 year warranty

Form

In-desk power modules

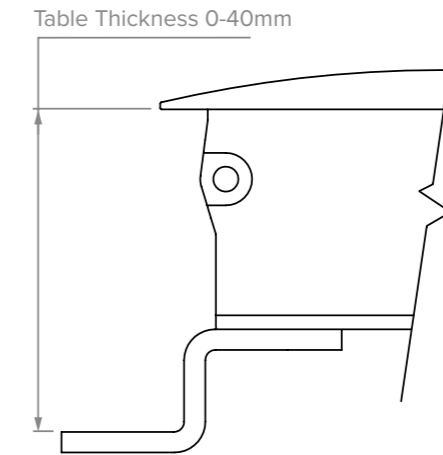

The Form power and comms module has an extraordinarily low profile which fits flush to tabletop.

As well as offering combinations of power, data transfer and USB charge ports, the UK power sockets can be orientated to service users on both sides of the table.

The thin profile also makes it suitable for panel mounting and soft furnishing.

Technical details

- Slimline bezel
- Fast installation
- Fire rated, BS 5733 certified
- PAT tested
- 13A Type G (UK power sockets)
- USB-C port is 45w power delivery
- Available with Type E (French) power sockets
- 500mm drop poer cable with GST 3-pole male connector
- Power cable included (mains to female GST 3-pole connector)
- Data cables (Cat6, HMDI) included (if applicable)
- Module height: 50mm

Powerlink

Underdesk power modules

Type E
(French)
sockets
available

These simple but robust power modules can be installed in cable trays or fixed to the underside of the desk using the brackets or velcro pads provided.

With high quality aluminium alloy casing, solid construction and sleek appearance, Powerlink offers incredible value for money at a very affordable price.

Powerlink modules can be linked to other underdesk or desktop power modules, including Boost, using connector cables with a maximum of six power sockets in one series.

Powerlink comes as a silver alloy case with black plastic insert.

Technical details

- Type G (UK) fused or Type E (French) power sockets
- 250V/5A
- Optional neon master switch
- Male and female GST 3-pole connectors (1 x male connector only on six socket version)
- Fixing brackets (screws) and hook & loop pads
- 250mm trailing earth wire
- Champagne alloy casing with black plastic insert
- Fully tested and certified to BS 5733, CE marked
- 5 year warranty

Cable management

Spines + Socks + Ducts + Clips + Ports + Trays + Baskets

Linx cable spine

Designed with strength, flexibility and ease of installation in mind, Linx offers the latest developments in superior cable management. The unique 'twist not pull' linking system ensures the vertebrae will never pull apart under tension, but will detach very easily when twisted sideways. This ensures that Linx never comes apart while in use, but remains incredibly easy to extend and manipulate when needed. Choose from different lengths for fixed height or sit/stand desks or without the base for use between cable trays on sit/stand benches.

Linx magnetic limpet

The Linx Limpet makes installation quick and easy, fixing the spine to cable trays or desk frame with a magnet. The spine can be easily relocated if required.

- Alternative multipurpose fixing clip will mount to cable tray, wire basket or desktop
- Large weighted stable base with dual cable exits
- Dual cable compartments 30mm x 25mm

	CODE	DESCRIPTION	WIDTH	DEPTH	HEIGHT	RSP (£)
	VCS4/SDL	Magnetic Linx cable spine for standard desk - 20 vertebrae, weighted base, available in White (WH), Light Grey (SV) or Black (BK) plastic	65	35	800	57
	VCS4/SD	Linx cable spine for standard desk with fixing clip - 20 vertebrae, weighted base, available in White (WH), Light Grey (SV) or Black (BK) plastic	65	35	800	45

	VCS4/HBL	Magnetic Linx cable spines for Alto 2 back-to-back sit/stand desk (incl. central cable tray) - 66 vertebrae, weighted base, available in White (WH), Light Grey (SV) or Black (BK) plastic				164
	VCS4/HB	Linx cable spines for Alto 2 back-to-back sit/stand desk (incl. central cable tray) with fixing clips				106
	VCS4/TTL	Magnetic Linx cable spine for tray-to-tray - 33 vertebrae, available in White (WH), Light Grey (SV) or Black (BK) plastic (no base)	65	35	1280	66
	VCS4/TT	Linx cable spine for tray-to-tray with fixing clips - 33 vertebrae, available in White (WH), Light Grey (SV) or Black (BK) plastic (no base)	65	35	1280	42
	VCS2	Fabric cable wrap sock (H657mm) with adjustable strap for small height adjustments, internal straps accommodate cables up to approx. 2.5cm ² in total, available in White (WH), Grey (SV) or Black (BK)	Ø70	-	720-820	50
	DNZ014	Magnetic cable duct, attaches to desk/table leg, available in White (E), Grey (M), Black (A) and Dark Grey (T1) metal	43	22	600	73
	DQZ001	3 cable clips (White plastic), for fitting to Nova frames/legs	-	-	-	22
	DQZ005	5 cable clips (White plastic), for fitting to Nova frames/legs	-	-	-	28

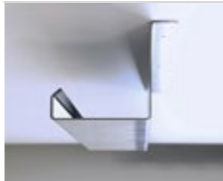

Untidy power and data cables are unsightly, make cleaning difficult and can pose a safety risk. Use of a cable tray underneath the desk helps to keep cables neat and tidy and the workspace clear. The range of simple but strong steel cable trays is designed to suit various desk sizes and arrangements. Steel wire cable baskets will hinge down on brackets for easy access during installation of cables.

Materials

Metal

Sit-stand mats

Anti-fatigue mats

Comfort Spot mats

Anti-fatigue mats reduce swelling of the legs and decrease fatigue by improving circulation.

Comfort Spot's elasticated and breathable cellular structure retains heat and it can be easily cleaned with a brush, vacuumed or washed with water. It comes with a handy hanging clip, compatible with any desktop.

Fabrics

The fabrics which adorn our products are used in a vast array of commercial interiors, education, healthcare and retail spaces. We work with manufacturers like Camira to bring you the highest quality fabrics and finishes for use with our products so you can release your inner creativity with an array of colours and styles. These fabrics are tried, tested, certified to be safe and produce long lasting, comfortable and beautiful results which bring colour, design and personality to interior workspaces.
