silverline

about us

furniture manufacturer

Silverline have been manufacturing steel office furniture for over 40 years in the UK but now offer more than just steel storage and have introduced furniture into our portfolio and we are proud to be part of the Made in Britain alliance.

We continually invest in state-of–the-art machinery which helps us to be flexibile & build quality into all of our products. This investment allows the business to be flexible and to offer bespoke products based on our standard portfolio.

Our experience with product innovation lies in incorporating features that offer benefits such as reconfigurable solutions for future scenarios and consideration to the end of a product lifecycle. Each product reaches, at some point, the end of its life, so Silverline design products to ensure there is ease of entry into the recycling chain for the ultimate in modern sustainability.

environmental

sustainability

Ever conscious of the impact on the environment, we exceed the requirment of ISO 14001 standards, and are also part of the Furniture Industry Sustainability Programme developed by FIRA.

FISP is the industry forum on all environmental and sustainable issues. FISP focuses on not just environmental issues, but also purchasing, end of product life, social and community issues.
